Reclaiming Authorship Susan S. Williams, 2013-06-15 There was in the nineteenth century a distinction made between writers and authors Susan S Williams notes the former defined as those who composed primarily from mere experience or observation rather than from the unique genius or imagination of the latter If women were more often cast as writers than authors by the literary establishment there also emerged in magazines advice books fictional accounts and letters a specific model of female authorship one that valorized natural feminine traits such as observation and emphasis on detail while also representing the distance between amateur writing and professional authorship Attending to biographical and cultural contexts and offering fresh readings of literary works Reclaiming Authorship focuses on the complex ways writers such as Maria S Cummins Louisa May Alcott Elizabeth Keckley Mary Abigail Dodge Elizabeth Stuart Phelps and Constance Fenimore Woolson put this model of female authorship into practice Williams shows how it sometimes intersected with prevailing notions of male authorship and sometimes diverged from them and how it is often precisely those moments of divergence when authorship was reclaimed by women The current trend to examine women writers rather than authors marks a full rotation of the circle and writers can indeed be the more capacious term embracing producers of everything from letters and diaries to published books Yet certain nineteenth century women made particular efforts to claim the title author Williams demonstrates and we miss something of significance by ignoring their efforts Women and Power in Argentine Literature Gwendolyn Díaz, 2010-01-01 The astonishing talent of Argentine women writers belies the struggles they have faced not merely as overlooked authors but as women of conviction facing oppression The patriarchal pressures of the Per n years the

terror of the Dirty War and more recently the economic collapse that gripped the nation in 2001 created such repressive conditions that some writers such as Luisa Valenzuela left the country for long periods. Not surprisingly, power has become an inescapable theme in Argentine women's fiction, and this collection shows how the dynamics of power capture not only the political world but also the personal one. Whether their characters are politicians and peasants, torturers and victims, parents and children or lovers, male and female, each writer explores the effects of power as it is exercised by or against women. The fifteen writers chosen for *Women and Power in Argentine Literature* include famous names such as Valenzuela as well as authors anthologized for the first time, most notably María Kodama, widow of Jorge Luis Borges. Each chapter begins with a verbal portrait, editor Gwendolyn D'Avanzo's personal impression of the author at ease, formed through hours of conversation and interviews. A biographical essay and critical commentary follow, with emphasis on the work included in this anthology. D'Avanzo's interviews, translated from Spanish, and finally the stories themselves, only three of which have been previously published in English, complete the chapters. The extraordinary depth of these chapters reflects the nuanced, often controversial portrayals of power observed by Argentine women writers. Inspiring as well as insightful, *Women and Power in Argentine Literature* is ultimately about women who in D'Avanzo's words choose to speak their truth regardless of the consequences. **Women**

Writers and the Artifacts of Celebrity in the Long Nineteenth Century Maura Ives, Ann R. Hawkins, 2016-12-05. In 1788 the *Catalogue of Five Hundred Celebrated Authors of Great Britain* now living forecast a form of authorship that rested on biographical revelation and media saturation as well as literary achievement. This collection traces the unique experiences of women writers within a celebrity culture that was intimately connected to the expansion of print technology and of visual and material culture in the nineteenth century. The contributors examine a wide range of artifacts, including prefaces, portraits, frontispieces, birthday books, calendars, and gossip columns, to consider the nature of women's celebrity and the forces that created it. How did authors like Jane Austen, the Countess of Blessington, Louisa May Alcott, Alice Meynell, and Marie Corelli negotiate the increasing demands for public revelation of the private self? How did gender shape the posthumous participation of women writers such as Jane Austen, Ellen Wood, Mary Elizabeth Braddon, and Christina Rossetti in celebrity culture? These and other important questions related to the treatment of women in celebrity genres and media, and the strategies women writers used to control their public images, are taken up in this suggestive exploration of how nineteenth and early twentieth-century women writers achieved popular, critical, and commercial success. **Alternative Alcott** Louisa May Alcott, 1988. The discovery in recent years of Louisa May Alcott's pseudonymous sensation stories has made readers and scholars increasingly aware of her accomplishments beyond her most famous novel, *Little Women*, one of the great international best sellers of all time. This anthology brings together for the first time a variety of Louisa May Alcott's journalistic, satiric, feminist, and sensation texts. Elaine Showalter has provided an excellent introduction and notes to the collection. *A Cultural Approach to Emotional Disorders* E. Deidre Pribram, 2016-01-13. In her latest contribution to the

growing field of emotion studies Deidre Pribram makes a compelling argument for why culturalist approaches to the study of emotional disorders continue to be eschewed even as the sociocultural and historical study of mental illness flourishes The author ties this phenomenon to a tension between two fundamentally different approaches to emotion an individualist approach which regards emotions as the property of the individual whether biologically or psychologically and a culturalist approach which regards emotions as collective social processes with distinctive histories and meanings that work to produce particularized subjects While she links a strong preference for the individualist construct in Western culture to the rise of the psychological and psychiatric disciplines at the turn of the twentieth century Pribram also engages with a diverse set of case studies tied to psychological and aesthetic discourses on emotions These range from Van Gogh's status as emotionally disordered to the public emotional aesthetics of 19th century melodrama to the diagnostic categories of the DSMs and the fear of globalizing emotional disorders in the 21st century This genuinely interdisciplinary approach makes for a text with potential application in a wide range of disciplines within cultural studies including sociocultural and historical analysis of psychiatry and psychology gender theory subject and identity theory popular culture studies and history and theory of the arts
