Douglas Hurt,2003 During the first half of the twentieth century degradation poverty and hopelessness were commonplace for African Americans who lived in the South s countryside either on farms or in rural communities Many southern blacks sought relief from these conditions by migrating to urban centers Many others however continued to live in rural areas Scholars of African American rural history in the South have been concerned primarily with the experience of blacks as sharecroppers tenant farmers textile workers and miners Less attention has been given to other aspects of the rural African American experience during the early twentieth century African American Life in the Rural South 1900 1950 provides important new information about African American culture social life and religion as well as economics federal policy migration and civil rights The essays particularly emphasize the efforts of African Americans to negotiate the white world in the southern countryside Filling a void in southern studies this outstanding collection provides a substantive overview of the subject Scholars students and teachers of African American southern agricultural and rural history will find this work invaluable **African American Life in South Carolina's Upper Piedmont, 1780-1900** W. J.

Megginson,2022-08-03 A rich portrait of Black life in South Carolina s Upstate Encyclopedic in scope yet intimate in detail

African American Life in South Carolina's Upper Piedmont 1780-1900 delves into the richness of community life in a setting where Black residents were relatively few, notably disadvantaged but remarkably cohesive. W. J. Megginson shifts the conventional study of African Americans in South Carolina from the much-examined Lowcountry to a part of the state that offered a quite different existence for people of color. In Anderson, Oconee, and Pickens counties, occupying the state's northwest corner, he finds an independent, brave, and stable subculture that persevered for more than a century in the face of political and economic inequities. Drawing on little-used state and county denominational records, privately held research materials, and sources available only in local repositories, Megginson brings to life African American society before, during, and after the Civil War. Orville Vernon Burton, Judge Matthew J. Perry Jr. Distinguished Professor of History at Clemson University and University Distinguished Teacher Scholar Emeritus at the University of Illinois, provides a new foreword.
