Return To Main Street A Journey To Another America:

Return to Main Street Nancy Eberle, 1982-01-01 **Landscape and Images** John R. Stilgoe, 2015-02-12 John Stilgoe is just looking around This is more difficult than it sounds particularly in our mediated age when advances in both theory and technology too often seek to replace the visual evidence before our own eyes rather than complement it We are surrounded by landscapes charged with our past and yet from our earliest schooldays we are instructed not to stare out the window Someone who stops to look isn't only a rarity he or she is suspect *Landscape and Images* records a lifetime spent observing America's constructed landscapes Stilgoe's essays follow the eclectic trains of thought that have resulted from his observation from the postcard preference for sunsets over sunrises to the concept of teen geography to the unwillingness of Americans to walk up and down stairs In Stilgoe's hands the subject of jack o lanterns becomes an occasion to explore centuries old concepts of boundaries and trespassing and to examine why this originally pagan symbol has persisted into our own age Even something as mundane as putting the cat out before going to bed is traced back to fears of unwatched animals and an untended frontier fireplace Stilgoe ponders the forgotten connections between politics and painted landscapes and asks why a country whose vast majority lives less than a hundred miles from a coast nonetheless looks to the rural Midwest for the classic image of itself At times breathtaking in their erudition the essays collected here are as meticulously researched as they are elegantly written Stilgoe's observations speak to specialists whether they be artists historians or environmental designers as well as to the common reader Our landscapes constitute a fascinating history of accident and intent The proof says Stilgoe is all around us *Housing and Planning References* ,1982 **New Wine in Old Wineskins** R. Stephen Warner, 1988 Exploring the roots of resurgent evangelicalism in the United States Stephen Warner tells the story of one small town church from 1959 to 1982 the Presbyterian Church of Mendocino California This book chronicles the actions of the men and women who struggled with and against one another to shape their church **Small Town** ,1982 Blair & Ketchum's Country Journal ,1984 **Landscape in America** George F. Thompson, 1995 The American landscape is astonishing in its diversity from great global cities to sparsely inhabited plains from rich wetlands to huge deserts from mountain peaks to rolling fields of grain from ancient pueblos to suburbia from famous river valleys to old industrial heartlands from backyards to city streets Americans have lived intimately with these landscapes since before recorded history and we continue today to think about and sometimes even struggle over what the land means to whom it belongs and whose hands will shape its appearance in the future In this collection of specially commissioned essays nineteen of America's leading writers artists and scholars come together to ponder the question What is landscape Recognizing that no one person or discipline can possibly provide the whole answer George Thompson has chosen a range of viewpoints that in his words attempts to make links between art and science history and geography photography and literature a land ethic and environmental design management and planning *Landscape in America* is the first book to explore the idea of landscape

and place in such a broad ranging way Designed for the uncommon common reader it offers a distinctively American perspective on what landscape is what it means and what it represents that will be compelling to the widest possible audience

The Great Lakes Review ,1982 *Social Conditions in the United States* Mary A. Vance,1985 Landscape in America George Fletcher Thompson,1990 **Quest for Walden** Loren C. Owings,1997

Ever since Henry David Thoreau penned his masterpiece *Walden* a chronicle of his two year sojourn in the woods of Concord Massachusetts Americans have yearned for a return to pastoral life to a place where the simplicities and beauty of nature dictate a quality of life not found in modern urban America The metaphor of *Walden* inspired many to seek out and write about country life and the back to the land movement in America This is the first book length study of that interesting genre the country book written primarily for urban dwellers It gives detailed content analyses of both country life essays and guides to country living from 1863 through 1995

Conflict and Change in the Countryside Guy M. Robinson,1990 The book adopts a three part structure with the first four chapters examining the nature and structure of rural society including the urbanization of rural communities depopulation and counter urbanization

Illinois Authors ,1983 *Appleton's Hand-book of American Travel* ,1870

Appletons' Hand-book of American Travel ,1870 Roads and Streets ,1929 **The Routledge Companion to Native American Literature** Deborah L. Madsen,2015-10-05
