Patti, 2016-06-30 The Multilingual Screen is the first edited volume to offer a wide ranging exploration of the place of multilingualism in cinema investigating the ways in which linguistic difference and exchange have shaped and continue to shape the medium's history Moving across a vast array of geographical historical and theoretical contexts from Japanese colonial filmmaking to the French New Wave to contemporary artists moving image the essays collected here address the aesthetic political and industrial significance of multilingualism in film production and reception In grouping these works together The Multilingual Screen discerns and emphasizes the areas of study most crucial to forging a renewed understanding of the relationship between cinema and language diversity In particular it reassesses the methodologies and frameworks that have influenced the study of filmic multilingualism to propose that its force is also and perhaps counterintuitively a silent one While most studies of the subject have explored linguistic difference as a largely audible phenomenon manifested through polyglot dialogues or through the translation of monolingual dialogues for international audiences The Multilingual Screen traces some of its unheard histories contributing to a new field of inquiry based on an attentiveness to multilingualism's work beyond the soundtrack *Reframing Bodies* Roger Hallas, 2009-12-02 Examines how queer filmmakers and videographers bore witness to the historical trauma of the AIDS epidemic in the late 1980s and 1990s
