McKirahan,2021-12-16 An astounding project of analysis on more than one hundred translations of ancient philosophical texts this index of words found in the Ancient Commentators on Aristotle series comprises some 114 000 entries It forms in effect a unique dictionary of philosophical terms from the post Hellenistic period through to late antiquity and will be an essential reference tool for any scholar working on the meaning of these ancient texts As traditional dictionaries have usually neglected to include translation examples from philosophical texts of this period scholars interested in how meanings of words vary across time and author have been ill served This index fills a huge gap therefore in the lexical analysis of ancient Greek and has application well beyond the reading of ancient philosophical commentaries Bringing together the full indexes from 110 of the volumes published in Bloomsbury s Ancient Commentators on Aristotle series McKirahan has combined each word entry and analysed how many times particular translations occur He presents his findings numerically so that each meaning in turn has a note as to the number of times it is used For meanings that are found between one and four times the volume details are also given so that readers may quickly and easily look up the texts themselves **First Fifty Years of**

An American Dictionary of the English Language Noah Webster, 1842 **Expression and Truth** Lawrence Kramer, 2012-09-23 Expression and truth are traditional opposites in Western thought expression supposedly refers to states of mind truth to states of affairs Expression and Truth rejects this opposition and proposes fluid new models of expression truth and knowledge with broad application to the humanities These models derive from five theses that connect expression to description cognition the presence and absence of speech and the conjunction of address and reply The theses are linked

by a concentration on musical expression regarded as the ideal case of expression in general and by fresh readings of Ludwig Wittgenstein's scattered but important remarks about music. The result is a new conception of expression as a primary means of knowing acting on and forming the world. Recent years have seen the return of the claim that music's power resides in its ineffability. In *Expression and Truth* Lawrence Kramer presents his most elaborate response to this claim. Drawing on philosophers such as Wittgenstein and on close analyses of nineteenth century compositions, Kramer demonstrates how music operates as a medium for articulating cultural meanings and that music matters too profoundly to be cordoned off from the kinds of critical readings typically brought to the other arts. A tour de force by one of musicology's most influential thinkers, Susan McClary, *Desire and Pleasure in Seventeenth Century Music*.

History of Pittsburgh Volume 1 George Thornton Fleming, The selection of Mr Fleming to prepare this history of Pittsburgh and the region round about was most fortunate for the city. He was not only a sturdy grubber after facts but had the ability to dress them up in pleasing style and set them in graceful order. This book is valuable not only as a narrative of historic events but as a compendium of facts relating to men and matters, events and happenings pertaining to the triumphant growth of Pittsburgh, its institutions and its fame. It is as encyclopedic as entertaining and facilitates the finding of whatsoever data that may be desired. It will be very hard to find another book on the history of Pittsburgh that is as detailed as Mr Fleming's. This is volume one out of two.
