Long Passage to Korea Bernard C. Nalty, 2003 **Long Passage to Korea** Bernard C. Nalty, 2003-09-30 This monograph in the Naval Historical Center's series commemorating the Korean War not only covers the contribution of African American Sailors in that conflict but traces the story of racial integration in the U S Navy since the American Revolution. Author Bernard Nalty is a renowned authority on racial integration of the armed services. Chapters: Introduction, The Early Republic, Filling the Ranks From Slavery to Jim Crow, World War II Experience, Into the Cold War, Robert A. Smalls, The March on Washington, African Americans in the U S Coast Guard, President Truman's Executive Order 981, Black Sports Heroes of the Korean War. **Explosivity** Javier Arbona-Homar, 2025-04-01 How explosions across history reveal the violence embedded in San Francisco's landscape. Offering a novel approach to contemporary landscape studies, *Explosivity* unearths the hidden legacies of violence that have shaped the physical and cultural environment of the San Francisco Bay area. As he sifts through the historical debris of previous centuries, Javier Arbona Homar analyzes a series of explosions that took place between 1866 and 2011 to call attention to the scattered remnants of militarism and racialized capitalism embedded in the region's geography. From incidents involving nineteenth-century explosives manufacturing and World War II munitions loading to radical activism and contemporary television productions, Arbona Homar locates a pattern of historical violence that refocuses the broader racial and colonial context. Citing the material social and political conditions that gave rise to these disparate episodes, he reviews the historic erasure of those driving forces and puts forth alternative possibilities for how such disasters might be memorialized. Synthesizing a diverse set of field research methods including oral histories and site visits and supplemented by specially commissioned landscape photographs by Andrea Gaffney, *Explosivity* presents a radical exercise in the exposition of public memory. Cutrer, T. Michael Parrish, 2018-03-05 On the morning of December 7, 1941, after serving breakfast and turning his attention to laundry services aboard the USS West Virginia, Ship's Cook Third Class Doris Dorie Miller heard the alarm calling sailors to battle stations. The first of several torpedoes dropped from Japanese aircraft had struck the American battleship. Miller hastily made his way to a central point and was soon called to the bridge by Lt. Com. Doir C. Johnson to assist the mortally wounded ship's captain Mervyn Bennion. Miller then joined two others in loading and firing an unmanned anti-aircraft machine gun, a weapon that, as an African American in a segregated military, Miller had not been trained to operate. But he did fire the weapon on attacking Japanese aircraft until the .50-caliber gun ran out of ammunition. For these actions, Miller was later awarded the Navy Cross, the third highest naval award for combat gallantry. Historians Thomas W. Cutrer and T. Michael Parrish have not only painstakingly reconstructed Miller's inspiring actions on December 7, they also offer for the first time a full biography of Miller placed in the larger context of African American service in the United States military and

the beginnings of the civil rights movement Like so many sailors and soldiers in World War II Doris Miller s life was cut short Just two years after the attack on Pearl Harbor Miller was aboard the USS Liscome Bay when it was sunk by a Japanese submarine But the name and symbolic image of Dorie Miller lived on As Cutrer and Parrish conclude Dorie Miller s actions at Pearl Harbor and the legend that they engendered were directly responsible for helping to roll back the navy s then to fore unrelenting policy of racial segregation and prejudice and in the chain of events helped to launch the civil rights movement of the 1960s that brought an end to the worst of America s racial intolerance The Korean War Keith D.

historical societies and museums **Proud Warriors** Alexander M. Bielakowski, 2021-11-15 During World War II tens of thousands of African Americans served in segregated combat units in U S armed forces The majority of these units were found in the U S Army and African Americans served in every one of the combat arms They found opportunities for leadership unparalleled in the rest of American society at the time Several reached the field grade officer ranks and one officer reached the rank of brigadier general Beyond the Army the Marine Corps refused to enlist African Americans until ordered to do so by the president in June 1942 and two African American combat units were formed and did see service during the war While the U S Navy initially resisted extending the role of African American sailors beyond kitchens eventually the crew of two ships was composed exclusively of African Americans The Coast Guard became the first service to integrate initially with two shipboard experiments and then with the integration of most of their fleet Finally the famous Tuskegee airmen are covered in the chapter on air warfare Proud Warriors makes the case that the wartime experiences of combat units such as the Tank Battalions and the Tuskegee Airmen ultimately convinced President Truman to desegregate the military without which the progress of the Civil Rights Movement might also have been delayed **Power at Sea** Lisle A. Rose, 2007 Volume 1 Traces the social issues technological advances and combative encounters of the international naval race from 1890 through WWI as the largest industrial nations U S Great Britain Japan and Germany scrambled to secure global markets and empire using their battleship navies as pawns of power politics Provided by publisher *Rise to Command* Isaac W. Hampton II, 2025-07-15 Rise to Command is a social history told in the words of twenty Black military officers who grew up in the Jim Crow era and served in the US military The officers speak candidly about their careers and struggles and the important lessons they learned from their communities which helped them succeed Black Americans in the armed forces fought on two fronts one against America s external adversaries on the battlefield and the other against racial discrimination and segregation within military culture and American society The officers discuss living through segregation the civil rights movement and the Black Power movement These torchbearers speak frankly about the racially biased officer evaluation system gender discrimination and how they survived and thrived despite systemic obstacles Rise to Command examines the evolution of policies and cultural dynamics within the US military with a critical focus on the complexities of racial integration and equity It not only traces the history of change but also underscores the persistent challenges that continue to shape the experiences of service members Through the memories of Black officers Rise to Command provides a vital perspective on the struggle for inclusivity and justice within one of America s most enduring institutions The many perspectives from across the wars of the twentieth century highlight the progress these soldiers fought for from total segregation during World War II to the deployment of America s first racially integrated military force during the Vietnam War Although these officers may not have known it they were blazing the trail for the next generation of Black Americans in and out of military service
