Ryotwari System In Madras 1792 1827:

Colonialism, Environment and Tribals in South India, 1792-1947 Velayutham Saravanan, 2016-08-12 This book offers a bird's eye view of the economic and environmental history of the Indian peninsula during colonial era. It analyses the nature of colonial land revenue policy, commercialisation of forest resources, consequences of coffee plantations, intrusion into tribal private forests and tribal controlled geographical regions and disintegration of their socio-cultural, political, administrative and judicial systems during the British Raj. It explores the economic history of the region through regional and non-market economies and addresses the issues concerning local communities. Comprehensive, systematic and rich in archival material, this book will be useful to scholars and researchers in history, especially those concerned with economic and environmental history. *The Ryotwari system in Madras, 1792-1827* Nilmani Mukherjee, N. K. Sinha, 2001 Thomas Munro and the Development of Administrative Policy in Madras 1792-1818 T. H. Beaglehole, 2010-06-03 Dr Beaglehole gives a detailed chronological study of Munro's administrative career up to 1820 when he was appointed Governor of Madras. This 1966 book discusses the background to Munro's ideas on administration and shows that similar ideas came to be adopted by the East India Company's governing body in London. The Ryotwari System in Madras Nilamani Mukhopādhyāya, Narendra Krishna Sinha, 1962 **India and the British Empire** Douglas M. Peers, Nandini Gooptu, 2017-02-09 South Asian History has enjoyed a remarkable renaissance over the past thirty years. Its historians are not only producing new ways of thinking about the imperial impact and legacy on South Asia but also helping to reshape the study of imperial history in general. The essays in this collection address a number of these important developments, delineating not only the complicated interplay between imperial rulers and their subjects in India but also illuminating the economic, political, environmental, social, cultural, ideological and intellectual contexts which informed and were in turn informed by these interactions. Particular attention is paid to a cluster of binary oppositions that have hitherto framed South Asian history, namely colonizer/colonized, imperialism/nationalism and modernity/tradition, and how new analytical frameworks are emerging which enable us to think beyond the constraints imposed by these binaries. Closer attention to regional dynamics as well as to wider global forces has enriched our understanding of the history of South Asia within a wider imperial matrix. Previous impressions of all-powerful imperialism with the capacity to reshape all before it for good or ill are rejected in favour of a much more nuanced image of imperialism in India that acknowledges the impact as well as the intentions of colonialism but within a much more complicated historical landscape where other processes are at work. **An Economic History of Early Modern India** Tirthankar Roy, 2013-07-18 The death of the Mughal emperor Aurangzeb in 1707 until the annexation of Maratha territories by the British East India Company in 1818 was a period of transition for the economy of India. This book focuses on these transitions and shows how a study of this period of Indian history contributes to a deeper understanding of the long-run patterns of economic change in India. Momentous changes occurred in business and politics in India during the eighteenth

century the expansion of trade with Europe and the collapse of the Mughal Empire resulting in the formation of a number of independent states This book analyses how these two forces were interrelated and how they went on to change livelihoods and material wellbeing in the region Using detailed studies of markets institutions rural and urban livelihoods and the standard of living it develops a new perspective on the history of eighteenth century India one that places business at the centre rather than the transition to colonial rule This book is the first systematic account of the economic history of early modern India and an essential reference for students and scholars of Economics and South Asian History

The Pariah Problem Rupa Viswanath, 2014-07-29 Once known as Pariahs Dalits are primarily descendants of unfree agrarian laborers They belong to India's lowest castes face overwhelming poverty and discrimination and continue to be a source of public anxiety Drawing on a wealth of previously untapped sources this book follows the conception and evolution of the Pariah problem in public consciousness in the 1890s It shows how high caste landlords state officials and well intentioned missionaries conceived of Dalit oppression and prevented substantive solutions to the Pariah Problem with consequences that continue to be felt today The book begins with a description of the everyday lives of Dalit laborers in the 1890s and highlights the systematic efforts made by the state and Indian elites to protect Indian slavery from public scrutiny Protestant missionaries were the first non Dalits to draw attention to their plight However their vision of the Pariahs suffering as a result of Hindu religious prejudice obscured the fact that the entire agrarian political economic system depended on Pariah labor The Indian public as well as colonial officials came to share a view compatible with missionary explanations which meant all subsequent welfare efforts directed at Dalits focused on religious and social transformation rather than on structural reform Methodologically theoretically and empirically this book breaks new ground to demonstrate how events in the early decades of state sponsored welfare directed at Dalits laid the groundwork for the present day where the postcolonial state and well meaning social and religious reformers continue to downplay Dalits landlessness violent suppression and political subordination

Focusing on the practices of spirit bta worship in the coastal area of Karnataka, it examines the relationship between people and deities. Based on extensive fieldwork, this book links important anthropological theories on personhood, perspectives, transactions, and gift exchanges together with the Gestaltkreis theory of Viktor von Weizsäcker. First, it examines the relations between bta worship and land tenure, matriliney, and hierarchy in the society. It then explores the reflexive relationship between modern law and current practices based on conventional law, before examining new developments in bta worship with the rise of mega industries and environmental movements. Furthermore, this book sheds light on the struggles and endeavours of the people who create and recreate their relations with the realm of sacred wildness, as well as the formations and transformations of the Umwelt in perpetual social-political transition. *Modernity and Spirit Worship in India* will be of interest to academics in the field of anthropology, religious studies, and the dynamics of religion and South Asian Culture and Society.
