Negro Spirituals Et Les Gospel Songs:

Historic Negro Spirituals as Biblical Interpretation Christa Klingbeil Dixon, 2024-12-15 Dr Christa K Dixon 1935 2003 grew up during the time of World War 2 where her father a German Confessing Church pastor regularly visited American POW camps and young Christa heard African American soldiers singing spirituals Her fascination grew but Dixon's interests became quite focused on her interest in how the famous spirituals interpreted the Bible In the mid 1960s Dr Dixon earned her PhD working on Negro Spirituals in Germany and published the text that formed from her years of research and long lasting passion for the spirituals she heard during her visits to the prisoner camps with her father A work of careful analysis and scholarship Dixon's study has since been out of print but now newly translated and presented for an audience to rediscover In John Lovell's important 1972 monograph *Black Song The Forge and Flame* he wrote Perhaps the most intensive study of Biblical influences in the spiritual is found in Christa Dixon's *Wesen und Wandel geistlicher Volkslieder Negro Spirituals* her analyses are not only deeply intensive but quite creative In this book Drs Kim R Harris and Daniel L Smith Christopher provide not only a translation of the published German work but also contribute two new essays to accompany this timeless study as both modern critique and long overdue appreciation Encyclopedia of American Gospel Music W. K. McNeil, 2013-10-18 The Encyclopedia of American Gospel Music is the first comprehensive reference to cover this important American musical form Coverage includes all aspects of both African American and white gospel from history and performers to recording techniques and styles as well as the influence of gospel on different musical genres and cultural trends

Let the Church Sing! Thérèse Smith, 2004 An examination of worldviews religious belief and ritual as seen through the musical performances of one Afro American Baptist church in a small black community in rural Mississippi *Let the Church Sing Music and Worship in a Black Mississippi Community* is based on years of fieldwork by an Irish ethnomusicologist who examines in more detail than ever before how various facets of the Clear Creek citizens worldview find expression through religious ritual and music Th r se Smith though originally very much an outsider gradually found herself welcomed into Clear Creek by members and officials of the Clear Creek Missionary Baptist Church She was permitted to record many hours worth of sermons and singing and engaged in community events as a participant observer In addition

she conducted plentiful interviews not just at Clear Creek but for comparison at Main St Baptist Church in Lexington Kentucky All of this enables her to analyze in detail how music is interwoven in the worship service how people feel about the music that they make and hear and more generally how the religious views so vividly expressed help the Church's members think about the relationship between themselves their community and the larger world Music and prayer enable the members and leaders of the Church to bring the realm of the spiritual into intersection with the material world in a particularly active way The book is enriched by extensive musical transcriptions and an accompanying CD of recordings from actual church services and these are examined in detail in the book itself Th r se Smith is in the Music Department University College Dublin

African Americans and the Bible Vincent L. Wimbush,2012-09-01 Perhaps no other group of people has been as much formed by biblical texts and tropes as African Americans From literature and the arts to popular culture and everyday life the Bible courses through black society and culture like blood through veins Despite the enormous recent interest in African American religion relatively little attention has been paid to the diversity of ways in which African Americans have utilized the Bible African Americans and the Bible is the fruit of a four year collaborative research project directed by Vincent L Wimbush and funded by the Lilly Endowment It brings together scholars and experts sixty eight in all from a wide range of academic and artistic fields and disciplines including ethnography cultural history and biblical studies as well as art music film dance drama and literature The focus is on the interaction between the people known as African Americans and that complex of visions rhetorics and ideologies known as the Bible As such the book is less about the meaning's of the Bible than about the Bible and meaning's less about the world's of the Bible than about how worlds and the Bible interact in short about how a text constructs a people and a people constructs a text It is about a particular sociocultural formation but also about the dynamics that obtain in the interrelation between any group of people and sacred texts in general Thus African Americans and the Bible provides an exemplum of sociocultural formation and a critical lens through which the process of sociocultural formation can be viewed

Sacred Mission, Worldly Ambition Adele Oltman,2010-01-25 Using Savannah Georgia as a case study Sacred Mission Worldly Ambition tells the story of the rise and decline of Black Christian Nationalism This nationalism emerged from the experiences of segregation as an intersection between the sacred world of religion and church and the secular world of business The premise of Black Christian Nationalism was a belief in a dual understanding of redemption at the same time earthly and otherworldly and the conviction that black Christians once delivered from psychic spiritual and material want would release all of America from the suffering that prevented it from achieving its noble ideals The study s use of local sources in Savannah especially behind the scenes church records provides a rare glimpse into church life and ritual depicting scenes never before described Blending history ethnography and Geertzian dramaturgy it traces the evolution of black southern society from a communitarian nationalist system of hierarchy patriarchy and interclass fellowship to an individualistic one that accompanied the appearance of a new black civil society Although not a study of the civil rights movement Sacred Mission Worldly Ambition advances a bold revisionist interpretation of black religion at the eve of the movement It shows that the institutional primacy of the churches had to give way to a more diversified secular sphere before an overtly politicized struggle for freedom could take place The unambiguously political movement of the 1950s and 1960s that drew on black Christianity and radiated from many black churches was possible only when the churches came to exert less control over members quotidian lives A Sarah Mills Hodge Fund Publication

Gerhard Kubik, 2009-09-23 In 1969 Gerhard Kubik chanced to encounter a Mozambican labor migrant a miner in Transvaal South Africa tapping a cipendani a mouth resonated musical bow A comparable instrument was seen in the hands of a white Appalachian musician who claimed it as part of his own cultural heritage Through connections like these Kubik realized that the link between these two far flung musicians is African American music the sound that became the blues Such discoveries reveal a narrative of music evolution for Kubik a cultural anthropologist and ethnomusicologist Traveling in Africa Brazil Venezuela and the United States he spent forty years in the field gathering the material for Africa and the Blues In this book Kubik relentlessly traces the remote genealogies of African cultural music through eighteen African nations especially in the Western and Central Sudanic Belt Included is a comprehensive map of this cradle of the blues along with 31 photographs gathered in his fieldwork The author also adds clear musical notations and descriptions of both African and African American traditions and practices and calls into question the many assumptions about which elements of the blues were European in origin and about which came from Africa Unique to this book is Kubik's insight into the ways present day African musicians have adopted and enlivened the blues with their own traditions With scholarly care but with an ease for the general reader Kubik proposes an entirely new theory on blue notes and their origins Tracing what musical traits came from Africa and what mutations and mergers occurred in the Americas he shows that the African American tradition we call the blues is truly a musical phenomenon belonging to the African cultural world **Hearings, Reports, Public Laws** United States.
