Lombardi Dies, Orr Flies, Marshall Cries Brad Schultz, 2015-11-05 The year 1970 was grim in the United States and worldwide Vietnam continuing civil and political divisions a fear of growing lawlessness all seemed to point to a bleak future The 70s were also a time when traditional boundaries were being challenged from the color of skin to the length of hair Sports events issues and athletes from the very first year of this tumultuous decade reflect the dramatic changes that were taking place around the country Nowhere was this more evident than in college football where the University of Texas became the last all white national champion in 1970 even as a freshman still ineligible to play was standing by to bring about integration In Lombardi Dies Orr Flies Marshall Cries The Sports Legacy of 1970 Brad Schultz covers the most significant and momentous sports stories from this single year in American history reflecting on the deeper impact of these events both on the sporting world and on society as a whole Integration homosexuality drugs lawsuits and tragedy all crossed the sporting landscape in 1970 including pivotal moments such as student athlete protests against racism in college football the debut of Monday Night Football a challenge to baseball's reserve clause and the plane crash carrying Marshall University's football team that killed everyone on board Schultz tells these stories and more thoughtfully placing them within the context of the political social and cultural events taking place across the country and around the world Many of the athletes from 1970 may no longer be with us their records may have been broken and younger athletes may have taken their place but forty five years later it is time to

look back and reflect on the significance of the events that took place in this unforgettable sports year. Chronicling a remarkable time in the history of American sports, this book will interest historians, sports fans, and those wanting to learn more about the impact of sports on culture and society. George Allen Michael Richman, 2023-11. George Allen was a fascinating and eccentric figure in the world of football coaching. His remarkable career spanned six decades from the late 1940s until his sudden death in 1990 at the age of seventy-three. Although he never won a Super Bowl, he never had a losing season as an NFL head coach and was inducted into the Pro Football Hall of Fame in 2002. In *George Allen: A Football Life*, Mike Richman captures the life and accomplishments of one of the most successful NFL coaches of all time and one of the greatest innovators in the game. A player's coach, Allen was a tremendous motivator and game strategist as well as a defensive mastermind and is credited with making special teams a critical focus in an era in which they were an afterthought. He had a keen eye for talent and pulled off masterful trades, often for veteran players who were viewed to be past their prime, who then had great seasons and made his teams much better. In addition to his coaching feats, Allen had an idiosyncratic and controversial personality. His life revolved around football 24/7. One of his quirks was to minimize chewing time by consuming soft foods, giving himself more time to prepare for games and study opponents. He lived and breathed football; he compared losing to death. Allen had contentious relationships with the owners of the two NFL teams for which he was the head coach, the Washington Redskins and Los Angeles Rams. Richman explores why he was fired by those teams and whether he was blackballed from coaching again in the NFL. Based on detailed research and interviews with family, former players, and coaches, *George Allen* is the definitive biography of the football coach who lived to win, loved a good challenge, and left a lasting legacy on pro football history. **THE FIRED UP LIFE** KIRBY S. LLABAN, **Happy Lives, Good Lives** Jennifer Wilson Mulnix, M.J. Mulnix, 2015-05-25. *Happy Lives, Good Lives* offers a thorough introduction to a variety of perspectives on happiness. Among the questions at issue: Is happiness only a state of mind, or is it something more? Is it the same for everyone? Is it under our control, and if so, to what extent? Can we be mistaken about whether we are happy? What role, if any, does happiness play in living a good life? Is it sometimes morally wrong to pursue happiness? Should governments promote happiness through public policy? Asking and answering these questions is worthwhile not only as an intellectual exercise but also as a means of gaining practical insight into how best to pursue a happy life.
