

MORAL RELATIVISM

Moral relativism is a view that rejects the existence of any objective, absolute or universal moral truths that govern our morality.

EXAMPLE: TAX AVOIDANCE

Tax avoidance isn't technically illegal. So here, we have a moral relativist debate:

- Some people believe that we all need to pay taxes in good faith for the good of society.
- Other people look at the government as the people who are engaging in morally outrageous behavior. How dare they take 40% of my income every week!

EXAMPLE: WEALTH

During the reformation, the Catholics and Protestants had competing views on whether it's moral to pursue personal wealth:

- The Catholics believed that the pursuit of wealth was a sign of worshiping money over God.
- The protestants believed working hard was good and becoming wealthy was a sign of blessings from God for your hard work.

Moral Relativism Steven Lukes, 2011-05-26 Do we as humans have no shared standards by which we can understand each other Do we truly have divergent views about what constitutes good and evil harm and welfare dignity and humiliation or is there some underlying commonality that wins out These questions show up everywhere from the debate over female circumcision to the UN Declaration of Human Rights They become ever more pressing in an age of mass immigration religious extremism and the rise of identity politics So by what right do we judge particular practices as barbaric Who are the real barbarians This provocative book takes an enlightening look at what we believe why we believe it and whether there really is an irreparable moral discord between us and them
