Doak Bishop, 2009-09-01 The past decade has seen a veritable explosion of investment treaty and other arbitration claims brought against sovereigns Many of those cases have been filed before the International Centre for Settlement of Investment Claims ICSID which has its own self contained rules for enforcement Given this significant increase in sovereign cases and the issues attendant to sovereign immunity this treatise is timely in addressing the various issues that arise in enforcing arbitral awards against sovereigns One of the first questions posed to their counsel by clients considering the initiation of an arbitration proceeding against a sovereign state is whether and how the resulting award can be enforced The origin of the client's question is usually based in some knowledge that a state possesses sovereign immunity along with an uncertain concern about the exceptions to such immunity and the difficulties of enforcement against a sovereign's assets This uncertainty is understandable especially in light of the sometimes confusing and even contradictory court decisions in certain jurisdictions It is these inquiries in their broadest application that form the subject of this treatise With contributions by eminent and experienced practitioners of the multiple issues that have arisen in various jurisdictions and the key cases that have created the law of enforcement of obligations against sovereigns this book will provide access to valuable information add to the transparency of this subject and further spur the consistent development of this area of law This book is divided into three

parts The first part is general in nature and includes chapters encompassing the subjects of sovereign immunity in general including both immunity from jurisdiction and immunity from enforcement treaty obligations to honor awards diplomatic protection by a claimant s government to obtain payment of awards and conciliation and settlement The second part of the book deals with the means of enforcing awards Part three of this treatise addresses the enforcement issues that arise in specific jurisdictions in which enforcement against sovereign assets is often sought in particular the United States the United Kingdom Switzerland France The Netherlands and South America Arbitration International ,1992 Redfern and Hunter on International Arbitration Nigel Blackaby KC,Constantine Partasides KC,Alan Redfern,2023-01-18 Redfern and Hunter on International Arbitration is an established treatise on the law and practice of international arbitration the pre eminent method for the peaceful resolution of disputes in international trade investment and commerce This book serves as an introduction following the chronology of an arbitration from the drafting of the arbitration agreement right through to the enforcement of the arbitral award Written by an author team with extensive experience as counsel and arbitrators the book has been read and cited by international lawyers arbitrators and judges and has become a key learning text for teachers students and potential arbitrators in colleges and universities across the world The seventh edition has been significantly revised to incorporate the latest significant developments in the field including changes in investor state dispute resolution leading court decisions on arbitration matters in a wider number of jurisdictions changes in the soft law of leading international arbitral institutions and of the International Bar Association and the impact of the COVID 19 pandemic on the practice of international arbitration This shorter paperback edition does not include the appendices Quo Vadis Arbitration?:Sixty Years of Arbitration Practice Pieter Sanders,1999-06-16 Lawyer arbitrator negotiator author educator drafter rapporteur andndash for sixty years Pieter Sanders has been in the eye of the storm as during this period arbitration grew into the world s preferred method for the resolution of commercial disputes No one is better qualified to assess the current worldwide condition and prospects of arbitration and conciliation or to offer practical insightful solutions to the problems confronting arbitration practice today Quo Vadis Arbitration will not disappoint the many lawyers judges legislators and businesspeople to whom it is addressed Drawing on his wide and varied experience and especially on the occasions when resourceful measures had to be taken in the absence of clear legal guidance Professor Sanders presents cogent well reasoned arguments and recommendations for the main issues which may arise in any arbitration a revision of the UNCITRAL Model Law a harmonisation of Rules on Conciliation and drafting a Model Law on Conciliation refining Codes of Ethics and Codes of Taking Evidence to strengthen bridges between cultural differences A list of the author s achievements is virtually a history of the development of international arbitration since the 1930s With many warmly shared anecdotes of the conflicts compromises and triumphs of pivotal meetings and conventions Professor Sanders takes the reader behind the scenes for a rare glimpse into the inner workings of the complex and rewarding process that created this invaluable modern

York Convention of 1958 He discusses the unique structures of control in each situation as well as the stresses they have sustained Drawing on extensive research and his own experience as a participant in the resolution of some of the disputes discussed Reisman analyzes recent key decisions including Australia and New Zealand s attempt to stop France s nuclear testing in Muroroa AMCO vs Republic of Indonesia concerning the construction of a large tourist hotel in Asia and numerous others Reisman explores the implications of the breakdown of control systems and recommends methods of repair and reconstruction for each mode of arbitration As a crucial perspective and an invaluable guide this work will benefit both scholars and practitioners of international dispute resolution

Carbonneau on International Arbitration Thomas E. Carbonneau, 2011-01-01 The chapters of this volume represent the majority of Professor Carbonneau s scholarly writings on the subject of international commercial arbitration They reflect his interest over the course of thirty years of law teaching in international litigation comparative law and of course international arbitration Some of the chapters are of a recent vintage while others were written a decade or two ago Whatever their date of production the chapters have a continuing professional interest Each addresses some of the major issues of trans border arbitration law A number of chapters emphasize the importance of courts in developing and maintaining a legal culture that is hospitable to arbitration The work of the courts has been instrumental to the reception of arbitration in the United States and in several European jurisdictions The courts can make or break arbitration by upholding arbitration agreements and enforcing arbitral awards Other chapters underscore that arbitration can operate as a complete legal system It not only provides workable trial procedures but arbitrators can also create law in their rulings With the addition of an internal arbitral appellate mechanism arbitrations can function with almost absolute independence The world law on arbitrations seems to favor the a national and a juridical operation of the arbitral process A few of the chapters recognize that arbitration is being increasingly employed to resolve political or mixed political and commercial disputes Investment arbitration and BITs are the most recent expression of this development it had been apparent in WTO and NAFTA dispute resolution The Iran U S Claims Tribunal presented the first great occasion for assessing the vocation of arbitration in a mixed dispute situation While arbitration has made significant inroads in this area political sovereignty remains resistant to the imposition of limitations In many less visible political cases determinations are nonetheless made and rendered enforceable The concluding chapters address more specific developments in the field of ICA A number of cases point to the strong perhaps overweening support of the judiciary for arbitration The courts in some jurisdictions support arbitration unequivocally and are bent upon a single outcome no matter the impact on doctrine Lawyer presence in the arbitral process has lead to increased formalization in some proceedings The judicialization of arbitration tilts the process toward the protection of rights and hinders its ability to function effectively and reach finality Lawyers can

readily misunderstand and undermine the gravamen of arbitration The concluding chapters also establish that the UK Arbitration Act 1996 is one of the world s outstanding arbitration statutes It rivals and bests the UNCITRAL Model Law on ICA and is the equal of the French codified law on arbitration Finally the express text of the New York Arbitration Convention appears to have been altered significantly by court practice The possible limitations of national law have been neutralized and the provisions of the Convention articulate a truly trans border regulation of the enforcement of awards In sum the chapters in this book reflect the author s lifetime work in the area of international arbitration and are required reading for all those practicing in the field law students arbitrators academics and practicing lawyers *Subject Guide to Books in Print* ,1996 **International Commercial Arbitration** ,1988 Soviet Foreign Trade Reforms & East/West Arbitration ,1989
