Reflections On The Revolution Of Our Time:

Reflections on the Revolution of Our Time Harold Laski, 2017-07-05 Harold J Laski saw World War Two as a period of revolutionary change as profound as any in the modern history of the human race In his view the period's inner nature was as significant in its essentials as those which saw the fall of the Roman Empire the birth in the Reformation of capitalist society or as in 1789 the final chapter in the dramatic rise of the middle class to power All of these were not revolutions made by thinkers though some of them may have foreseen its coming but of ordinary people who shaped the large outlines of the direction of these changes Laski held that revolutions of our time have been rooted in all that goes to give its present character to our society We can recognize its advent and prepare for it in that event we might build a civilization richer and more secure than any of which we so far have knowledge Or we may choose to resist its onset in which case it will appear to some future generation that our age has sought rather to sweep back the tides of the ocean than to oppose the decrees of men The curse of our social order is its persistent inequalities Either we must find ourselves able to co operate in their removal or we shall move rapidly to conflict about them Laski argues that the middle class must co operate with workers in essential revisions as the aristocracy was wise enough to do a century ago over the Reform Bill or violent revolution will be unleashed by means that transforms the ends of either party to the conflict in view This is the choice that lies before us Just how accurate or wide of the mark Laski was is brilliantly articulated in the critical introduction by Sidney A Pearson Jr

Reflections on the Revolutions of Our Time Harold J. Laski, Originally published New York Viking 1943

Reflections on the Revolution of Our Time Harold Joseph Laski, 1968 **Discourse Theory and Political Analysis**

David R. Howarth, Aletta J. Norval, Yannis Stavrakakis, 2000-11-18 How can recent developments in post structuralist post Marxist and psychoanalytical theory actually inform ongoing empirical research What are the appropriate methods and research strategies for conducting research in discourse theory and analysis How can concepts such as hegemony identity the imaginary dislocation and empty signifiers illuminate key aspects of contemporary society and politics This pathbreaking and multi focal book contains a clear introductory statement of the theoretical approach used and concludes with an assessment of the future directions of discourse theory in the social sciences **Dilemma of Our Times** Harold J.

Laski, 1968 First Published in 1968 Routledge is an imprint of Taylor Francis an informa company **The Crisis of Marxism** Elías J. Palti, 2025-06-09 In this book Elías J Palti analyzes the writings of key thinkers who have theorized the present situation of Marxism Perry Anderson Fredric Jameson Ernesto Laclau Slavoj Žižek Judith Butler Alain Badiou and Jacques Derrida His aim is to interrogate what appears to be the final crisis of Marxist political tradition from a historical intellectual point of view placing it within a broader framework which is the present crisis of politics at large Yet it also reveals why we cannot even then avoid confronting it stubbornly trying to think of what seems to be unthinkable today namely the idea of an emancipatory horizon Unlike traditional works of political philosophy *The Crisis of Marxism* A

Historical Intellectual Problem does not intend to provide political or philosophical answers to today's dislocation of politics. Instead, it aspires to clarify the nature of the questions that such a situation raises and demonstrates why the current crisis of Marxism contains some fundamental clues for it. **Colonial Buganda and the End of Empire** Jonathon L.

Earle, 2017-08-24 This book offers an intellectual history of colonial Buganda using previously unseen archival material to recast the end of empire in East Africa. It will be ideal for researchers, upper level undergraduate and graduate students interested in the cultural, intellectual, religious, and political history of modern East Africa. **The PKK-Kurdistan Workers'**

Party's Regional Politics Ali Balci, 2016-11-30 This book presents a theoretical framework to study dissident ethnic movements' imagination of world politics with a special focus on the PKK as a case study. Dissident ethnic movements are not only a challenge to the existing hegemonic power but they also produce an alternative closed society based on different ethnic imagination. Instead of taking the armed PKK movement as a pure resistant, this book approaches contemporary Kurdish nationalism led by the PKK as a counter-hegemonic with a narrative that entails the emergence of a new kind of identity and sense of belonging through which the PKK has been able to exercise its power. This book is an attempt to go beyond resistance-oriented approach, unveiling the two faces of the PKK's representation of world politics, its transformative effect on the Kurds, and its exclusionary function towards traditional and alternative Kurdish subjects/institutions.

Normalising Private Military Force Christopher Kearney, 2025-09-03 This book examines the normalization of Private Military and Security Companies (PMSCs) and analyses US media discourse around the Nisour Square incident in Iraq as a pivotal case. States are increasingly relying on PMSCs to meet security needs. As a sign of ongoing normalization, these companies are now increasingly targeted by soft law or self-regulation. Rejecting the common claim that mercenaries have always been with us, this book sets out to analyse the underlying conditions that have allowed PMSCs to emerge in their uniquely contemporary incarnation. Divided into two parts, this book develops a novel poststructural framework of analysis to articulate social, political, and affective conditions that enabled PMSCs to prevail despite controversy. It draws on and operationalizes the Essex School's logics-based approach while developing it further with corpus linguistics and applies this framework to a large corpus of American mainstream media articles. The volume contributes to efforts aiming to overcome the alleged methodological deficit of discourse analysis while highlighting the importance of making unconsciously held truths visible. This book will be of interest to students of private security companies, military studies, critical security studies, and International Relations. *Populist Discourse* Yannis Stavrakakis, 2024-04-26 *Populist Discourse: Recasting Populism Research* offers a refreshingly innovative discourse theory perspective on populist phenomena. Reading this book will help you familiarize yourself with the historical genealogy of significant populist phenomena from the end of the 19th century onwards and with the main conceptual/theoretical accounts established to analyse them. Mainstream conceptualizations of populism in both academia and public discourse are critically discussed in order to map new promising avenues for research.

Inspired by the works of Ernesto Laclau and Chantal Mouffe the book addresses current challenges within populism research and highlights the new directions that a conceptually nuanced theoretically rigorous and historically informed discursive orientation can contribute to the contemporary study of populism Without sacrificing attention to detail strong bibliographical support and a focus on the future development of populism research *Populist Discourse* is written in accessible language to engage populism scholars advanced undergraduates and graduate level students within the field of political science Due to its interdisciplinary character it will also appeal to readers associated with various politically informed area studies and the broader field of ideology and discourse analysis
