The Routledge Handbook of Research Methods in Spirituality and Contemplative Studies Bernadette Flanagan, Kerri Clough, 2024-09-03 The Routledge Handbook of Research Methods in Spirituality and Contemplative Studies provides the first authoritative overview of methodology in this growing field Against the background of the pandemic and other global challenges spirituality is expanding as an agreed term with which to discuss the efforts people make to be fully present to deeper invisible dimensions of their personal identity and external reality but until now there have been few resources exploring the different methodological approaches researchers take This book explores the primary methodologies emerging First Person Second Person and Third Person and provides a systematisation of spirituality research in applied contexts for the first time Comprising 33 chapters by a team of international contributors the book is divided into seven parts Foundations Approaches to Contemplative Research Contemplative Research in Education Contemplative Research in Work and Leadership Contemplative Research in Science Health and Healing Contemplative Research in Social Sciences Contemplative Research and the Way Forward The Handbook provides readers practitioners and policymakers with methods and approaches which can facilitate a spiritual and contemplative stance in research activities It is an essential resource for researchers and students of Religion Spirituality and Research Methods *A Fractal Epistemology for a Scientific Psychology* Terry Marks-Tarlow, Yakov Shapiro, Kathe P. Wolf, Harris L. Friedman, 2020-01-06 Fractal dynamics provide an unparalleled tool for understanding the evolution of natural complexity throughout physical biological and psychological realms This book's conceptual framework helps to reconcile several persistent dichotomies in the natural sciences including mind brain linear nonlinear subjective objective and even personal transpersonal processes A fractal approach is especially useful when applied to recursive processes of consciousness both within their ordinary and anomalous manifestations This novel way to study the interconnection of seemingly divided wholes encompasses multiple dimensions of experience and

being It brings together experts in diverse fields neuropsychologists psychiatrists physicists physiologists psychoanalysts mathematicians and professors of religion and music composition to demonstrate the value of fractals as model method and metaphor within psychology and related social and physical sciences The result is a new perspective for understanding what has often been dismissed as too subjective idiosyncratic and ineffably beyond the scope of science bringing these areas back into a natural scientific framework The SAGE Handbook of Qualitative Research Design Uwe Flick,2022-03-17 Qualitative research design is continually evolving It is not only more established in disciplines beyond the traditional social sciences in which it is a standard choice but also just as impacted by the changes in what data technologies and approaches researchers are using This Handbook takes readers through the foundational theories functions strategies and approaches to qualitative research design before showcasing how it negotiates different data and research environments and produces credible actionable impact beyond the study Containing contributions from over 90 top scholars from a range of social science disciplines this Handbook is not just an anthology of different qualitative research designs and how when to use them it is a complete exploration of how and why these designs are shaped and how why and into what they are evolving This is a valuable resource for Master s and PhD level students faculty members and researchers across a wide range of disciplines such as health nursing psychology social work sociology and education Volume One Part I Concepts of Designing Designs in Qualitative Research Part 2 Theories and Epistemological Contexts of Designing Qualitative Research Part 3 Elements of Designing Qualitative Research Part 4 Basic Designs and Research Strategies in Qualitative Research Part 5 Mixing Methods in Designing Qualitative Research Volume Two Part 6 Designing Qualitative Research for Specific Kinds of Data Part 7 Designing Qualitative Online and Multimodal Research Part 8 Designing Qualitative Research for Specific Groups and Areas Part 9 Designing Qualitative Research in Disciplinary Fields Part 10 Designing Qualitative Research for Impact
