Svedin,Britt Hägerhäll Aniansson,2011-06-27 This book deals with the challenges posed by the transformation of society towards much needed sustainability Especially it deals with the local features of this change but seen in a global context The two cases examined the municipalities of Linköping and Tidåberg are Swedish but

the problems of how to relate locally to a globalized world are common today The cases have been deliberately chosen to expose alternative types of choices for the local communities involved Large Linköping is historically a nodal city of importance in the national grid of regional centres one that relates to the nation state and represents officialdom Small Älvängen developed in the context of its forest region setting and metallurgy and today operates directly to wider markets while still emphasising its very local identity The fact that these municipalities border each other provides a similar regional context and differences between them may then not be entirely confused by a debate on drastically different geographical settings

Swedish Design Lasse Brunnström, 2018-10-18 Swedish Design A History provides a fascinating and comprehensive introduction to the development of design in Sweden from the mid nineteenth century to the early twenty first Leading design historian Lasse Brunnström traces the move from artisanal crafts production to the mass production and consumption of designed objects a process by which the role and profile of the designer became increasingly important His survey richly illustrated with images of the designed objects discussed takes in forms of design traditionally associated with Sweden such as household objects and textiles while also considering some less written about genres such as industrial and graphic design Brunnström questions many established ideas about design in Sweden notably its aesthetics and its relationship to Sweden's national and political culture He argues that the history of design in Sweden has been far more complex and less straightforwardly blond than hitherto understood

SAAB Cars 1949 to 2011 Julian Parish, 2025-10-14 More than a dozen years after the last cars rolled off the production lines in Trollhättan, Saab still commands a keen following among car enthusiasts around the world. During the 60 years of its existence, Saab became renowned for the aerodynamic design, technical innovation and sturdy construction of its cars, which famously appealed to individualists and creative thinkers. This handy full-colour guide covers the complete history of Saab's cars. The story begins with the UrSaab prototype and the original 92, which went into production in 1949 as the company branched out from aircraft manufacture after the war; it continues through to the final second-generation 95 models in 2011, launched when the company was struggling to stay afloat. Individual chapters are devoted to each of Saab's models, including the 93 and 96 saloons, which enjoyed much success in rallying; the 95 station wagon and the striking Sonett sports cars. The Saab 900 caravan and the Formula Junior racing car that Saab built during this period are also presented. These early models were followed by the larger 99 and the much-loved and highly successful 900 range. The book features detailed specifications for each version of these two models, including the first turbocharged variants with which Saab has become synonymous. In 1985, the 9000 took the marque further upmarket and into partnership with Fiat, Lancia and Alfa Romeo. The guide continues into the 1990s and 2000s, when General Motors progressively took control of Saab's automotive division. Its bestsellers during this period were its 93 and 95 ranges, based on GM platforms. Less well-known, especially in Europe, are its 94X and 97X all-wheel drive models, not forgetting the 92X, a badge-engineered version of the Subaru Impreza. All these models are also presented. Each chapter provides an introduction to the development and evolution of each model, as well as comprehensive technical information. Production numbers and dates are given, as well as details of limited editions. The book is extensively illustrated in full colour with many archive photographs from Saab Automobile and the Saab Car Museum, showing the cars' interior and exterior design.
