Metamorphosis The Transfiguration In Byzantine Theology And Iconography:

Metamorphosis Andreas Andreopoulos, 2005 This book taps the vein of the blending of theology and art in the Middle Ages in particular the evolution of the imagery and theology surrounding the Transfiguration Of Christ In this well researched volume Andreas Andreopoulos discusses in detail every philosophical and ritual application of the Transfiguration icon the mountain the cloud the mandorla the positioning of the apostles the Old Testament prophets and the image of Christ himself taking the reader through an illustrated historical journey The author simplifies the complex relationship between the dogma of the church fathers and Byzantine art and makes it understandable to a non specialist audience Nevertheless theologians historians and art historians alike will appreciate the interdisciplinary value of this clearly presented documentation Andreopoulos s expert use of patristic texts and Jewish sources as well as the New Testament and apocryphal writings and pagan sources elucidates the development of art and doctrine that surround this scriptural epiphany BOOK

JACKET Patristic Perspectives on Luke's Transfiguration Peter Anthony, 2022-03-24 Peter Anthony explores how visionary elements in Luke s Gospel had a particular influence on early interpretation of the Transfiguration by examining the rich hermeneutical traditions that emerged particularly in the Latin West as the Transfiguration was first depicted visually in art Anthony begins by comparing the visual and visionary culture of antiquity with that of the present and their differing interpretations of the Transfiguration He then examines the Transfiguration texts in the synoptic gospels and their interpretation in modern scholarship and the reception of the Transfiguration in 2 Peter the Apocalypse of Peter and the Acts of Peter Tertullian and Origen Proceeding to look at interpretations found in the Greek East and the Latin West Anthony finally discusses the earliest visual depictions of the Transfiguration from the sixth century onward drawn from a wealth of different art forms Anthony concludes that early commentators and artists understanding of how we see and visualise and therefore how the Transfiguration was apprehended is closer to that of the writers of the New Testament than many modern interpreters is

The Transfiguration of Christ and Creation John Gatta, 2011-01-01 The biblical story of Jesus Transfiguration on a high mountain bristles with meanings germane to present day concerns and spiritual longings Together with its later artistic representations this episode from the synoptic gospels seizes the imagination as an icon of mystical hope beauty and possibility What might such an iconic episode long honored liturgically in the Eastern church disclose not only about Jesus but also about the prospect of seeing our human nature transformed And as interpreted by Christian tradition since the patristic era what might it tell us about the worth of envisioning not just a conservation or preservation of natural resources but a transfiguration of all creation and about how this feast of beauty could re energize current discussions of Christianity s relation to environmental attitudes and policy Such questions are addressed in this book through an original blend of personal reflection with commentary on relevant theological and scriptural texts literary works music and art

Triune God Constantinos Athanasopoulos, 2016-01-14 The 13th and 14th centuries represented the most

productive and influential period in the history of philosophy and theology in the West A parallel and less influential for the West proliferation of arguments and theories took place in the East at the same time as a result of the defence of the Hesychastic movement offered by St Gregory Palamas and his followers The papers brought together in this volume discuss the importance of Palamite ideas for the understanding of God in terms of divine energies and for contemporary approaches to solving perennial problems in science metaphysics aesthetics and ethics Some of the contributors take a more reserved evaluation of the Palamite corpus preferring to highlight similarities and differences between Palamas and the chief representatives of Medieval Scholasticism such as Thomas Aquinas Duns Scotus and Ockham Other essays offer a radical re evaluation of the Western history of philosophy and theology preferring to bring out the reasons for Western philosophical and theological shortcomings and providing a wider critique on Western culture Contributors to this volume include some of the top scholars on Palamite studies from the fields of philosophy theology aesthetics cultural criticism and art theory As such it represents a particularly useful resource for advanced undergraduate students postgraduate students and researchers in Christian theology and philosophy Byzantine cultural studies and aesthetics

Encountering Others, Understanding Ourselves in Medieval and Early Modern Thought Nicolas Faucher, Virpi Mäkinen, 2022-12-05 Recent research has challenged our view of the Abrahamic religious traditions as unilaterally intolerant and incapable of recognizing otherness in all its diversity and richness but a diachronic and comparative study of how these traditions deal with otherness is yet to appear This volume aims to contribute to such a study by presenting different treatments of otherness in medieval and early modern thought Part I Altruism deals with attitudes and behaviors that benefit others regardless of its motives We deal with the social rights and emotions as well as the moral obligations that the very existence of other human beings whatever their characteristics creates for a community Part II Religious recognition and toleration considers identity toleration and mutual recognition created by the existence of religious or ethnic otherness in a given social religious or political community Part III Evil deals with religious otherness that is considered evil and rejected such as heretics and malevolent demonic entities The volume will ultimately inform the reader on the nature of religious toleration including beliefs and doctrines even emotions as well as of the self definition of religious communities when encountering and defining otherness in different ways

2005 Massimo Mastrogregori, 2009-12-22 Annually published since 1930 the International Bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The IBOHS is thus currently the only continuous bibliography of its kind covering such a broad period of time spectrum of subjects and geographical range The works are arranged systematically according to period region or historical discipline and alphabetically according to authors names or in the case of anonymous works by the characteristic main title word The bibliography contains a geographical index and indexes of persons and authors
