Reflections on Old Age Cornelius F. Murphy, 2015-04-07

The English writer E M Forster described old age as a seductive combination of increased wisdom and decaying powers to which too little intelligence is devoted This book is a response to that criticism It explains how old age has been considered throughout the ages by philosophers poets and other literary figures and explores how the extraordinary increase of life expectancy that began in the last century has been sustained by science and medicine Unfortunately the general public still prefers to keep the elderly out of sight and especially out of mind To overcome this marginalization I call for the emergence

of a more inclusive humanism one that is welcoming to persons of all ages To overcome the pervasive isolation of the elderly requires a new dialogue across all the living generations Echoing the sentiments of Cicero in his classic study of old age I also call for a reflective maturity to develop among the elderly one that reaches deeply into themselves and increases their understanding of the world around them Spiritual maturity demands growth in virtue and charity in the advance of years A reaching out to all in the pursuit of justice and the common good is strongly recommended The book concludes with some reflections upon hopes for personal immortality as well as the qualities of divine justice and mercy **Inspirational**
