Russian Far East And Pacific Asia Unfulfilled Potential:

The Russian Far East and Pacific Asia M. J. Bradshaw, 2013-07-04 This major study assesses prospects for economic recovery in the Russian Far East evaluating foreign trade and investment political and economic forces patterns of resource supply and needs in Pacific Asia and potential competitors It concludes that this unfulfilled potential has as much to do with conditions in Russia as the downturn caused by the Asian crisis

The Russian Far East and Pacific Asia Michael John Bradshaw, 2001 This major study assesses prospects for economic recovery in the Russian Far East evaluating foreign trade and investment political and economic forces patterns of resource supply and needs in Pacific Asia and potential competitors It concludes that this unfulfilled potential has as much to do with conditions in Russia as the downturn caused by the Asian crisis

Russia as an Aspiring Great Power in East Asia P. Rangsimaporn, 2009-08-27 Rangsimaporn argues that Russia aspires to become a great power and tries to achieve this through utilizing its position as a Eurasian country with vast territories in East Asia its economic assets primarily arms and energy and careful management of its role in a multipolar East Asia with a complex balance of power

North Korea and Northeast Asian Regional Security Simon Xu-Hui Shen, 2016-04-14 With its unstable and intermittent nuclear weapon project and the recent leadership succession issue Democratic People's Republic of Korea DPRK has been a source of insecurity for the past decade in this region in addition to the delicate international relations among the powerful China United States Japan and Russia The essence of DPRK issue lies in the instability and uncertainty of nuclear development that even the slightest miscalculation by any one power could disturb the sensitive balance of relationships creating a butterfly effect with a catastrophic result Drawing on various perspectives on the interaction over DPRK and other regional powers this volume seeks to explore the role of DPRK in Northeast Asia and its implication to regional security as a whole The volume does not confirm a particular position over DPRK's nuclear showdown rather it invites scholars to provide assessments from the viewpoints of neighbouring powers in order to present a more complete understanding of the leading issue in Northeast Asia The volume will serve as an invaluable resource for policymakers students and scholars of North Korean politics and international relations This book was published as a special issue of the Journal of Comparative Asian Development

Geography of Russia and Its Neighbors, Second Edition Mikhail S. Blinnikov, 2021-02-17 Authoritative yet accessible the definitive undergraduate text on Russian geography and culture has now been thoroughly revised with current data and timely topics such as the annexation of Crimea and Sevastopol and other background for understanding Russia's 2022 invasion of Ukraine Thematic chapters provide up to date coverage of Russia's physical political cultural and economic geography Regional chapters focus on the country's major regions and the other 14 former Soviet republics Written in a lucid conversational style by a Russian born international expert the concise chapters interweave vivid descriptions of urban and rural landscapes examinations of Soviet and post Soviet life deep knowledge of environmental and conservation issues geopolitical insights engaging anecdotes and rigorous

empirical data Over 200 original maps photographs and other figures are also available as PowerPoint slides at the companion website many in color New to This Edition Separate chapter on Ukraine and Crimea covering events through 2019 Timely topics the political crisis in Ukraine and annexation of Crimea and Sevastopol the return of Putin as president climate change and environmental degradation economic slowdown political shifts in the republics the role of Russian backed forces in Syria Libya and Central African Republic changes in Russia United States relations and more Thoroughly updated population economic and political data 80 new or updated figures tables and maps Pedagogical Features End of chapter review questions suggested assignments and in class exercises Within chapter vignettes about Russian places culture and history End of chapter internet resources and suggestions for further reading Companion website with all figures and maps from the book many in full color

RUSSIA'S FAR EAST (p) , In their introduction the authors bring the textiles to life by examining who made them how ideas travelled across the continent and the significance of pattern and symbolism In addition all the principal techniques are explained while brief commentaries highlight the design features Whether you are interested in graphic design or technical detail this inspiring book will be the first to open your eyes to a previously unexplored aspect of Africa

BOOK JACKET The Oxford Handbook of the Russian Economy Michael Alexeev, Shlomo Weber, 2013-06-04 By 1999 Russia's economy was growing at almost 7% per year and by 2008 reached 11th place in the world GDP rankings Russia is now the world's second largest producer and exporter of oil the largest producer and exporter of natural gas and as a result has the third largest stock of foreign exchange reserves in the world behind only China and Japan But while this impressive economic growth has raised the average standard of living and put a number of wealthy Russians on the Forbes billionaires list it has failed to solve the country's deep economic and social problems inherited from the Soviet times Russia continues to suffer from a distorted economic structure with its low labor productivity heavy reliance on natural resource extraction low life expectancy high income inequality and weak institutions While a voluminous amount of literature has studied various individual aspects of the Russian economy in the West there has been no comprehensive and systematic analysis of the socialist legacies the current state and future prospects of the Russian economy gathered in one book The Oxford Handbook of the Russian Economy fills this gap by offering a broad range of topics written by the best Western and Russian scholars of the Russian economy While the book's focus is the current state of the Russian economy the first part of the book also addresses the legacy of the Soviet command economy and offers an analysis of institutional aspects of Russia's economic development over the last decade The second part covers the most important sectors of the economy The third part examines the economic challenges created by the gigantic magnitude of regional geographic ethnic religious and linguistic diversity of Russia The fourth part covers various social issues including health education and demographic challenges It will also examine broad policy challenges including the tax system rule of law as well as corruption and the underground economy Michael Alexeev and Shlomo Weber provide for the first time in one volume a complete well rounded

