Russians How They Live And Work:

Towards a New Russian Work Culture Vladimir V Karacharovskiy, 2016-10-11 This innovative book offers a fresh perspective on the national work culture of Russia and the substantial role foreign institutional and cultural impact has had in shaping it Russia's contemporary work culture is understood as a national system supplemented by new values and attitudes that have been adopted through the mediation of foreign individuals and corporations or in response to the challenges of Western competition The book argues that the foreign factor triggers change in the landscape of Russia's work culture the scope of which depends on the type of influence However there is a certain core of the work culture that remains resistant to any external impact

Congress, 1962 *The Russian Mind Since Stalin's Death* Yuri Glazov, 2012-12-06 I have been working on this book since leaving Russia in April of 1972 It was my wish to write this book in English and there were what seemed to me to be serious reasons for doing so In recent years there has appeared a wealth of literature in Russian about Russia As a rule this literature has been published outside the USSR by authors who still live in the Soviet Union or who have only recently left it A fair amount of important literature is being translated into English but I believe it will be read mainly by specialists in Russian studies or by those who have a great interest in the subject already The majority of Russian authors write of course for the Russian reader or for an imagined Western public It is my feeling that Russian authors have serious difficulties in understanding the mentality of Westerners and that there still exists a gap between the visions of Russians and non Russians I have made my humble attempt to bridge this gap and I will be happy if I am even partly successful The Russian world is indeed fascinating Many people who visit Russia for a few days or weeks find it a country full of historical charm fantastic architecture and infinite mystery For many inside the country especially for those in conflict with the Soviet authorities
