When Religion Meets New Media Heidi Campbell, 2010 The most compelling insights about religion and new media are in Heidi Campbell s book it s simply the most definitive nuanced and thoroughly researched work on the subject Instead of joining the bandwagon of media determinists and pundits Campbell grounds her conclusions in actual case studies of Jews Muslims and Christians Likely to be enormously important this book should be read by anyone interested in media religion and the juncture between the two Daniel Stout Greenspun School of Journalism and Media Studies University of Nevada Las Vegas USA and Editor of the *Journal of Media and Religion* *When Religion Meets New Media* provides valuable new insights into thinking about the relationships between religion and new media technologies Using informative case material Heidi

Campbell demonstrates the complex processes through which religious communities engage with and justify their use of new media. The book provides a useful framework for thinking about religious uses of media technologies that can be taken up across a wide range of contexts. Clearly written, it will be of great value both to students and researchers in media studies and the study of religion. Gordon Lynch, Birkbeck College, University of London, UK.

Heidi Campbell treats the path-breaking influences of the Internet and the digital media with a careful understanding of the Jewish, Christian, and Muslim traditions she relates to. This is an illuminating book showing how religious communities actually take part in the shaping of new media. Knut Lundby, University of Oslo, Norway.

This lively book focuses on how different Jewish, Muslim, and Christian communities engage with new media. Rather than simply reject or accept new media, religious communities negotiate complex relationships with these technologies in light of their history and beliefs. Heidi A. Campbell suggests a method for studying these processes; she calls it the religious social shaping of technology, and students are asked to consider four key areas. A wealth of examples, such as the Christian e-vangelism movement, Modern Islamic discourses about computers, and the rise of the Jewish kosher cell phone, demonstrate the dominant strategies which emerge for religious media users, as well as the unique motivations that guide specific groups. *Religion, Media, and Social Change*. Kennet Granholm, Marcus Moberg, Sofia Sjö, 2014-09-19.

In an era of heightened globalization, macro-level transformations in the general socioeconomic and cultural makeup of modern societies have been studied in great depth. Yet little attention has been paid to the growing influence of media and mass-mediated popular culture on contemporary religious sensibilities, life, and practice. *Religion, Media, and Social Change* explores the correlation between the study of religion, media, and popular culture, and broader sociological theorizing on religious change. Contributions devote serious attention to broadly defined media, including technologies, institutions, and social and cultural environments, as well as mass-mediated popular culture, such as film, music, television, and computer games. This interdisciplinary collection addresses important theoretical and methodological questions by connecting the study of media and popular culture to current perspectives, approaches, and discussions in the broader sociological study of religion. *The Medium and the Light*. Michael McLuhan, 2010-03-01.

Say the name Marshall McLuhan, and you think of the great discoverer's explorations of the media. But throughout his life, McLuhan never stopped reflecting profoundly on the nature of God and worship, and on the traditions of the Church. Often other intellectuals and artists would ask him incredulously, "Are you really a Catholic?" He would answer, "Yes, I am a Catholic, the worst kind of a convert," leaving them more baffled than before. Here, like a golden thread lining his public utterances on the media, are McLuhan's brilliant probes into the nature of conversion, the church's understanding of media, the shape of tomorrow's church, religion and youth, and the God-making machines of the modern world. This fascinating collection, gathered from his many and scattered remarks, essays, and other writings, shows the deeply Christian side of a man widely considered the most important thinker of our time, a man whose insights into media and culture have revolutionized the field of media study and the way we

see the world Religion, Media, and the Marketplace Lynn Schofield Clark, 2007 Religion is infiltrating the arena of consumer culture in increasingly visible ways We see it in a myriad of forms in movies such as Mel Gibson's *The Passion of the Christ* on Internet shrines and kitschy Web altars and in the recent advertising campaign that attacked fuel guzzling SUVs by posing the question What would Jesus drive In *Religion Media and the Marketplace* scholars in history media studies and sociology explore this intersection of the secular and the sacred Topics include how religious leaders negotiate between the competing aims of the mainstream and the devout in the commercial marketplace how politics and religious beliefs combine to shape public policy initiatives how the religious other is represented in the media and how consumer products help define the practice of different faiths At a time when religious fundamentalism in the United States and throughout the world is inseparable from political aims this interdisciplinary look at the mutual influences between religion and the media is essential reading for scholars from a wide variety of disciplines **Religion Across Media** Knut Lundby, 2013 This edited collection aims to examine religion across historical media forms using a broad concept of media contemporary media with a focus on digital forms religious traditions and disciplinary approaches This book attempts to address issues of religion and media precisely through establishing a cross disciplinary scholarly dialogue on the subject of religion across media Sex, Religion, Media Dane S. Claussen, 2002-10-16 Each chapter in this unique volume explores intersections of sex religion and media in our society An interdisciplinary cast of contributors examines a wide variety of themes including entertainment producers roles in disseminating sexual and religious content news coverage of stories about sex and religion religious conservatives efforts to influence media coverage of sex and values and how religious consumers are influenced by and react to sexual content in media **Practicing Religion in the Age of the Media** Stewart M. Hoover, Lynn Schofield Clark, 2002 Focusing on the crossover between the sacred and the secular this volume gathers the work of media experts religious historians sociologists of religion and authorities on American studies and art history *Media Mindfulness* Gretchen Hailer, Rose Pacatte, 2007 Whether you are a Catholic high school teacher of any discipline a catechist or a youth minister feel confident that you can educate teens in one of the most difficult yet crucial areas of their growth in faith Beware Sister Media and Sister Catechist have written an information packed resource that also shares their sense of fun and exploration You and your students might consider this study of Media Mindfulness to be one of the most enjoyable and meaningful educational experiences in high school
