Relationes Historicae Beitrage Zur Kommunikationsgeschichte Vol :

Military Occupation under the Eyes of the Lord Holger Berg, 2010-05-19 Diente der Krieg als Katalysator religiöser Wandels. Diese Frage geht Holger Berg am Beispiel Erfurts in der Zeit des Dreißigjährigen Krieges nach. Zu widerlaufende Thesen über die Störung bzw. den Abbruch bestehender Lehren infolge des Krieges werden anhand des reichhaltigen Quellenmaterials erstmals empirisch überprüft. Während u.a. Predigten und Erbauungsbücher die Lehren vier Pfarrer dokumentieren, geben historiographische Handschriften Auskunft über die Überzeugungen der Laien. Der breit angelegte Blickwinkel auf Pfarrer und Gemeindeglieder bietet nuancierte Ergebnisse sowohl für die Kirchengeschichte als auch für die historisch anthropologische Forschung. Wer sich für den Zusammenhang von Leid, gelebtem Glauben und Kriegserfahrungen interessiert, gewinnt hier ungewöhnliche Einblicke.

The Dissemination of News and the Emergence of Contemporaneity in Early Modern Europe Brendan Dooley, 2016-12-05 Modern communications allow the instant dissemination of information and images creating a sensation of virtual presence at events that occur far away. This sensation gives meaning to the notions of real time and of a present that is shared within and among societies. In other words, a sensation of contemporaneity. But how were time and space conceived before modernity? When did this begin to change in Europe? To help answer such questions, this volume looks at the exchange of information and the development of communications networks at the dawn of journalism when widespread public and private networks first emerged for the transmission of political news. What happened in Prague quickly reached Venice, and what happened in Naples was soon the talk of Hamburg. Gradually enough, became known about daily affairs around Europe for people to begin to think in terms of a shared present. An analysis of contemporaneity adds a new dimension to the study of the origins of news and media history as well as to the origins of a European identity. For whilst our understanding of the circulation of manuscript newsletters and printed reports has increased in recent years, much less is known about the impact of this burgeoning journalism on a pan-European scale. Each essay in this volume explores the ways in which this international impact helped foster a developing sense of contemporaneity that encompassed not just single countries but Europe as a whole. Taken together, the collection offers the first panoramic view of the way stories were born, grew, and matured during their transmission from source to source, from country to country. The results published here suggest that a continent-wide network including manuscript and print for the transmission of stories from place to place existed and was effective.

He examines how, at a moment of new departure in both

Europe and Russia the norms shaping diplomatic practice emerged from the complex relations and direct encounters within the world of princely courts rather than from incompatible political cultures He makes clear the connections between dynastic representation politics and foreign relations and shows that Russia despite its perceived isolation and cultural distinctiveness participated in the developments and transformations that were taking place more broadly in diplomacy The central themes of this study are the interlocking manifestations of social hierarchy monarchical honour and sovereign status in both text and ritual Related issues of diplomatic customs institutional structures personnel negotiation practice international law and the question of cultural transfer also figure prominently
