The Multi-age Learning Community in Action Barbara Cozza,2017-09-18 As schools struggle to teach all students the multi age teaching and learning framework has emerged as one of today s most effective ways to structure schools Multi age Learning Community MAC Program is a professional development program in action It presents a framework that can transform schools from a graded system to a multi age learning environment This multi age school targets students individual and personal needs and allows students to excel and succeed The school reform climate today focuses on schools of choice and building effective school environments This multi age program creates a unique school niche that is marketable to families Parents have the option of sending their children to schools that concentrate on achievement that best meets the needs of the

learner without disrupting the mandates of the curricula This book is intended to assist educators at all levels of all school organizations as well as give policymakers educators and parents the information on an effective school program This book gives information on how to transform schools into multi age classrooms This book is divided into four parts that explain both the theory and the practice of effective strategies for the multi age school program Organizational Practice Building Culture Learning Processes and Assessment and Systemic Improvement There are specific basic principles and practices that are integrated into a quality and effective framework discussed in the chapters of this book Each chapter begins with a vignette based on my experiences in multiage schools and concludes with an educator s reflection to recap the concepts in the chapter Each chapter also integrates snapshots that are short real to life passages that bring to life concepts discussed in the chapter Although this book discusses multi age schools these ideas may be applied to all school environments To accommodate all school programs at the end of each chapter a section titled Application for All Schools is a framework that discusses just how to apply chapter concepts in any school or classroom program It is recommended that the reader review the book one time in sequence and then reread each chapter as needed to give meaning to the reader s purpose

Institutionalizing Health and Education for All Colette Chabbott, 2015-04-28 Health for All and Education for All have been rallying cries for a host of international development activities for more than a quarter century Where did these global goals come from Why have the health goals seemingly advanced so much faster than those in education In this book author Colette Chabbott explores the foundational role that international development organizations and the innovations they champion have played in shaping and advancing such goals Chabbott demonstrates the importance of science and measurement in rendering some innovations more universal and compelling than others Her analysis includes in depth case studies of innovations developed at the grassroots and scaled up at the national and international levels by the International Center for Diarrheal Disease Research and by BRAC once a Bangladeshi now a major international NGO These studies all suggest that greater investment in new types of education research based in the Third World but with strong ties to research centers of international scope in the First World are likely the prerequisites for achieving better cheaper faster universal education This important book will provoke scholars students and international development practitioners to think more deeply about the cultural and scientific underpinnings of education and international development The author s careful analyses are particularly needed as the international community defines new global goals for the post 2015 era Book Features Introduces the key international organizations and movements in the field of education for development Provides a unique interpretation of the many tensions that characterize the field government vs non government organizations institutions vs actors and loose coupling between policies and action Addresses the current debate about research methods in education including quantitative indicators randomized controlled trials and case studies Identifies new activities and potential directions related to the global goals phenomenon This is that rare book one that is grounded in decades of policy

experiences in the international development field yet is also theoretically motivated From the Foreword by Francisco O Ramirez Colette Chabbott brings years of development experience and exacting sociological analysis to challenge status quo understandings about the world development enterprise in this unique ambitious and important book David P Baker professor of education and sociology Penn State University and author of The Schooled Society In a masterful review of more than 50 years of global interventions aimed at achieving Education and Health for All Chabbott utilizes the best in institutional theory and comparative analysis to provide a thought provoking account of the organizational and institutional dynamics that structure shape and limit our ability to achieve some of the world s most compelling goals Karen Mundy president Comparative and International Education Society
