*Religion and Artificial Reproduction* Thomas Anthony Shannon, Lisa Sowle Cahill, 1988      Reproductive Technologies Thomas Anthony Shannon, 2004 Over a decade ago the field of bioethics was established in response to the increased control over the design of living organisms afforded by both medical genetics and biotechnology As part of the Readings in Bioethics series this volume collects critical essays by leading scholars on reproductive technologies abortion in vitro fertilization prenatal diagnosis and cloning Visit our website for sample chapters      **Contemporary Issues in Bioethics** James J. Walter, Thomas A. Shannon, 2005-12-08 Contemporary Issues in Bioethics A Catholic Perspective applies the best of the Roman Catholic theological and ethical tradition to some of the most controversial and complex bioethical topics that confront contemporary society Walter and Shannon offer a fresh analysis of the Catholic tradition and show how a distinctively Catholic perspective can inform public discussion of these issues In an age where religion is often excluded from ethical discussions on bioethical issues this book shows that the Catholic tradition has something very important to offer Book Jacket      **The Oxford Handbook of Religious Perspectives on Reproductive Ethics** Davis, 2023 As I write this introduction the third season of the Israeli series Schtisel has arrived on Netflix eagerly awaited by viewers around the world who would never have imagined how caught up they would get by this family drama of four generations of ultra Orthodox Jews living in Jerusalem One episode focuses on Ruchami and Hanina a young couple who have been married for five years but without children It turns out that pregnancy and childbirth would threaten Ruchami's life She is using an IUD but she keeps threatening to have it removed risking her life to become a mother Finally with great reluctance Hanina visits the rebbe the spiritual authority in their community to discuss the possibility of using a surrogate They are says the rebbe caught between two non ideal situations surrogacy normally forbidden is non ideal but so is Ruchami's unhappiness and the possibility that she might go ahead and take the risk which is also forbidden      Assisted Reproduction in Israel Avishalom Westreich, 2018-03-20 The main argument in this BRP is that assisted reproduction in Israel gives expression to and develops the right to procreate It is a complex right and therefore at times no consensus has been reached on the form of its actual application as in the case of surrogacy and egg donation and from a different direction in that of posthumous sperm retrieval This right however despite the debates on its boundaries is widely accepted practiced and even encouraged in the Israeli context with a constructive collaboration of three main elements the Israeli civil legal system religious law which in the context of the Israeli majority is Jewish law and Israeli society and culture      Kinship, law and religion Shirin Naef, 2017-05-15 This monograph examines the Iranian and Shia legal debates on technologies of assisted reproduction including embryo donation and surrogacy and looks at the regulations and implementation of these technologies in Iran In particular it addresses 1 an analysis of the moral reasoning embedded in the Shia theological legal discourse on reproductive technology and how this tradition interprets assisted reproduction with a particular focus on underlying concepts structure

and principles of kinship 2 the emergence and development of the relevant legislation regulations and administrative policies and how this might shape the relationship between civil and religious law in Iran and 3 the ways in which reproductive technology is used and understood with particular focus on underlying values local narratives and the resulting societal dynamics The methodological approach for this research is a combination of extensive ethnography and textual analysis of important academic and religious seminary publications in Iran from Shia jurisprudence fiqh and Persian histories to the analysis of laws and verdicts
