

REDESIGNING EDUCATION IN THE U.S. FOR ACADEMIC SUCCESS

Robert L. Guillaume

Redesigning Education In The Us For Academic Success

Dina C. Maramba, Timothy P. Fong

Redesigning Education In The Us For Academic Success:

Redesigning Education in the U.S. for Academic Success Robert L. Guillaume,2005-06-01 *Redesigning American Education* James Coleman,2018-03-08 Drawing on several principles of sociological theory James S Coleman and his colleagues construct a new design for American schooling The authors present compelling evidence on the deficits of our educational system compared to other countries arguing that the problems are the result of inappropriate incentives for teachers students and parents *Evaluation of "Redesigning the National Assessment of Educational Progress"* National Research Council,Division of Behavioral and Social Sciences and Education,Board on Testing and Assessment,Committee on Evaluation of National and State Assessments of Educational Progress,1996-10-12 Higher Education Systems Redesigned Jonathan S. Gagliardi,Jason E. Lane,2022-04-01 Long an afterthought of the American higher education ecosystem multi campus systems have become more important than ever In recent years leading higher education systems have engaged in transforming the way they work scaling best practices leveraging data and analytics and creating platforms to optimize and personalize these systems for increasingly diverse students In Higher Education Systems Redesigned leaders of these efforts share their insights into systemness and how to facilitate sustainable change in a system setting while navigating and leveraging tensions between campus and system priorities Highlighting examples of successful realignment of these priorities with a focus on contextualized design and implementation the book charts a shift in the aim of systems Rather than perpetuating existing norms as they have traditionally done systems are taking measures to spark innovation across campuses and use evidence based practices to foster student access and completion rates better serve communities and drive social mobility and economic growth Each chapter concludes with a list of takeaways to guide other system leaders and administrators One of the few recent examinations of higher education systems Higher Education Systems Redesigned offers a theoretical and practical framework for how systems can continually evolve *Redesigning America's Community Colleges* Thomas R. Bailey,Shanna Smith Jaggars,Davis Jenkins,2015-04-09 Community colleges enroll half of the nation s undergraduates Yet only 40 percent of entrants complete an undergraduate degree in six years Redesigning America s Community Colleges explains how two year colleges can increase their students success rate quickly and at less cost through a program of guided pathways to completion Transformative Practices for Minority Student Success Dina C. Maramba,Timothy P. Fong,2023-07-03 Between 2000 and 2015 the Asian American Pacific Islander population grew from nearly 12 million to over 20 million at 72% percent recording the fastest growth rate of any major ethnic and racial group in the US This book the first to focus wholly on Asian American and Native American Pacific Islander Institutions AANAPISIs and their students offers a corrective to misconceptions about these populations and documents student services and leadership programs innovative pedagogies models of community engagement and collaborations across academic and student affairs that have transformed student outcomes The contributors stress the importance of disaggregating this

population that is composed of over 40 ethnic groups that vary in immigrant histories languages religion educational attainment levels and socioeconomic status This book recognizes there is a large population of underserved Asian American and Pacific Islander college students who given their educational disparities are in severe need of attention The contributors describe effective practices that enable instructors to validate the array of students specific backgrounds and circumstances within the contexts of developing such skills as writing leadership and cross cultural communication for their class cohorts as a whole They demonstrate that paying attention to the diversity of student experiences in the teaching environment enriches the learning for all The timeliness of this volume is important because of the keen interest across the nation for creating equitable environments for our increasingly diverse students This book serves as an important resource for predominantly white institutions who are admitting greater numbers of API and other underrepresented students It also offers models for other minority serving institutions who face similar complexities of multiple national or ethnic groups within their populations provides ideas and inspiration for the AANAPISI community and guidance for institutions considering applying for AANAPISI status and funding This book is for higher education administrators faculty researchers student affairs practitioners who can learn from AANAPISIs how to successfully engage and teach students with widely differing cultural backgrounds and educational circumstances

Redesigning Educational Leadership Preparation for Equity Michelle D. Young, Ann O'Doherty, Kathleen M.W. Cunningham, 2021-09-28 Delivering equity for PK 12 learners is an essential aim for educational leadership preparation programs This book serves as a resource for equity focused design and redesign thorough innovation improvement and impact Based on direct experience while also drawing from innovative exemplars and unpacking a decade of program improvement practice this book explores how to foster partnerships and pipelines recruit and select candidates map the curriculum develop powerful learning experiences create field experiences design program evaluation and support faculty learning Chapters open with a vignette that presents scenarios in which many faculty members find themselves particularly when programs are in need of improvement Drawing on years of experience facilitating redesign the authors offer both processes and resources to assist faculty including diagnostic tools sample agendas templates guiding questions and suggested protocols Whether facing new accreditation requirements state program approval changes institutional redesign challenges or as part of a grant funded redesign this book is a critical resource for educational leadership faculty and program coordinators looking to garner the appropriate resources ask the right questions and follow reliable processes in program design and continuous improvement toward equity Chapter resources and templates available for download online at <https://www.routledge.com/9780367673543> on the tab that is entitled Support Material Please also join Redesign Improve Innovate an online forum focused on preparation and practice improvement found here www.RedesignImproveInnovate.org

Designing the Learning-centred School Clive Dimmock, 2005-12 This book is the first of its kind to combine a detailed comprehensive description of the learning centred school with an examination of a cross cultural

perspective **Cases on Academic Program Redesign for Greater Racial and Social Justice** Cain-Sanschagrin, Ebony, Filback, Robert A., Crawford, Jenifer, 2021-11-19 Faculty and students confront persistent racial economic and social inequities in higher education locally nationally and globally To counter these inequities there has been a recent focus on universities providing an inclusive curriculum that serves the needs of students from a wide range of backgrounds Inclusive and equitable courses and instruction are crucial in today's world as calls for racial and social justice grow particularly in higher education Universities and instructors must take action and make changes to best serve their students Cases on Academic Program Redesign for Greater Racial and Social Justice provides an equity oriented practical guide for those in higher education who are engaged in the work of curricular reform or program development It also explores practices and approaches to curriculum development that consider program quality and equitable outcomes as mutually beneficial and necessary outcomes Covering a range of topics such as antiracism and mindful hiring it is ideal for teachers instructional designers curricula developers administrators academics professors educators researchers those working in higher education and students **The Leading Edge of Early Childhood Education** Nonie K. Lesaux, Stephanie M. Jones, 2021-02-23 The Leading Edge of Early Childhood Education aims to support the effort to simultaneously scale up and improve the quality of early childhood education by bringing together relevant insights from emerging research to provide guidance for this critical fledgling field It reflects the growing recognition that early childhood experiences have a powerful effect on children's later academic achievement and long term life outcomes Editors Nonie K Lesaux and Stephanie M Jones bring together an impressive array of scholarly contributors Topics include creating learning environments that support children's cognitive and emotional development identifying and addressing early risk factors using data to guide educators practice and capitalizing on the use of technology Recent years have seen a surge of local state and national initiatives aimed at expanding and improving early childhood initiatives particularly regarding access to preK programs The Leading Edge of Early Childhood Education promises to be a valuable resource for those charged with enacting the next level of work in this critical area
