Performance Drawing Maryclare Foá,Jane Grisewood,Birgitta Hosea,Carali McCall,2020-09-03 What is performance drawing When does a drawing turn into a performance Is the act of drawing in itself a performative process whether a viewer is present or not Through conversation interviews and essays the authors illuminate these questions and what it might mean to perform and what it might mean to draw in a diverse and expressive contemporary practice since 1945 The term performance drawing first appeared in the subtitle of Catherine de Zegher s *Drawing Papers 20 Performance Drawings* in particular with reference to Alison Knowles and Elena del Rivero In this book it is used as a trope and a thread of thinking to describe a process dedicated to broadening the field of drawing through resourceful practices and cross disciplinary influence Featuring a wide range of international artists this book presents pioneering practitioners alongside current and emerging artists The combination of experiences and disciplines in the expanded field has established a vibrant art movement that has been progressively burgeoning in the last few years The Introduction contextualises the background and identifies contemporary approaches to performance drawing As a way to embrace the different voices and various lenses in producing this book the authors combine individual perspectives and critical methodology in the five chapters While embedded in ephemerality and immediacy the themes encompass body and energy time and motion light and space imagined and observed demonstrating how drawing can act as a performative tool The dynamic interaction leads to a collective understanding of the term performance drawing and addresses the key developments and future directions of this applied drawing process

Lumen Naturae Matilde Marcolli,2020-05-26 Exploring common themes in modern art mathematics and science including the concept of space the notion of randomness and the shape of the cosmos This is a book about art and a book about mathematics and physics In *Lumen Naturae* the title refers to a purely immanent non supernatural form of enlightenment mathematical physicist Matilde Marcolli explores common themes in modern art and modern science the concept of space the notion of randomness the shape of the cosmos and other puzzles of the universe

while mapping convergences with the work of such artists as Paul Cezanne Mark Rothko Sol LeWitt and Lee Krasner Her account focusing on questions she has investigated in her own scientific work is illustrated by more than two hundred color images of artworks by modern and contemporary artists Thus Marcolli finds in still life paintings broad and deep philosophical reflections on space and time and connects notions of space in mathematics to works by Paul Klee Salvador Dal and others She considers the relation of entropy and art and how notions of entropy have been expressed by such artists as Hans Arp and Fernand L ger and traces the evolution of randomness as a mode of artistic expression She analyzes the relation between graphical illustration and scientific text and offers her own watercolor decorated mathematical notebooks Throughout she balances discussions of science with explorations of art using one to inform the other She employs some formal notation which can easily be skipped by general readers Marcolli is not simply explaining art to scientists and science to artists she charts unexpected interdependencies that illuminate the universe

On Line Cornelia H. Butler, M. Catherine de Zegher, 2010 *On Line Drawing Through the Twentieth Century* explores the radical transformation of drawing that began during the last century as numerous artists critically re examined the traditional concepts of the medium In a revolutionary departure from the institutional definition of drawing and from reliance on paper as the fundamental support material artists instead pushed the line into real space expanding the medium s relationship to gesture and form and connecting it with painting sculpture photography film and dance Published in conjunction with an exhibition at The Museum of Modern Art *On Line* presents a discursive history of mark making through nearly 250 works by 100 artists including Aleksandr Rodchenko Alexander Calder Karel Malich Eva Hesse Anna Maria Maiolino Richard Tuttle Mona Hatoum and Monika Grzymala among many others Essays by the curators illuminate individual practices and examine broader themes such as the exploration of the line by the avant garde and the relationship between drawing and dance

Fred Sandback: Vertical Constructions Fred Sandback, 2017-07-25 This new publication marks the first comprehensive survey of a seminal body of work that helped make Fred Sandback into the internationally celebrated artist he has become known as today This catalogue published on the occasion of the exhibition at David Zwirner New York in the fall of 2016 takes its lead from a 1987 mid career presentation of Sandback s work at Westf lischer Kunstverein in M nster also called *Vertical Constructions* With a mixture of archival imagery of the sculptures in situ in M nster and new photography of these works installed at Zwirner this publication is both a historical document and a source of renewed attention to this body of work It also features an expanded selection of sculpture going beyond what was presented in the 1987 and 2016 exhibitions to include key examples of vertical constructions spanning Sandback s career New scholarship by Yve Alain Bois revisits his leading argument that was put forth in his essay for the 2005 Kunstmuseum Liechtenstein catalogue about the power of Sandback s immateriality its ability to linger in our memories in the context of the vertical constructions Lisa Le Feuvre a longtime scholar of sculpture offers a more historical treatment of the show in relation to the artist s writings and other works Also included is a text by David Gray

who responds to Marianne Stockebrand's original essay about the Münster installation he reveals the dialogues around Sandback's practice at the time and helps us reconstruct the way the influence of his vertical works has continued to grow in the thirty years since
