Frick,2008 Examining Nixon s autobiographies and political memorabilia Frick offers far reaching perceptions not only of the man but of Nixon s version of himself contrasted with those who would interpret him differently He cites reinventions of Nixon from the late 1980s particularly the museum at the Richard Nixon Library and Birthplace to demonstrate the resilience of certain national mythic narratives in the face of liberal critiques And he recounts how celebrants at Nixon s state funeral at which Bob Dole s eulogy depicted a God fearing American hero attempted to bury the sources of our divisions over him rendering in some minds the judgment of redeemed statesman to erase his status as disgraced president With dozens of illustrations Nixon posing with Elvis the National Archives most requested photo Nixonian cultural artifacts classic editorial cartoons no other book collects in one place such varied images of Nixon from so many diverse media These reinforce Frick s probing analysis to help us understand why we disagree about Nixon and why it matters how we resolve our disagreements BOOK JACKET Radical Realism, Autofictional Narratives and the Reinvention of the Novel Fiona J. From start up founders in the Chinese equivalent of Silicon Valley to rural villages experiencing an e commerce boom to middle class women reselling luxury goods the rise of internet based entrepreneurship has affected every part of China For many reinventing oneself as an entrepreneur has appeared to be an appealing way to adapt to a changing economy and society Yet in practice digital entrepreneurship has also reinforced traditional Chinese ideas about state power labor gender and identity Lin Zhang explores how the everyday labor of entrepreneurial reinvention is remaking China amid changing geopolitical currents She tells the stories of people from diverse class gender and age backgrounds across rural urban and transnational settings in rich detail providing a multifaceted and ground level view of the twenty first century Chinese economy Zhang explores the surge in digital entrepreneurialism against the backdrop of global financial crises the U S China trade war and the COVID 19 pandemic She argues that the rise of internet based industries and practices has simultaneously empowered and exploited digital entrepreneurs and laborers Despite embracing high tech innovation state led entrepreneurialization does not represent a radical break with the past It has provided a means for implementing developmental goals while retaining the importance of the traditional family and generating new inequalities Shedding new light on global capitalism and the digital economy by centering a non Western perspective *The Labor of Reinvention* vividly conveys how the contradictions of entrepreneurialism have played out in China

The Guided Reinvention of Language Andrew Lock, 1980

The Reinvention of Populist Rhetoric in The Digital Age Mark Rolfe, 2016-11-23 This highly original work considers the rhetoric of political actors and commentators who identify digital media as the means to a new era of politics and democracy Placing this rhetoric in a historical and intellectual context it provides a compelling explanation of the reinvention and thematic recurrence of democratic discourse The author investigates the populist sources of rhetoric used by digital politics enthusiasts as outsiders inaugurating new eras of democracy with digital media such as Barack Obama and Julian Assange and explores the generations of rhetorical and political history behind them The book places their rhetoric in the context of the permanent tensions between insiders and outsiders between the political class and the populace which are inherent to representative democracy Through a theoretical and conceptual research that is historically grounded

and comparative it offers rhetorical analysis of candidates for the 2016 presidential election and discusses digital democracy particularly discussing their origins in American populism and their influence on other countries through Americanization Uniquely it offers a sceptical assessment of epochal claims and a historical rhetorical account of two of the defining figures of twentieth century politics to date and reveals how modern rhetoric is grounded in an older form of anti politics and mobilises tropes that are as old as representative democracy itself
