Bureau of Justice Assistance, 1994 *Oxford Manual of Major Incident Management* Paul Hunt, Ian Greaves, 2017 The Oxford Manual of Major Incident Management brings together and integrates the key facts for all those involved in major incident planning and response This will be an invaluable resource for a wide range of professionals from doctors across emergency medicine public health general practice pre hospital care and communicable disease control to nurses emergency services administrators and planners Transport industrial and natural disasters have always necessitated a coordinated interagency multi professional response and with the rising threat in terrorist incidents that need has never been greater The information base required to plan for and manage this response has now been collected together into a single user friendly volume clearly describing the hazards and their management at all stages This manual will be useful in planning for all types of major incident acting as the basis for training and as an aide memoir during an event Authoritative comprehensive and concise this quick reference guide will be of use to both established experts and to novices in the field **Encyclopedia of Trauma** Charles R. Figley, 2012-06-19 Trauma is defined as a sudden potentially deadly experience often leaving lasting troubling memories Traumatology the study of trauma its effects and methods to modify effects is exploding in terms of published works and expanding in terms of scope Originally a narrow specialty within emergency medicine the field now extends to trauma psychology military psychiatry and behavioral health post traumatic stress and stress disorders trauma social work disaster mental health and most recently the subfield of history and trauma with sociohistorical examination of long term effects and meanings of major traumas experienced by whole communities and nations both natural Pompeii Hurricane Katrina and man made the Holocaust 9 11 One reason for this expansion involves important scientific breakthroughs in detecting the neurobiology of trauma that is connecting biology with human behavior which in turn is applicable to all fields involving human thought and response including but not limited to psychiatry medicine and the health sciences the social and behavioral sciences the humanities and law Researchers within these fields and more can contribute to a universal understanding of immediate and long term consequences both good and bad of trauma both for individuals and for broader communities and institutions Trauma encyclopedias published to date all center

around psychological trauma and its emotional effects on the individual as a disabling or mental disorder requiring mental health services This element is vital and has benefited from scientific and professional breakthroughs in theory research and applications Our encyclopedia certainly will cover this central element but our expanded conceptualization will include the other disciplines and will move beyond the individual

Managing Criminal Investigations Peter B. Bloch, Donald R. Weidman, 1975 Prescriptive package designed to assist police managers to improve the success of their departments criminal investigation efforts While skilled detectives are often essential there are a number of new methods police managers can adopt to improve investigative success Management issues addressed include budgeting and allocating resources improving relationships with the prosecutor interacting with the public especially victims and witnesses improving relationships between investigators and patrol officers decentralizing detective assignments particularly in neighborhood team policing approaches using civilian employees for investigative tasks assigning personnel supervising and training investigative personnel improving investigative procedures and conducting investigative activities not related to specific cases The suggestions are based on an examination of the investigative practices of six selected police departments a review of the relevant literature and recent experiments in other departments and the observations and conclusions of a panel of experienced police officials It is especially interesting to note that many of the ideas require little or no additional resources This report is written primarily for police chiefs and heads of detective units but should also be of interest to other police officials and to local government officials such as city managers
