Ursula Hackett

Political Dynamics Of School Choice Negotiating Contested Terrain:

The Political Dynamics of School Choice L. Fusarelli, 2003-05-15 Lance D Fusarelli examines the relationship between the charter school and voucher issues To what degree does political support for charter schools from a coalition of teacher associations school board groups superintendents and voucher advocates slow or even stop the forces for vouchers Or do these coalitions which successfully pushed charter school legislation through the legislature actually fuel the fires of privatization Charter schools legislation has enjoyed bipartisan support precisely because the threat of vouchers is so great And contrary to the strategy of voucher opponents the spread of charter school increases rather than alleviates the push for vouchers

The Political Dynamics of School Choice L. Fusarelli, 2003-07-18 Lance D Fusarelli examines the relationship between the charter school and voucher issues To what degree does political support for charter schools from a coalition of teacher associations school board groups superintendents and voucher advocates slow or even stop the forces for vouchers Or do these coalitions which successfully pushed charter school legislation through the legislature actually fuel the fires of privatization Charter schools legislation has enjoyed bipartisan support precisely because the threat of vouchers is so great And contrary to the strategy of voucher opponents the spread of charter school increases rather than alleviates the push for vouchers

Making Sense of School Choice Joel A. Windle, 2016-04-29 Making Sense of School Choice explains why school choice fails to deliver on its promise to meet the needs of culturally diverse populations even in one of the world's most marketized education systems Windle offers fresh insights into the transnational processes involved in producing educational inequalities

Education and the Political Tomasz Szkudlarek, 2013-11-19 The essays in this collection address the relation between education and politics in new ways Rather than understanding education simply as the object of political decision making or as preparation for politics the authors of this volume see education as implicated in social conflicts and in the political processes that produce and change social structures Education then is a practice that reconfigures the relations between subjectivities and the political The collection focuses on several critical cases and theoretical debates where the relation between education and politics demands new articulations It explores the potential of theoretical languages proposed by Rancière Laclau Derrida Mouffe Bakhtin and other thinkers whose work has not yet been fully recognized in its pedagogical meaning

The Globalisation of School Choice? Martin Forsey, Scott Davies, Geoffrey Walford, 2008-05-12 Which school should I choose for my child For many parents this question is one of the most important of their lives School choice is a slogan being voiced around the globe conjuring images of a marketplace with an abundance of educational options Those promoting educational choice also promise equality social advantage autonomy and self expression to families But what does this globalisation of school choice actually look like on the ground This collection brings together educationalists anthropologists and sociologists who use a rich array of empirical data to understand the complex realities of school choice across a range of political and social settings in Argentina Australia Canada China England India Israel Japan

Singapore Tanzania and the United States Together they show that while the language of school choice has spread globally it has done so unevenly across and within nations and is always interpreted through local social and historical contexts Neo liberal policy initiatives are re shaping education systems in many nations but in complex and varied ways This collection shows that rather than eliminating equity concerns they re embed them within new frameworks of choice and accountability This is an important book for those interested in comparative education as well as the sociology and politics of schooling

Special Interest Terry M. Moe, 2011-04-01 Why are America's public schools falling so short of the mark in educating the nation's children Why are they organized in ineffective ways that fly in the face of common sense to the point that it is virtually impossible to get even the worst teachers out of the classroom And why after more than a quarter century of costly education reform have the schools proven so resistant to change and so difficult to improve In this path breaking book Terry M Moe demonstrates that the answers to these questions have a great deal to do with teachers unions which are by far the most powerful forces in American education and use their power to promote their own special interests at the expense of what is best for kids Despite their importance the teachers unions have barely been studied Special Interest fills that gap with an extraordinary analysis that is at once brilliant and kaleidoscopic shedding new light on their historical rise to power the organizational foundations of that power the ways it is exercised in collective bargaining and politics and its vast consequences for American education The bottom line is simple but devastating as long as the teachers unions remain powerful the nation's schools will never be organized to provide kids with the most effective education possible Moe sees light at the end of the tunnel however due to two major transformations One is political the other technological and the combination is destined to weaken the unions considerably in the coming years loosening their special interest grip and opening up a new era in which America's schools can finally be organized in the best interests of children *Handbook of Education Policy Research* Gary Sykes, Barbara Schneider, David N. Plank, 2012-09-10 Co published by Routledge for the American Educational Research Association AERA Educational policy continues to be of major concern Policy debates about economic growth and national competitiveness for example commonly focus on the importance of human capital and a highly educated workforce Defining the theoretical boundaries and methodological approaches of education policy research are the two primary themes of this comprehensive AERA sponsored Handbook Organized into seven sections the Handbook focuses on 1 disciplinary foundations of educational policy 2 methodological perspectives 3 the policy process 4 resources management and organization 5 teaching and learning policy 6 actors and institutions and 7 education access and differentiation Drawing from multiple disciplines the Handbook's over one hundred authors address three central questions What policy issues and questions have oriented current policy research What research strategies and methods have proven most fruitful And what issues questions and methods will drive future policy research Topics such as early childhood education school choice access to higher education teacher accountability and testing and measurement cut across the 63

