Russian Literature, Modernism and the Visual Arts Catriona Kelly, Stephen Lovell, 2000-03-09 In the Russian modernist era literature threw itself open to influences from other art forms most particularly the visual arts Collaborations between writers artists designers and theatre and cinema directors took place more intensively and productively than ever before or since Equally striking was the incursion of spatial and visual motifs and structures into verbal texts Verbal and visual principles of creation joined forces in an attempt to transform and surpass life through art Yet willed transcendence of the boundaries between art forms gave rise to confrontation and creative tension as well as to harmonious co operation This collection of essays by leading British American and Russian scholars first published in 2000 draws on a rich variety of material from Dostoevskii to Siniavskii from writers doodles to cabarets from well known modernists such as Akhmatova Malevich Platonov and Olesha to less well known figures to demonstrate the creative power and dynamism of Russian culture on the boundaries

A History of Russian Literature Andrew Kahn, Mark Naumovich Lipovetskiĭ, Irina Reyfman, Stephanie Sandler, 2018 Russia possesses one of the richest and most admired literatures of Europe reaching back to the eleventh century A History of Russian Literature provides a comprehensive account of Russian writing from its earliest origins in the monastic works of Kiev up to the present day still rife with the creative experiments of post Soviet literary life The volume proceeds chronologically in five parts extending from Kievan Rus in the 11th century to the present day The coverage strikes a balance between extensive overview and in depth thematic focus Parts are organized thematically in chapters which a number of keywords that are important literary concepts that can serve as connecting motifs and case studies in depth discussions of writers institutions and texts that take the reader up close and Visual material also underscores the interrelation of the word and image at a number of points particularly significant in the medieval period and twentieth century The History addresses major continuities and discontinuities in the history of Russian literature across all periods and in particular bring out trans historical features that contribute to the notion of a national literature The volume s time range has the merit of identifying from the early modern period a vital set of national stereotypes and popular folklore about boundaries space Holy Russia and the charismatic king that offers culturally relevant material to later writers This volume delivers a fresh view on a series of key questions about

Russia's literary history by providing new mappings of literary history and a narrative that pursues key concepts rather more than individual authorial careers. This holistic narrative underscores the ways in which context and text are densely woven in Russian literature and demonstrates that the most exciting way to understand the canon and the development of tradition is through a discussion of the interrelation of major and minor figures, historical events and literary politics, literary theory and literary innovation.

Russian Literature Andrew Baruch Wachtel, Ilya Vinitsky, 2013-05-08. For most English speaking readers, Russian literature consists of a small number of individual writers, nineteenth century masters such as Dostoevsky, Tolstoy and Turgenev, or a few well known works: Chekhov's plays, Brodsky's poems and perhaps *Master and Margarita* and *Doctor Zhivago* from the twentieth century. The medieval period as well as the brilliant tradition of Russian lyric poetry from the eighteenth century to the present are almost completely terra incognita, as are the complex prose experiments of Nikolai Gogol, Nikolai Leskov, Andrei Belyi and Andrei Platonov. Furthermore, those writers who have made an impact are generally known outside of the contexts in which they wrote and in which their work has been received. In this engaging book, Andrew Baruch Wachtel and Ilya Vinitsky provide a comprehensive, conceptually challenging history of Russian literature, including prose, poetry and drama. Each of the ten chapters deals with a bounded time period from medieval Russia to the present. In a number of cases, chapters overlap chronologically, thereby allowing a given period to be seen in more than one context. To tell the story of each period, the authors provide an introductory essay touching on the highpoints of its development and then concentrate on one biography, one literary or cultural event and one literary work, which serve as prisms through which the main outlines of a given period's development can be discerned. Although the focus is on literature, individual works, lives and events are placed in broad historical context as well as in the framework of parallel developments in Russian art and music.

The Oxford Handbook of the Russian Novel Julie A. Buckler, Justin Weir, 2025. The Oxford Handbook of the Russian Novel brings together top specialists in Russian literature to treat the Russian novel from the late 18th to the 21st century using a range of interpretive perspectives. The Russian novel is a distinctive tradition by virtue of its formal eccentricities as well as the boldness with which these works approached the most complex philosophical, political and moral questions. This Handbook treats well known works and authors but also explores the much broader tradition of the Russian novel up to the present. The essays in the Handbook provide cultural and historical perspectives on the Russian novel as well as showcasing emergent modes of analysis including postcolonialism, ecocriticism and posthumanism.
