**Reiki for a New Millennium** William Lee Rand,2002-08      Distant Mental Influence William Braud,2003-12-01

Professionals in modern psychology behavioral medicine and psychoneuroimmunology are exploring ways in which we can mentally influence our own bodies through hypnosis imagery visualization attention intention and other forms of self regulation for fostering physical and psychological health and well being Is it possible for us to use such techniques to influence others even at a distance for purposes of healing Is it possible for us to influence the images thoughts behaviors and physiological reactions of other persons separated by distance without conventional sensory means of interaction Can these abilities extend to animals and even to cells e g human red blood cells Might these abilities be involved in the efficacy of distant mental or spiritual healing and intercessory prayer Might these influences even extend to events distant in time even backwards in time Do these influences have major implications for our scientific theories our human identity the interconnections between ourselves and nature and our relationships with others Careful laboratory work described in detail in this book suggests that the answer to all these questions is a resounding Yes A personal introduction and 12 detailed chapters describe the evidence that support these important claims The book also describes the factors that make such distant mental influences more or less likely so that anyone might use these distant influence skills more effectively and consistently for their own benefit and for the benefit of others      *Reiki Plus Natural Healing* David G.
