*Liverpool and the Unmaking of Britain* Sam Wetherell, 2025-02-27 Few cities in the world are as famous as Liverpool the home of the modern world's most celebrated rock group and of a legendary football team The city is equally notorious for its poverty its ethnic and racial divides and above all its decline For Liverpool was once a major port growing rich on slavery on trade with the Americas and the British Empire's outposts in Africa and Asia In the 1980s it was described as obsolete Yet the city fights on This is the epic history of Liverpool since the Second World War It is a story of vast docklands shrinking and eventually vanishing when corporations discovered they could shift goods in containers and dispense with human workers of industries like car manufacturing mushrooming and disappearing of huge new suburbs being built and neglected It is a moving and horrifying narrative of casual racism Chinese sailors deported en masse in the aftermath of the war systematic discrimination against the city's Black population and of resistance culminating in the Toxteth riots in 1981 It is the story of a city fighting against a descent into obsolescence Liverpool also becomes a prism through which recent British history is brought into a new focus It is the fascinating history of a single iconic city But it is also a warning of what the future may hold for many more communities

**Football Supporters and the Commercialisation of Football** Peter Kennedy, David Kennedy, 2014-07-16 As football clubs have become luxury investments their decisions increasingly mirror those of any other business organisation Football supporters have been encouraged to express their club loyalty by thinking business acting as consumers and generating money deemed necessary for their clubs to compete at the highest levels In critical studies supporters have been portrayed as passive or reluctant consumers who imprisoned by enduring club loyalties embody a fatalistic attitude to their own exploitation As this book aims to show however such expressions of loyalty are far from hegemonic and often interface haphazardly with traditional ideas about what constitutes the loyal fan While there is little doubt that professional football is experiencing commodification the reality is that football clubs are not simply businesses nor can they ever aspire to be organisations driven solely by expanding or protecting economic value Rather clubs hover uncertainly between being businesses and community assets Football Supporters and the Commercialisation of Football explores the implications of this uncertainty for understanding supporter resistance to and compromise with commodification Every club and its supporters exist in their own unique national and local contexts In this respect this book offers a Euro wide comparison of supporter reactions to commercialisation and provides unique insight into how football supporters actively mediate regional local and national contexts as they intersect with the universalistic presumptions of commerce This book was previously published as a special issue of Soccer and Society
