Reinventing Public Education How Contracting Can Transform Americas Schools:

Reinventing Public Education Paul Thomas Hill, 2009 A heated debate is raging over our nation s public schools and how they should be reformed with proposals ranging from imposing national standards to replacing public education altogether with a voucher system for private schools Combining decades of experience in education the authors propose an innovative approach to solving the problems of our school system and find a middle ground between these extremes Reinventing Public Education shows how contracting would radically change the way we operate our schools while keeping them public and accessible to all and making them better able to

Reinventing Public Education Paul Hill, Lawrence C. Pierce, James W. Guthrie, 2009-02-15 A heated debate is raging over our nation s public schools and how they should be reformed with proposals ranging from imposing national standards to replacing public education altogether with a voucher system for private schools Combining decades of experience in education the authors propose an innovative approach to solving the problems of our school system and find a middle ground between these extremes Reinventing Public Education shows how contracting would radically change the way we operate our schools while keeping them public and accessible to all and making them better able to meet standards of achievement and equity Using public funds local school boards would select private providers to operate individual schools under formal contracts specifying the type and quality of instruction In a hands on concrete fashion the authors provide a thorough explanation of the pros and cons of school contracting and how it would work in practice They show how contracting would free local school boards from operating schools so they can focus on improving educational policy how it would allow parents to choose the best school for their children and finally how it would ensure that schools are held accountable and academic standards are met While retaining a strong public role in education contracting enables schools to be more imaginative adaptable and suited to the needs of children and families In presenting an alternative vision for America s schools Reinventing Public Education is too important to be ignored

University of Washington What Lies Ahead for America's Children and Their Schools Richard Sousa, 2014-03-01 The coming decade holds immense potential for dramatic improvement in U S education and in the achievement of American children and in this volume members of the Hoover Institution's Koret Task Force on K 12 Education examine both the potential gains and the pitfalls that lie ahead informed by where U S education has been what changes have been made in recent years and what's still required for the comprehensive overhaul that this vital enterprise so urgently needs Looking backward is infinitely easier than predicting the future but planning for the future is necessary if anything is to change and by analyzing the recent past and present condition of American primary and secondary school education across a host of key topics task force members in this volume chart a bold course for the years ahead Optimistic about the opportunities at hand they identify essential and feasible reforms as well as the barriers that must be overcome if those changes are to occur They offer high quality scholarship and thoughtful prescriptions for productive policy alternatives *Making School Reform Work* Paul T. Hill, James Harvey, 2004-09-30 Bringing change to our public school system is hard and the current system of education governance creates barriers that can make that reform even harder Here six authorities in public education discuss how local philanthropies can overcome them even if school districts cannot Making School Reform Work identifies new institutions that can be created by foundations and civic groups to remedy deficiencies in local school governance formulate bold reforms and guarantee implementation These institutions include incubators for starting new schools independent data analysis centers public private partnerships for recruitment and training of school leaders and new ways of funding and managing school facilities The contributors are Sarah Brooks Carleton College Michael DeArmond University of Washington Marguerite Roza University of Washington and Abigail Winger Milwaukee consultant **A Primer on America's Schools** Terry M. Moe, 2013-09-01 In this volume the eleven members of the Koret Task Force on K 12 Education provide a broad overview of the American education system pulling together basic facts about its structure and operation identifying key problems that hinder its performance and offering perspectives on the requirements of genuine reform

Charter School City Douglas N. Harris, 2020-07-15 In the wake of the tragedy and destruction that came with Hurricane Katrina in 2005 public schools in New Orleans became part of an almost unthinkable experiment eliminating the traditional public education system and completely replacing it with charter schools and school choice Fifteen years later the results have been remarkable and the complex lessons learned should alter the way we think about American education New Orleans became the first US city ever to adopt a school system based on the principles of markets and economics When the state took over all of the city's public schools it turned them over to non profit charter school managers accountable under performance based contracts Students were no longer obligated to attend a specific school based upon their address allowing families to act like consumers and choose schools in any neighborhood The teacher union contract tenure and certification rules were eliminated giving schools autonomy and control to hire and fire as they pleased In Charter School

City Douglas N Harris provides an inside look at how and why these reform decisions were made and offers many surprising findings from one of the most extensive and rigorous evaluations of a district school reform ever conducted Through close examination of the results Harris finds that this unprecedented experiment was a noteworthy success on almost every measurable student outcome But as Harris shows New Orleans was uniquely situated for these reforms to work well and that this market based reform still required some specific and active roles for government Letting free markets rule on their own without government involvement will not generate the kinds of changes their advocates suggest Combining the evidence from New Orleans with that from other cities Harris draws out the broader lessons of this unprecedented reform effort At a time when charter school debates are more based on ideology than data this book is a powerful evidence based and in depth look at how we can rethink the roles for governments markets and nonprofit organizations in education to ensure that America s schools fulfill their potential for all students *Encyclopedia of Education Economics and Finance* Dominic J. Brewer, Lawrence O. Picus, 2014-08-25

