## **Reincarnation And Karma Two Fundamental Truths Of Existence:**

**Reincarnation and Karma** Rudolf Steiner, 2001-05 5 lectures Berlin and Stuttgart January March 1912 CW 135 Just as an age was once ready to receive the Copernican theory of the universe so is our own age ready for the ideas of reincarnation and karma to be brought into the general consciousness of humanity Rudolf Steiner Steiner introduced the West to his detailed scientific knowledge of reincarnation and karma He gave concrete descriptions of the way individuals transform during the course of successive incarnations and specific examples of how karma works Steiner also provides practical exercises that lead us to experience the reality of reincarnation He believed that by experiencing the reality of successive earth lives we can form a foundation for a spiritual understanding of the relationship between humankind and the cosmos These talks contain some of Steiner's most important teachings on reincarnation and karma His examples and exercises can lead us to direct knowledge of the laws of reincarnation and karma Topics include How to perceive directly the part of our being that passes through many lives on earth How to develop a feeling memory which we need before we are able to experience reincarnation Thought exercises for gaining knowledge of reincarnation and karma Examples of how karma works between incarnations How knowledge of reincarnation and karma affects our moral life This volume is a translation from German of *Wiederverkörperung und Karma und ihre Bedeutung für die Kultur der Gegenwart* **Reincarnation and Karma: Lecture 2 of 5** Rudolf Steiner, **A Western Approach to Reincarnation and Karma** Rudolf Steiner, 1997 The soul's immortality and its repeated earthly births are not new ideas in Western thought They are implicit in the Pythagorean and Platonic traditions as well as in some branches of esoteric Judaism and Cabbala But it was not until the early years of this century that the West was given a detailed modern evolutionary philosophy of human life based on the reality of reincarnation and karma This turning point occurred when Rudolf Steiner began to make public the results of his spiritual scientific researches He viewed the revelation of reincarnation and karma as one of his most important life tasks Steiner's contribution however remains unique in its understanding of the human being as an evolving developing being of body soul and spirit On the basis of his researches presented in numerous books and lectures we begin to understand how the complex interaction of human lives between birth and death and between death and a new birth gives new meaning not only to individual lives lived on Earth in community with others but also to human history and evolution and to earthly and cosmic events This book collects many of Steiner's major statements on reincarnation and karma The primary purpose of this volume is to help readers meet the challenge of spiritual research in the area of individual evolution of the soul and spirit in the context of cultural and universal evolution Such a study can be tremendously revealing and provide spiritual understanding in a time of increasing intellectual confusion and spiritual poverty The notion of reincarnation and karma is generally associated in most minds with spiritual traditions of the East especially Hinduism and Buddhism Ren Querido's in depth sixty page introduction however places these concepts within the context of Western spiritual development and esoteric tradition
