Comparative Regionalism Fred H. Lawson, 2017-03-02 Regionalism has regained momentum in the post Cold War era. New economic groupings continue to spring up across the globe while older regional organizations have strengthened their institutional bases and broadened their scope. Explaining the reinvigoration of regionalism requires comparative analyses that not only highlight the commonalities that characterize various regional experiments but also account for the differential outcomes and divergent trajectories such projects exhibit. This collection of seminal articles on regionalism advances theoretical concepts that can stimulate useful comparisons along with scholarly surveys of important instances of regionalism in the contemporary world. Besides classic studies of the European Union, the volume includes authoritative overviews and case studies of regionalist projects in East Asia, Sub-Saharan Africa, Latin America, the Middle East, and Central Eurasia. An introductory essay situates these articles in the context of the five decade long research program on regional integration theory. **The Uruguay Round and Beyond** Jagdish N. Bhagwati, Mathias Hirsch, 1999 Key players in world trade policy formation discuss the origins of the World Trade Organization and where it is going. The WTO as an International Organization Anne O. Krueger, Chonira Aturupane, 1998-02-28 Presuming no technical background in economics, this volume is a comprehensive and timely introduction to the WTO's situation in the global economy and will appeal to anyone interested in world trade.