and essential look at the complex emerging Russian economy

The Regional and Local Shaping of World Society

Mark Herkenrath, 2007 Globalization is usually seen as a uniform force producing similar social consequences across all societies affected The contributions in this volume challenge this notion by demonstrating that reactions to the same global changes vary across different parts of the world In particular this volume examines the crucial role of economically and politically integrated regions as mediators between global challenges and local responses To the extent that different regional reactions to global change retroact on their global context global social transformation becomes a highly complex phenomenon

Policing Northeast Asia Se Hyun Ahn, 2020-06-02 This book explores the progress in and the obstacles surrounding developing comprehensive security cooperation between Russia and South Korea since diplomatic relations were established in 1991 within the framework of economic security The book focuses on oil and natural gas projects linking the Trans Siberian and Trans Korean Railroads industrial development in the Nakhodka Free Economic Zone fishery cooperation and the arms trade and examines whether these five aspects of cooperation serve to contribute to building Russian South Korean bilateral and regional economic security The author argues that these five aspects of cooperation all have the potential to enhance comprehensive bilateral security and further regional economic security in Northeast Asia However Russian South Korean economic cooperation has been hampered by a number of obstacles including domestic factors as well as external factors and prevented Russia and South Korea from fulfilling their potential for creating a cooperative comprehensive security relationship The author concludes with an assessment on the utility of the concept of multi dimensional security cooperation as a framework for studying and improving the prospects for Russian South Korean bilateral relations

Russian Policy Towards China and Japan Natasha Kuhrt, 2007-12-24 The book traces the development of Russian policy towards China and Japan in the Eltsin and Putin Periods

Russia's Turn to the East Helge Blakkisrud, Elana Wilson Rowe, 2017-12-29 This book is open access under a CC BY license This book explores if and how Russian policies towards the Far East region of the country and East Asia more broadly have changed since the onset of the Ukraine crisis and Russia's annexation of Crimea Following the 2014 annexation and the subsequent enactment of a sanctions regime against the country the Kremlin has emphasized the eastern vector in its external relations But to what extent has Russia's pivot to the East intensified or changed in nature domestically and internationally since the onset of the current crisis in relations with the West Rather than taking the declared pivot as a fact and exploring the consequences of it the contributors to this volume explore whether a pivot has indeed happened or if what we see today is the continuation of longer duration trends concerns and ambitions

The International Relations of Northeast Asia Samuel S. Kim, 2003-10-07 Is Northeast Asia primed for peace or ripe for great power rivalry In this turbulent region all the world order challenges of arms control and disarmament global North South tensions human rights and humanitarian intervention environmental protection and eco development and democratization and humane governance are concentrated More than

any other part of the world the divided Korean peninsula is the strategic crossroad where the four major regional global powers the United States Russia China and Japan uneasily interact This authoritative work explores the complex and evolving interplay of national regional and global forces influencing Northeast Asia s security economy and identity Written by a team of leading scholars the book presents a variety of theoretical perspectives and case studies to offer a comprehensive analysis of the pressures that shape the policy choices of China Russia Japan the United States North and South Korea and Taiwan The authors historically and culturally informed narratives help track and explain the changes and continuities of relationships within the region and with the United States and Russia Concise and current this book will be essential reading for all those concerned with the role of a changing Northeast Asia in world politics Historical Atlas of Northeast Asia, 1590-2010 Narango Li, Robert Cribb, 2014-06-17 Four hundred years ago indigenous peoples occupied the vast region that today encompasses Korea Manchuria the Mongolian Plateau and Eastern Siberia Over time these populations struggled to maintain autonomy as Russia China and Japan sought hegemony over the region Especially from the turn of the twentieth century onward indigenous peoples pursued self determination in a number of ways and new states many of them now largely forgotten rose and fell as great power imperialism indigenous nationalism and modern ideologies competed for dominance This atlas tracks the political configuration of Northeast Asia in ten year segments from 1590 to 1890 in five year segments from 1890 to 1960 and in ten year segments from 1960 to 2010 delineating the distinct history and importance of the region The text follows the rise and fall of the Qing dynasty in China founded by the semi nomadic Manchus the Russian colonization of Siberia the growth of Japanese influence the movements of peoples armies and borders and political social and economic developments reflecting the turbulence of the land that was once the world s cradle of conflict Compiled from detailed research in English Chinese Japanese French Dutch German Mongolian and Russian sources the Historical Atlas of Northeast Asia incorporates information made public with the fall of the Soviet Union and includes fifty five specially drawn maps as well as twenty historical maps contrasting local and outsider perspectives Four introductory maps survey the region s diverse topography climate vegetation and ethnicity *Resolving the Russo-Japanese Territorial Dispute* Brad Williams, 2007-06-11 The unresolved territorial dispute between Japan and Russia over the South Kuril Islands Northern Territories remains the largest obstacle to concluding a peace treaty and fully normalising bilateral relations between the two nations This book traces the evolution of transnational relations between subnational public authorities in Hokkaido and Sakhalin examining the interrelationship between these ties and the Russo Japanese territorial dispute The book investigates why the development of Hokkaido Sakhalin relations has failed to create at the subnational level an environment conducive to resolving kankyo seibi the South Kuril Islands Northern Territories dispute Brad Williams suggests that kankyo seibi has not worked primarily because Russia s troubled transition to a liberal democratic market economy has manifested itself in ways that have ultimately increased the South Kuril Islands intrinsic and instrumental value for the Sakhalin public and

