Methodology Field Work:

Methodologies in Semantic Fieldwork M. Ryan Bochnak, Lisa Matthewson, 2015-01-02 This volume discusses methodological issues in conducting elicitation on semantic topics in a fieldwork situation In twelve chapters discussing 11 language families from four continents authors draw on their own fieldwork experience pairing explicit methodological proposals with concrete examples of their use in the field Several chapters cover issues specific to semantic topics such as modality comparison tense and aspect and definiteness while others focus on elicitation techniques more generally addressing methodological issues such as the creation of elicitation plans the choice of language in which to conduct elicitation and the status of translation tasks Together the chapters of this volume demonstrate that elicitation on semantic topics when conducted following sound methodologies can and does produce reliable results Given the high number of languages currently classified as endangered conducting one on one fieldwork with native speaker consultants is critical for gathering new empirical findings that bear on linguistic theory

Identity, Agency and Fieldwork Methodologies in Risky Environments Monique Marks, Julten Abdelhalim, 2020-06-29 Bringing together a unique set of narratives from social scientists who have been situated in risky environments this volume discusses the moral and ethical dilemmas of doing fieldwork in environments that are characterised by insecurity These narratives are situated in the Global South and the majority of the authors are themselves from the Global South bringing both authenticity and originality to the scholarship in this book Coming from the Global South can both facilitate and complicate navigating the complexity of doing research in places characterised by precariousness The authors demonstrate how the morality of the moment and indigenous sensibility is often more pertinent than formal ethical considerations as stipulated by universities and other institutions The authors are refreshingly honest about their own identity dilemmas their choices to exit the field prematurely and the raw emotions that emerged in the process of doing fieldwork in these settings This book is likely to be instructive to young researchers entering into fields that are risky often with little instruction or supervision prior to doing so It is also an excellent resource for more seasoned researchers who might have had comparable experiences and are keen to reflect on such research journeys It will be an invaluable resource for teaching qualitative research across a wide spectrum of disciplines This book was originally published as a special issue of Contemporary Social Science

Anthropological Research Methodology Gaya Pandey, 2018-01-01 The book entitled Anthropological Research Methodology Theory and Practice is an attempt to present different aspects of anthropological researches within one cover to extend help to students scholars and researchers in understanding the whole issue of research methodology taught and employed in anthropology Anthropological Research Methodology has its own feature That is why its methodology is quite different from the methodology of other social sciences The ethnographic method or fieldwork method is soul of Anthropology This method helps a researcher to establish a balance between subjectivity and objectivity There are a number of books written in English by different scholars on different aspects

of Anthropological researches But they are not found in one cover and they lack Indian expression The book presents systematically chapters on Historical Background of Anthropological Researches Anthropological Approaches Types of Researches Research Designs Hypothesis Theory Law and Concept Techniques of Data Collection Scrutiny and Data Processing Presentation of Data Statistics Statistical Analyses of Mean Median Mode Standard Deviation Partition Value Correlation Chi square Fitness of good Report writing Thesis dissertation writing Scientific paper writing and Bibliography writing The simple language of the book will definitely serve the purpose of students scholars researchers interested not only in Anthropological Researches but Researches in other Social Sciences **Longitudinal Field Research Methods** George P. Huber, Andrew van de Ven, 1995-08-02 Eleven papers some of which have appeared previously as contributions to the journal *Organizational Science* emphasize a range of methodological issues involved in longitudinal field research including ethnographic methods longitudinal and comparative case studies event history analysis and real time tracking of events as well as procedural *Handbook of Descriptive Linguistic Fieldwork* Shobhana L. Chelliah, Willem J. de Reuse, 2010-10-06 The *Handbook of Descriptive Linguistic Fieldwork* is the most comprehensive reference on linguistic fieldwork on the market bringing together all the reader needs to carry out successful linguistic fieldwork Based on the experiences of two veteran linguistic fieldworkers and advice from more than a twenty active fieldwork researchers this handbook provides an encyclopedic review of current publications on linguistic fieldwork and surveys past and present approaches and solutions to problems in the field and the historical political and social variables correlating with fieldwork in different areas of the world The discussion of the ethical dimensions of fieldwork as well as what constitutes the typical linguistic fieldwork setting or consultant is explored from multiple perspectives relevant to fieldwork on every continent Included is information omitted in most other texts on the subject such as the collection representation management and methods of extracting grammatical information from discourse and conversational data as well as the relationship between questionnaire based elicitation text based elicitation and philology and the need for combinations of these methods The book is useful before during and after linguistic field trips since it provides extensive practical macro and micro organization and planning fieldwork tips as well as a handy sketch of major typological features for use in linguistic analysis Comprehensive references are provided at the end of each chapter as resources relevant to the reader's particular interests Contemporary Oral Literature Fieldwork Wasamba, Peter, 2015-10-19 *Contemporary Oral Literature Fieldwork* is based on rich research experience dating back to the 1990s The book is written against the backdrop of Africa's confusion with regard to the place of oral literature in the face of the rest of the world where oral literature exists in conjunction with new literary forms Wasamba argues that the oral and the written literatures are complementary literary forms Throughout the work the author underscores the universal dimension of oral literature as he demonstrates its particular attributes **International Handbook of Research Methods And Statistics (Volume 2)** Urfat Anjem Mir, Sonam Joldan, Vinay Kumar, Sonia Saini, The International Handbook of Research
