Flood, Vanessa MacDonnell, Jane Philpott, Sophie Thériault, Sridhar Venkatapuram, 2020-07-14 The novel coronavirus SARS CoV 2 which causes the disease known as COVID 19 has infected people in 212 countries so far and on every continent except Antarctica Vast changes to our home lives social interactions

government functioning and relations between countries have swept the world in a few months and are difficult to hold in one's mind at one time. That is why a collaborative effort such as this edited multidisciplinary collection is needed. This book confronts the vulnerabilities and interconnectedness made visible by the pandemic and its consequences along with the legal, ethical, and policy responses. These include vulnerabilities for people who have been harmed or will be harmed by the virus directly and those harmed by measures taken to slow its relentless march; vulnerabilities exposed in our institutions, governance, and legal structures; and vulnerabilities in other countries and at the global level where persistent injustices harm us all. Hopefully, COVID-19 will force us to deeply reflect on how we govern and our policy priorities to focus on preparedness, precaution, and recovery to include all, not just some.

Published in English with some chapters in French      The Nurses' Guide to Psychotherapy Stacey Roles, Kamini Kalia, 2024-11-08

This book is a guide for nurses who plan to incorporate psychotherapy into their field of work. Mental illness continues to be on the rise with increases in anxiety disorders, suicidality, and depression among others. Psychotherapy is a well-researched intervention that helps individuals to improve and maintain their mental health and well-being. Recently in Ontario, Canada, the proclamation of the controlled act of psychotherapy enabled certain members of six professional colleges, including Registered Nurses, to initiate and implement this controlled act. Registered Nurses exist in every nook and cranny across the world, from urban to rural and remote regions, and can provide a far reach and excellent care, bridging the gaps for those needing access to psychotherapy services. Nurses have the skill, ability, legislative, and regulatory rights to initiate the controlled act of psychotherapy. Nurses can provide psychotherapy treatment and interventions to address the growing needs of the population who experience mental distress. This book is unique in that the target audience is not only the experienced or expert nurse but was also created for nurses looking to shift the primary focus of their career to psychotherapy for undergraduate student nurses and for newly graduated nurses pursuing psychotherapy as part of their field of work. This book will build upon the experiences of the nurse-client relationship that has always been foundational to nursing and will discuss nurses' clinical expertise and knowledge in relation to a holistic approach to care when implementing psychotherapy interventions.

Traditional, Complementary and Integrative Medicine Jon Adams, Gavin Andrews, Joanne Barnes, 2017-09-16

This authoritative collection is the first wide-ranging overview dedicated to traditional, complementary, and integrative medicine (TCIM) and its scientific study. Compiled by an expert editorial team, it is an essential guide to the vast and ever-growing international literature on TCIM. Contributions come from practitioners and academics drawn from a diverse range of disciplines and professions across the globe. From perspectives on the significance of TCIM within public health policy to discourses on its influence in fields such as psychiatry and sociology, discrete chapters come together to provide an international map of the contemporary research, key debates, and core issues which shape the field. Carefully structured to ensure easy navigation, the reader is divided into three parts. Part A focuses on the consumption of TCIM, including chapters on its use through the life cycle and within the context of

disease and health management Part B covers considerations for practitioners across the world taking in issues over ethics communication and education Part C features chapters on the role of evidence research and knowledge production in TCIM and looks at what lies ahead for the field With its thought provoking insights and suggestions for further reading this comprehensive resource provides guidance and inspiration for anyone embarking on study practice or research within health nursing or medicine
