binary of photography and power the authors reveal the different modes of seeing that involve distinct cultural norms social practices power relations levels of technology and networks for circulating photography and that determined the manner of its re use in constructing various images of Central Asia The volume demonstrates that photography was the cornerstone of imperial media governance and discourse construction in colonial Turkestan of the tsarist and early Soviet periods The various cases show the complex mechanisms by which images of Turkestan were created remembered or forgotten from the nineteenth until the twenty first century The book should appeal to scholars of the Russian Empire and Central Asia of history of photography and visual culture of memory studies It should be appropriate for use in upper level undergraduate courses and even a broader public

Blanch,2018-07-10 A stunning tale set in England Paris and Moscow chronicling Blanch s love for an older Russian man and the passionate obsession that takes her to Siberia and beyond My book is not altogether autobiography nor altogether travel or history either You will just have to invent a new category Lesley Blanch wrote about Journey into the Mind s Eye a book that remains as singularly adventurous and intoxicating now as when it first came out in 1968 Russia seized Lesley Blanch when she was still a child A mysterious traveler swathed in Siberian furs bearing Faberg eggs and icons as gifts along with Russian fairy tales and fairy tales of Russia came to visit her parents and left her starry eyed Years later the same man returned to sweep her off her feet Her love affair with the Traveller as she calls him transformed her life and fueled an abiding fascination with Russia and Russian culture one that would lead her to dingy apartments reeking of cabbage soup and piroshki on the outskirts of Paris in the 1960s and to Siberia and beyond
