Regional Development Oksana Dmitrieva, 1996 Regional Development in the USSR North Atlantic Treaty Organization. Economics Directorate, North Atlantic Treaty Organization. Information Directorate, 1979 Footnotes

Regional Development in Russia Hans Westlund, Aleksandr Grigor'evich Granberg, Folke Snickars, 2000 Ten years ago the former Soviet Union was pictured in the West as a monolithic unit governed from Moscow with a firm hand Today the geographical area which once constituted the USSR no longer exists and the disparities between regions are increasing all the time This is the first book to provide an overview of Russia's regional development during the entire Soviet period as well as presenting a penetrating analysis of the array of regional problems facing Russia as we move into the twenty first century It analyses factors contributing to cohesion and disintegration in Russia today stressing the importance of ethnicity religion and Russian nationalism In examining regional developments and spatial policy during the Soviet period the authors reveal a remarkable paradox that the development of heavy industry actually reduced regional inequalities but as the economy diversified disparities widened The book is also a document from the people who were there that is those trying in the circumstances then prevailing to develop regional science which never achieved practical application under central planning The authors conclude that the development of Russia is increasingly becoming an issue of the development of its regions This book will be useful for academics working in the areas of transitional economics economic geography particularly those interested in long term regional divergence and convergence and economic history

Regional Development in the USSR--modelling the Formation of Soviet Territorial-production Complexes Mark Konstantinovich Bandman, 1985

Planning in the Soviet Union Judith Pallot, Denis J. B. Shaw, 2021-12-24 Originally published in 1981 and based on the authors own research this book provides a comprehensive review of planning in the Soviet Union up until the early 1980s for both geographers and Soviet specialists Planning was particularly important in the Soviet Union since not only most spatial change but all economic planning was the product of a systematic socio political ideology Planning was therefore the key to understanding the Soviet economy society and spatial change When it was first published this was the first study in which the focus had been directed specifically at spatial planning in the Soviet Union in any systematic way

The Soviet Regional Dilemma Jan Ake Dellenbrant, 2017-07-05 Incorporating an oral history approach this history of radio covers the impact of the arrival of television the rise of transistor radios the popularity of rock n roll FM stereo stations underground radio of the sixties talk radio public radio and how technology will affect its future

Law And Economic Development In The Soviet Union Peter B. Maggs, 2019-03-04 In the past Soviet policymakers planners and jurists in their enthusiasm for economic and technological development devoted little attention to the often negative consequences of modernization New concerns however have become apparent in recent literature statutes and decrees In this book political scientists and experts on Soviet law address many of those concerns analyzing the legal issues associated with economic modernization in the USSR

The central themes of the book are the increasingly centralized nature of the policymaking process in the USSR and Eastern Europe and the marked tendency to rely on law as a principal mechanism for managing the undesirable consequences of scientific and technological progress. The authors also assess the impact of the scientific technical revolution on Soviet East European relations and East West relations emphasizing the foreign policy consequences of increased financial and technological interdependence. The study does not deal with narrow legalistic issues of technical progress rather its focus on policy questions reflects the inclination of Soviet and Eastern European governments to view those questions in terms of law and legislative activity and to see law as an instrument of social engineering.

Regional Development Oksana Dmitrieva, 1996. A volume in the Changing Eastern Europe series this account of the long term functioning of an extreme regional policy framework is informed by economic and sociological field studies and statistical analysis by a leading Russian scholar.

The Economic Development of the USSR Roger Munting, 2023-06-14. The Economic Development of the USSR 1982 examines the economic advances the Soviet Union made as the first major economy to adopt full scale socialist planning. It argues that the Soviet experience demonstrates that remarkable quantitative economic progress can be achieved but at a price which Western democracies would not tolerate. Moreover while the planning and control mechanism of the USSR produced striking results in the case of agriculture it often failed to produce satisfactory results. The book provides an impartial assessment of the merits and defects of the Soviet planning system which also served as a model for many other Communist countries.

Regional Development: Theory and Practice Baleshwar Thakur, H.S. Sharma, Suresh Misra, S. Chattopadhyay, Surendra Singh, 2017-01-01. The Five Volume Series on Regional Development Theory and Practice is a festschrift dedicated to Professor R P Misra a distinguished scholar widely recognized as one of the pioneers who initiated and promoted Regional Planning studies in India. This five volume series with over one hundred research papers on different aspects of regional development is a fitting tribute to the scholar who spent much of his life time thinking researching and writing about development in general and regional development in particular. These five volumes each dealing with a specific aspect of regional development: Vol 1 Concept of Regional Development Vol 2 Measuring Development Vol 3 Development Patterns and Structures Vol 4 Development Policies and Vol 5 Development Challenges. Each of the five volumes begins with an introduction which is unique in the sense that this is not merely an introduction to the contributions contained in the volume but also talks of the theory of regional development contemporary development in the discipline and the contrarian views expressed by various academics and policy makers. Another significant aspect of these introductions is the global view and a comparative scenario of the developed developing and under developed economies of the world that the editors have kept in view in a debate seeking an universal theory of regional development. Regions are specifics and often unique and regional development implies focusing on the assets of the territory its potential and constraints.

