Archaeology and the Capitalist World System Aron L. Crowell, 2013-11-11 This fascinating monograph employs a world system model as the basis for archaeological investigation of Russian America that relates local findings to global patterns Author Aron Crowell examines Russian Spanish and American historical sources along with the archaeological evidence to uncover a preliterate culture that left no written record of its contact with European colonial powers Crowell's particular subject is the indigenous Qikertarmiut people of Kodiak Island off the coast of Alaska The special case of this tribe serves as a microcosm of the history of colonialism demonstrating how early European capitalism impacted and in some cases destroyed indigenous societies *Cultures of Color in America* Sybil Lassiter, 1998-01-26 By the year 2000 more than one third of Americans will be persons of color and by 2050 non white persons will constitute 45% of the population Immigration from European countries has decreased but the number of migrants from countries of non white ancestry has increased Consequently many Americans are showing a growing interest in knowledge about the values and behaviors of their diverse associates This book offers an insight into the diverse lifestyles for some cultures of color in American society Although all members of these cultures may not identify themselves as persons of color the cultures were selected because they incorporate a significant number of non white individuals Each chapter presents an overview of a cultural group that includes a brief history migration trends traditional and modern family practices religious beliefs concepts about death and dying nutritional preferences health behaviors and diseases often found among its members The cultures discussed are Africans African Americans Alaskans Asians Haitians Hawaiians Native Americans Puerto Ricans and West Indians This book should be of interest to academics health care professionals sociologists clergy and laypersons Its goal is to alleviate fear and prejudice through informed understanding Kodiak Kreol Gwenn A. Miller, 2016-01-21 From the 1780s to the 1820s Kodiak Island the first capital of Imperial Russia's only overseas colony was inhabited by indigenous Alutiiq people and colonized by Russians Together they established an ethnically mixed kreol community Against the backdrop of the fur trade the missionary work of the Russian Orthodox Church and competition among Pacific colonial powers Gwenn A Miller brings

to light the social political and economic patterns of life in the settlement making clear that Russia's modest colonial effort off the Alaskan coast fully depended on the assistance of Alutiiq people In this context Miller argues the relationships that developed between Alutiiq women and Russian men were critical keys to the initial success of Russia's North Pacific venture Although Russia's Alaskan enterprise began some two centuries after other European powers Spain England Holland and France started to colonize North America many aspects of the contacts between Russians and Alutiiq people mirror earlier colonial episodes adaptation to alien environments the discovery and exploitation of natural resources complicated relations between indigenous peoples and colonizing Europeans attempts by an imperial state to moderate those relations and a web of Christianizing practices Russia's Pacific colony however was founded on the cusp of modernity at the intersection of earlier New World forms of colonization and the bureaucratic age of high empire Miller's attention to the coexisting intimacy and violence of human connections on Kodiak offers new insights into the nature of colonialism in a little known American outpost of European imperial power