Economics can be a lens for understanding the behavior of schools districts states and nations in meeting education needs of their populaces as well as for understanding the individual decisions made by administrators teachers and students Insights from economics help decision makers at the state level understand how to raise and distribute funds for public schools in an equitable manner for both schools and taxpayers Economics also can assist researchers in analyzing effects of school spending and teacher compensation on student outcomes And economics can provide important insights into public debates on issues such as whether to offer vouchers for subsidizing student attendance at private schools This two volume encyclopedia contains over 300 entries by experts in the field that cover these issues and more Features This work of 2 volumes in both print and electronic formats contains 300 350 signed entries by significant figures in the field Entries conclude with cross references and suggestions for further readings to guide students to in depth resources Although organized in A to Z fashion a thematic Reader s Guide in the front matter groups related entries by topic Also in the front matter a chronology provides students with historical perspective on the development of education economics and finance as a field of study The entire work concludes with a Resources appendix and a comprehensive Index In the electronic version the index Reader s Guide and cross references combine to provide effective search and browse capabilities Key Themes Accountability and Education Policy Budgeting and Accounting in Education Finance Education Markets Choice and Incentives Equity and Adequacy in School Finance Financing of Higher Education Key Concepts in the Economics of Education Private and Social Returns to Human Capital Investments Production and Costs of Schooling Revenue and Aid for Schools Statistical Methods in the Economics of Education Teachers and Teacher Labor Markets

Choice with Equity Paul T. Hill, 2013-11-01 This review of the furious national debate over school choice examines the benefits of choice for children families and schools and shows how properly designed choice programs can prevent the harmful outcomes opponents fear The American Dream and the Public Schools Jennifer L. Hochschild, Nathan

Scovronick, Nathan B. Scovronick, 2004-10-21 Examines desegregation school funding testing vouchers bilingual education multicultural education and ability grouping These seem to be separate problems but much of the contention over them comes down to the same thing an apparent conflict between policies designed to promote each student's ability to pursue success and those designed to insure the good of all students or the nation as a whole The authors show how policies to promote individual success too often benefit only those already privileged by race or class The book also examines issues such as creationism and afrocentrism *Fixing Urban Schools* Paul T. Hill, Mary Beth Celio, 2010-12-01 Every year in one out of three big cities the school superintendent leaves his or her job sending local community leaders back to square one Cleveland Baltimore and Washington D C are struggling to recreate their failed school systems and many more cities are likely to follow City leaders need more than new superintendents They need stable reform strategies strong enough to move an entrenched system Unfortunately it is not clear where they can turn for help Education experts are deeply divided about whether teacher retraining or new standards are enough to reform a struggling city system or whether more fundamental changes such as family choice and family run schools are needed Based on new research this book identifies the essential elements of reform strategies that can transform school performance in big cities beset by poverty social instability racial isolation and labor unrest It also suggests ways that local leaders can assemble the necessary funding and political support to make such strategies work *City Schools* Diane Ravitch, Joseph P. Viteritti, 2003-05-01 How the story of NYC's schools contain lessons for other cities City Schools brings together a distinguished group of researchers and educators for an in depth look at the nation's largest school system Topics covered include the changing demographics of city schools the impending teacher shortage reading instruction special education bilingual education school governance charter schools choice school finance reform and the role of teacher unions City Schools also provides fresh and fascinating perspectives on Catholic schools Jewish day schools and historically black independent schools Diane Ravitch Joseph P Viteritti and their coauthors explore pedagogical institutional and policy issues in an urban school system whose challenges are those of American urban education writ large The authors conclude that we know a lot more about how to provide effective educational services for a diverse population of urban school children than performance data would suggest Contributors Dale Ballou University of Massachusetts Amherst Stephan F Brumberg Brooklyn College Mary Beth Celio University of Washington Gail Foster Toussaint Institute Michael Heise Case Western University Clara Hemphill Public Education Association Paul T Hill University of Washington William G Howell Harvard University Pearl Rock Kane Columbia University Frank J Macchiarola Saint Francis College Melissa Marschall University of South Carolina Thomas Nechyba Duke University Paul E Peterson Harvard University Christine Roch Georgia State University Christine H Rossell Boston University Marvin Schick Avi Chai Foundation Mark Schneider SUNY Stony Brook Lee Stuart South Bronx Churches Paul Teske SUNY Stony Brook Emanuel Tobier New York University Joanna P Williams Columbia University [Making Money Matter](#) National

Research Council, Division of Behavioral and Social Sciences and Education, Board on Behavioral, Cognitive, and Sensory Sciences, Committee on Education Finance, 1999-12-30 The United States annually spends over 300 billion on public elementary and secondary education As the nation enters the 21st century it faces a major challenge how best to tie this financial investment to the goal of high levels of achievement for all students In addition policymakers want assurance that education dollars are being raised and used in the most efficient and effective possible ways The book covers such topics as Legal and legislative efforts to reduce spending and achievement gaps The shift from equity to adequacy as a new standard for determining fairness in education spending The debate and the evidence over the productivity of American schools Strategies for using school finance in support of broader reforms aimed at raising student achievement This book contains a comprehensive review of the theory and practice of financing public schools by federal state and local governments in the United States It distills the best available knowledge about the fairness and productivity of expenditures on education and assesses options for changing the finance system