Khrushchev Robert William Davies,1998-03-28 This book provides a comprehensive survey of Soviet economic development from 1917 to 1965 in the context of the pre revolutionary economy In these years the Soviet Union negotiated the first stages of modern industrialisation and then after the defeat of Nazi Germany and its allies emerged as one of the two world superpowers This was also the first attempt to construct a planned socialist order These developments resulted in great economic achievements at great human cost Using the results of recent Russian and Western research Professor Davies discusses the inherent faults and strengths of the system and pays particular attention to the major controversies Was the Russian Revolution doomed to failure from the outset Could the mixed economy of the 1920s have led to a democratic socialist economy What was the influence of Soviet economic development on the rest of the world *Transition, Regional Development And Globalization: China And Central Europe* Ken Morita,Yun Chen,2010-02-10 Since the end of the Cold War developing a better framework to correctly recognize which direction globalization and the transition will take us has been necessary The transition economies of China and Central Europe in particular hold significant implications for East Asian integration and EU enlargement respectively This book examines the processes of transition regional development and globalization focusing on China and Central Europe and seeks to identify a new and stable international framework with improved outcomes for all Divided into three parts the book first analyzes several key economic issues concerning transition in China and Central Europe it then examines these issues from the viewpoint of international relations finally it considers potential future directions for China Japan US and EU It therefore constitutes an important contribution to our understanding of the ongoing process of globalization and ways to improve Sino Japanese EU American Central European economic relations **Renewable Resources for Regional Development** Moonis Raza,1989 *Development Regions in the Soviet Union, Eastern Europe, and Canada* McMaster University. Interdepartmental Committee on Communist and East European Affairs,1975 Compilation of conference papers comprising a comparison of regional planning strategies in Poland Hungary the USSR and Canada describes the long term and medium term national planning strategies in socialist countries and examines the economic development processes of developing areas administrative aspects of economic policy formulation etc References and statistical tables Conference held in hamilton 1973 October 26 and 27 *Differences in Levels of Regional Development in the USSR* James Francis Aiello,Maxwell Graduate School of Citizenship and Public Affairs,1976 *Planning in the Soviet Union* Philippe J. Bernard,2013-10-22 Planning in the Soviet Union compiles the result of M Bernard s two month visit to the USSR in 1961 for the purpose of investigating regional planning on behalf of the French Government Planning Office This compilation deals with the Soviet planning apparatus including its organization and administration together with the reforms that have been at work since 1957 furnishing a broad outline of the many economic and social problems forming the essence of Soviet thinking and planning This book provides a very clear picture of the complexity of problems involved particularly with the USSR government battling with the concepts of centralization

decentralization and in industry between a vertical and horizontal structure The topics that include economic growth investment location of industry transport manpower use of available local resources and migration are discussed only in broad outline of the magnitude of problems in the Soviet economic system The efficiency of investments choice of criteria problem of priorities productivity in highly integrated units rationalization specialization and cooperation are also deliberated in this selection This publication is intended for the average informed reader particularly those who are interested in administering the planning apparatus in the near future

Foreign Direct Investment and Regional Development in East Central Europe and the Former Soviet Union David Turnock, 2017-11-28 With the achievement of further EU and NATO enlargement a critical political and economic lens is now focused on East Central Europe and to a lesser extent the other former communist states Economic growth in each transition state and more broadly the region pivots around the prospects for foreign direct investment FDI with decisions on where foreign investors will locate their projects now vitally important This book the first one devoted to a geographical survey concentrating specifically on FDI in the region brings together a wide range of prominent authors from the US and Europe including the late Frank Carter to provide a timely and critical examination of the importance of foreign investment It presents a detailed analysis of location patterns and their significance for regional development with particular emphasis given to the important socioeconomic and political consequences of uneven distribution of FDI across the region and its constituent countries Divided into two parts the book first deals with general overarching themes and issues before applying these to more specific country case studies The second part deals with regional studies focusing broadly on the Western Balkans and Bulgaria before looking at specific economic sectors in individual countries

The Ancestry of Regional Spatial Planning Louis C. Wassenhoven, 2018-09-20 This book is not a historical or archaeological treatise but rather a study in which the author looks at the past not as a historian but as a planner who has the ambition to unravel the early manifestations of his discipline a discipline which did not exist as such in remote periods but the ingredients of which were nevertheless present The author has observed the past equipped with knowledge and understanding of what regional planning was in the second half of the twentieth century and still is He stands in the period of the first decades after the Second World War which were the formative years of regional planning and looks back at bygone ages He discusses ideas and literature from the immediate post war period in order to examine the ancestry of regional planning through their lens The book will attract a broad range of readers because of its approach and its wide coverage of historical periods and world regions Although Europe is the main focus the book contains material on all continents and all periods the ancient world the medieval age and the modern era The history of Urban Planning is taught and researched widely but the history or pre history before the twentieth century of Regional Spatial Planning is not This book will fill that vacuum

Soviet Natural Resources in the World Economy Robert G. Jensen, Theodore Shabad, Arthur W. Wright, 1983-08 Russia is a huge storehouse of natural resources including oil gas and other energy sources which she can

trade with the rest of the world for advanced technology and wheat In this book leading experts evaluate the Soviet potential in major energy and industrial raw materials giving special attention to implications for the world economy to the end of the twentieth century The authors examine the mineral and forest resources that the Soviet Union has developed and may yet develop to provide exports during the 1980s They discuss the regional dimension of these resources especially in Siberia and the Soviet Far East individual mineral raw materials such as petroleum natural gas timber iron ore manganese and gold and finally the role of raw materials in Soviet foreign trade The authors representing the United States Canada and Great Britain are primarily geographers but they include economists political scientists and a geologist Their work is based on primary sources for most of these reports current information is no longer being released to researchers and on interviews with Soviet officials