regional elite This in turn has limited the impact from the twin transnational processes of cultural and economic exchange in alleviating opposition to the transferral of these disputed islands to Japan Drawing upon a wealth of primary and secondary sources from both countries this book utilises levels of analysis and an analytical framework that incorporates national and subnational as well as governmental and non governmental forces to discuss a relatively unexplored aspect of Russo Japanese relations As such Resolving the Russo Japanese Territorial Dispute will appeal to students and scholars of Asian politics international relations and post communist states

Russian Business Power Andreas Wenger,Robert Orttung,Jeronim Perovic,2006-10-03 Since the collapse of the Soviet Union Russia has developed a powerful business community and a potent network of transnational organized groups Russian Business Power explores the powerful impact these new actors are having on the evolution of the Russian state and its foreign behaviour Unlike other books which focus either on Russia s foreign and security policy or on the evolution of Russian business legal and illegal within the context of Russia s domestic transition this book considers how far Russia s foreign and security policy is shaped by business It considers a wide range of issues including energy the arms trade international drug flows and human trafficking and examines the impact of Russian business in Russia s dealings with Western and Eastern Europe the Caspian the Caucasus and the Far East

Geographies of the New Economy Peter W. Daniels,Andrew Leyshon,Michael J. Bradshaw,Jonathan Beaverstock,2006-12-11 What is the new economy Where is it How does it differ from the old economy How does the new economy relate to issues such as the nature of work social inclusion and exclusion Geographies of the New Economy explores the meaning of the new economy at the global scale from the perspective of advanced post socialist and emerging economies Drawing on evidence from regions around the world the book debates the efficacy of the widely used concept of the new economy and examines its socio spatial consequences This book is important reading for policy makers academics and students of geography sociology urban studies economics planning and policy studies

Russia R. Kanet,2007-06-28 The authors argue that Vladimir Putin and his advisors are committed to re establishing Russia as a great power and that the existence of nuclear weapons and the revival of the Russian economy have provided the foundations for an expanded Russian role in global affairs

Siberia Janet M. Hartley,2014-08-26 Geschiedenis van de bevolking van Siberi

Russian Energy and Security up to 2030 Susanne Oxenstierna,Veli-Pekka Tynkkynen,2014-01-03 The challenges in Russia s energy sector are changing On the demand side Europe is seeking to limit its dependence on Russian oil and gas with the result that China and other Asian countries are likely to eventually become growing export markets for Russian energy On the supply side oil and gas fields in West Siberia are diminishing and in future Russia s energy will have to come more from East Siberia and the Arctic which will necessitate new infrastructure development and the employment of advanced technologies which may increase Russia s dependence on commercial partners from outside Russia This book explores the challenges facing Russia s energy sector and the resulting security implications It includes a discussion of how far the Russian state is likely to continue

to monopolise the energy sector and how far competition from private and foreign companies might be allowed

Russian Regions and Regionalism Anne Aldis, Graeme P. Herd, 2003-08-29 The emergence of large regions within Russia as centres of gravity for political and international power and the changing relationship between these emerging regions and the centre are critically important factors currently at work within Russia This book examines the whole question of Russian regions and regionalism It considers important themes related to regionalism including demography security military themes and international relations and looks at a wide range of particular regions as case studies It discusses the extent to which regions have succeeded in establishing themselves as centres of power and assesses the degree to which President Putin is succeeding in incorporating regions into a hierarchy of power in which the primacy of the centre is retained