chapters in the volume The politics surrounding these and other issues are objectively analyzed by authors and commentators Each of the seven sections concludes with two commentaries by leading scholars in the field The first considers the current state of policy design and the second addresses the current state of policy research This book is appropriate for scholars and graduate students working in the field of education policy and for the growing number of academic government and think tank researchers engaged in policy research For more information on the American Educational Research Association please visit <http://www.aera.net>

Re-envisioning Education & Democracy Ruthanne Kurth-Schai, Charles R. Green, 2016-04-01 The future of public education and democracy is at risk Powerful forces are eroding commitment to public schools and weakening democratic resolve Yet even in deeply troubling times it is possible to broaden social imagination and empower effective advocacy for systemic progressive reform Re envisioning Education and Democracy explores challenges and opportunities for restructuring public education to establish and sustain more broadly inclusive deeply democratic and effectively transforming approaches to social inquiry and civic participation Re envisioning Education and Democracy adopts a non traditional format to extend social awareness and imagination Within each chapter one episode of an evolving strategic narrative traces the life cycle of a systemic reform initiative This is followed by an exploratory essay that draws from theory research criticism and practice to prompt consideration of focal issues Woven through each chapter is a poetically framed meditative stream informed by varied historical and cultural conceptions of oracles A developmental sequence of social learning strategies exploratory democratic practices accompanied by thematic bibliographic references are included to model democratic teaching and learning applicable in classroom and community settings

America's Voucher Politics Ursula Hackett, 2020-05-07 What explains the explosive growth of school vouchers in the last two decades In America s Voucher Politics Ursula Hackett shows that the voucher movement is rooted in America s foundational struggles over religion race and the role of government versus the private sector Drawing upon original datasets archival materials and more than one hundred interviews Hackett shows that policymakers and political advocates use strategic policy design and rhetoric to hide the role of the state when their policy goals become legally controversial For over sixty years of voucher litigation white supremacists accommodationists and individualists have deployed this strategy of attenuated governance in court By learning from previous mistakes and anticipating downstream effects policymakers can avoid painful defeats gain a secure legal footing and entrench their policy commitments despite the surging power of rivals An ideal case study education policy reflects multiple axes of conflict in American politics and demonstrates how policy learning unfolds over time

People of Color in the United States Kofi Lomotey, Pamela Braboy Jackson, Muna Adem, Paulina X. Ruf, Valire Carr Copeland, Alvaro Huerta, Norma Iglesias-Prieto, Donathan L. Brown, 2016-10-17 This expansive four volume ready reference work offers critical coverage of contemporary issues that impact people of color in the United States ranging from education and employment to health and wellness and immigration People of Color in the United States Contemporary Issues in

Education Work Communities Health and Immigration examines a wide range of issues that affect people of color in America today covering education employment health and immigration Edited by experts in the field this set supplies current information that meets a variety of course standards in four volumes Volume 1 covers education grades K 12 and higher education volume 2 addresses employment housing family and community volume 3 examines health and wellness and volume 4 covers immigration The content will enable students to better understand the experiences of racial and ethnic minorities as well as current social issues and policy The content is written to be accessible to a wide range of readers and to provide ready reference content for courses in history sociology psychology geography and economics as well as curricula that address immigration urbanization and industrialization and contemporary American society
