chapters are based on papers presented at international conferences most at NINJAL international symposium held in January 2019 some at International Cognitive Linguistics Conferences in 2017 and 2019 This volume provides valuable descriptions of familiar and unfamiliar languages as well as insightful discussions of controversial issues based on those descriptions This book would interest students in linguistics and cognitive science in Asia Pacific Europe and North America

Using Russian Derek Offord,2005-07-14 Using Russian is a guide to Russian usage for those who have already acquired the basics of the language and wish to extend their knowledge Unlike conventional grammars it gives special attention to those areas of vocabulary and grammar which cause most difficulty to English speakers and focuses on questions of style and register which are all too often ignored Clear readable and easy to consult it will prove invaluable to students seeking to improve their fluency and confidence in Russian This second edition has been substantially revised and expanded to incorporate fresh material and up to date information Many of the original chapters have been rewritten and one brand new chapter has been added providing a clear picture of Russian usage in the 21st century

Corpus Use in Cross-linguistic Research Marlén Izquierdo,Zuriñe Sanz-Villar,2023-11-02 Cross linguistic research is a fruitful field of language inquiry that has benefited enormously from the use of corpora As sources of linguistic data of various kinds and as tools for language processing corpora have shaped the development of cross linguistic research enabling both language description and practical applications This volume contains twelve studies that emphasize the usefulness and usability of parallel corpora in accurately exploring the structure and use of seven under researched languages and language varieties The first part emphasizes the role of corpus based descriptive analyses at the lexicogrammatical and discursive levels as a first step on the way towards concrete applications like translation or language teaching The second part focuses on the role of parallel corpus based language processing techniques and applications that facilitate professional communication This book will be of interest to scholars in contrastive linguistics translation studies discourse analysis language teaching and natural language processing

A Cognitive Perspective on Spatial Prepositions Maria Brenda,Jolanta Mazurkiewicz-Sokołowska,2022-10-15 A Cognitive Perspective on Spatial Prepositions Intertwining networks is devoted to the issue of the relation between language and thought approached from the perspective of spatial relations encoded by four equivalent spatial prepositions English to German zu Polish do and Russian Regarding these prepositions as path prepositions the authors show that the prepositional semantic structures are conceptually grounded in the PATH and the MOTION EVENT frames and explain that prepositional senses emerge as a result of the PATH image schema transformations and metaphorical mappings related to the EVENT STRUCTURE metaphor Based on their findings the authors show how senso motoric functioning life experience individual knowledge imagery and different ways in which people conceptualize the world influence the relation between language and conceptualization

Case and Gender Willem Andries Helden,1993 The cybernetic dream which pervades Soviet bureaucracy after Stalin produced a relatively liberal and generous science policy In linguistics the new spirit gave rise to a

variety of trends professing to practise structural mathematical or applied linguistics and promising practical applications in natural language processing. The trends originating in the sixties comprise the so called Set theoretical School. In 1957 the mathematician Kolmogorov confronted the participants of a seminar on mathematical linguistics with a few pilot questions such as what exactly do we mean when we say that two words are in the same case. The rigorous answers which the Set theoretical School worked out for Kolmogorov's questions turned out to have far reaching implications for linguistic theory. Case and Gender examines both the contextual and the internal development of the Set theoretical School. The rise and decline of the School can be ascribed to Soviet humanities policy while the specifics of its linguistic development can be attributed to the non linguistic backgrounds and applied goals of its first exponents. The two volumes contain a systematic account of the networks of definitions models proposed by the School and provide a metamodel which facilitates providing a consistent formalization of the models and uncovering their implicit assumptions on the properties of language. The metamodel also enables an orderly comparison of the models with one another and with terminological systems developed elsewhere. Moreover the models are evaluated amended and confronted with linguistic material from various languages. The later chapters are concluded with more far reaching proposals. Kolmogorov's questions must be taken seriously. The turn toward a semantics orientated approach which is evident in the last stage of the development of the Set theoretical School must be pursued. New definitions of case and gender are proposed in accordance with the new approach. Case and Gender contains not only an analytical survey of the complete scientific output of the Set theoretical School on morphology and syntax but also a confrontation with contemporary western theories. It shows the viability of a tradition which was abandoned as a result of political developments. The long chapter on the history of the relationship between linguistics and politics in the Soviet Union contains new material on the 1950 linguistic discussion in Pravda which was decided by Stalin's contribution and whose impact would last for decades to come.