American Dream and Public Schools Jennifer L. Hochschild, Nathan Scovronick, 2003-03-06 The American Dream and the Public Schools examines issues that have excited and divided Americans for years including desegregation school funding testing vouchers bilingual education and ability grouping While these are all separate problems much of the contention over them comes down to the same thing an apparent conflict between policies designed to promote each student's ability to succeed and those designed to insure the good of all students or the nation as a whole The authors show how policies to promote individual success too often benefit only those already privileged by race or class and often conflict with policies that are intended to benefit everyone They propose a framework that builds on our nation's rapidly changing population in order to help Americans get past acrimonious debates about schooling Their goal is to make public education work better so that all children can succeed

Conflicting Missions? Tom Loveless, 2011-04-01 Ask people whether teachers unions are good or bad for education and you are likely to receive a wide variety of opinions A 1998 Gallup Poll asked whether teachers unions helped hurt or made no difference in the quality of education in U S public schools Twenty seven percent responded that unions helped 26 percent that they hurt and 37 percent that they made no difference 10 percent of those surveyed said they did not know Although teachers unions were first organized in the nineteenth century and collective bargaining has been a fact of life in most communities since the 1960s the body of literature evaluating the impact of teachers unions on American education is surprisingly small Conflicting Missions helps close the knowledge gap by providing a clear balanced analysis of the role of teachers unions in education reform The volume emerges from a 1998 conference organized by the Program on Education Policy and Governance at Harvard University The contributors represent a broad array of disciplinary backgrounds and methodological approaches including some of the unions harshest critics and most loyal supporters In examining the relationship of teachers unions and educational reform the authors approach the subject from several directions They ask whether unions affect educational

productivity most notably in terms of student achievement They analyze how teachers unions function as professional organizations concerned with the occupation of teaching as institutional actors defending interests within a bureaucratic system of education and as political actors wielding influence on legislation and elections Reflecting a variety of perspectives and opinions *Conflicting Missions* offers a balanced analysis of a controversial topic It is a useful starting point for readers who want to discover the complexity of teachers unions and their influence both positive and negative on the national effort to improve America's schools [Resources in Education](#), 1998-07 *Education in the United States: Continuity and Change*, [Privatizing Education](#) Henry Levin, 2018-03-05 *Privatizing Education* is a collection of essays written by such luminaries as Martin Carnoy Christopher Connell Wendy Connors Fred Doolittle Pearl Rock Kane Frank Kemerer Christopher Lauricella Arthur Levine Ellen Magenheimer Patrick McEwan Lee D Mitgang David Myers Gary Natriello Caroline Persell Mark Schneider Janelle Scott Geoffrey Walford and Amy Stuart Wells who examine the efforts of some educators reformers investors and political groups to move education from the public to the private sector This is occurring through tuition tax credits voucher initiatives and for profit educational management organizations The volume grows out of a conference that took place at Columbia University's Teachers College which launched the National Center for the Study of Privatization in Education **Handbook of Education Policy Research** Lora Cohen-Vogel, Peter Youngs, Janelle Scott, 2025-08-15 The second edition of the *Handbook of Education Policy Research* the largest volume published in AERA's history addresses a variety of policy and contextual issues in early childhood K 12 and postsecondary education that have received extensive empirical attention during the past 15 years With the pandemic and social turmoil as a backdrop the editors build on the breadth and depth of the first edition while expanding the scope of the project to include subjects methods theories and analyses that have contributed powerfully to the study of education policy and politics in the 2010s and 2020s The field has become more comprehensive and inclusive and the authors represent a diversity of racial ethnic and gender identities and intellectual and disciplinary orientations Most chapters come from multiple authors reflecting the multi-sourced development of research in education policy since the first volume was published This compilation consists of 70 chapters and nine commentaries that map past present and future directions of the field and richly attend to critical issues of interest to students researchers policy makers and practitioners *American School Reform* Joseph P. McDonald, Cities and Schools Research Group, 2014-04-22 *Dissecting twenty years of educational politics in our nation's largest cities* *American School Reform* offers one of the clearest assessments of school reform as it has played out in our recent history Joseph P McDonald and his colleagues evaluate the half billion dollar Annenberg Challenge launched in 1994 alongside other large scale reform efforts that have taken place in New York Chicago Philadelphia and the San Francisco Bay Area They look deeply at what school reform really is how it works how it fails and what differences it can make nonetheless McDonald and his colleagues lay out several interrelated ideas in what they call a theory of action space Frequently education policy gets so ambitious that

implementing it becomes a near impossibility Action space however is what takes shape when talented educators leaders and reformers guide the social capital of civic leaders and the financial capital of governments foundations corporations and other backers toward true results Exploring these extraordinary collaborations through their lifespans and their influences on future efforts the authors provide political hope that reform efforts can work and that our schools can be made better
