Perspectives on Academic Writing Alice Calderonello, Donna Nelson-Beene, Sue Carter Simmons, 1996-08-01 *New Perspectives on Academic Writing* Bernd Herzogenrath, 2022-11-17 Particularly for the disciplines of the humanities and social sciences for which writing is their lifeblood the crisis in academic writing has become existential It is not hard to diagnose the disease and its causes This book showcases what we desperately need radical alternatives experiments we can try out ways of writing that don't just tweak the system but plot a different course altogether This isn't just about finding new genres for these only change the surface appearance without altering the underlying dynamic Rather the editor and contributors focus on finding new ways to join thinking both with writing and the things of which and with which we write Each chapter brims with the kind of liveliness outspokenness and urgency that their theme demands Far from tiptoeing around the edifice of academia they are intent on stirring things up reigniting their scholarship with a fuse of activism in the hope of setting off an explosion that could send ripples throughout the academy College Academic Writing A Genre-Based Perspective Dr. I Wy. Dirgeyasa, M.Hum., 2017-01-02 The College Academic Writing A Genre Based Perspective course book is organized based on genre perspective It teaches and trains the students about the writing process and content writing It also guides them to identify to whom the writing is for what purpose it is and to what context it is used It is commonly understood that in teaching writing to students with low entry level of English proficiency there is always the risk of sacrificing creativity in order to achieve accuracy or vice versa College Academic Writing A Genre Based Perspective is designed to guide and help students about the process of writing and the product of the writing itself in such a way that the final work of writing is not only expressive and rich in content but also clear and accurate as well as relevant to their needs Buku persembahan penerbit Prenada Media Ethnographic Perspectives on Academic Writing Brian Paltridge, Sue Starfield, 2016-12-05 This book argues that adopting ethnographically oriented perspectives on research into academic writing is a valuable means of deepening understanding of the social influences on language use and individuals experiences in academic writing contexts helping to gain insider views of writers experiences writing practices and the contexts in which academic texts are produced and assessed Research Perspectives on English for Academic Purposes Matthew Peacock, John Flowerdew, 2001-03-15 This volume of specially commissioned articles examines theory and practice in EAP Academic Writing Development in Higher Education ,1999 *Writing and Learning in Cross-national Perspective* David Foster, 2017-10-03 Despite the increasingly global implications of conversations about writing and learning U S composition studies has devoted little attention to cross national perspectives on student writing and its roles in wider cultural contexts Caught up in our own concerns about how U S students make the transition as writers from secondary school to postsecondary education we often overlook the fact that students around the world are undergoing the same evolution How

do the students in China England France Germany Kenya or South Africa the educational systems represented in this collection write their way into the communities of their chosen disciplines How for instance do students whose mother tongue is not the language of instruction cope with the demands of academic and discipline specific writing And in what ways is U S students development as academic writers similar to or different from that of students in other countries With this collection editors David Foster and David R Russell broaden the discussion about the role of writing in various educational systems and cultures Students development as academic writers raises issues of student authorship and agency as well as larger issues of educational access institutional power relations system goals and students roles in society The contributors to this collection discuss selected writing purposes and forms characteristic of a specific national education system describe students agency as writers and identify contextual factors social economic linguistic cultural that shape institutional responses to writing development In discussions that bookend these studies of different educational structures the editors compare U S postsecondary writing practices and pedagogies with those in other national systems and suggest new perspectives for cross national study of learning writing issues important to all educational systems Given the worldwide increase in students entering higher education and the endless need for effective writing across disciplines and nations the insights offered here and the call for further studies are especially welcome and timely

A Multilingual Perspective on the Diversification of Academic Writing Verbra Frances Pfeiffer, 2024-11-01 This book presents an analysis derived from data collected across South Africa Brazil and Switzerland focusing on multilingual academic writing through translanguaging Exclusive to university students from these nations it examines the disparity between thinking in one language and writing in another Addressing the challenges faced by non native language writers it advocates for acknowledging student voices and identities in the decolonization of academic writing While briefly touching on code switching often deemed obsolete this book reframes it within the context of university level academic writing across the three countries Its primary objective is to illustrate how translanguaging along with voice and identity can be integrated into writing practices for non native language speakers Offering practical strategies for educators the research reveals student anxieties surrounding identity loss and voice neglect in academic settings Ultimately it suggests that accommodating multilingual students can alleviate their writing related stress fostering a more inclusive academic environment Professor Adelia Carstens commended the book for its valuable insights into translanguaging predicting a favorable reception worldwide

Handbook of Academic Integrity Sarah Elaine Eaton, 2023-12-04. The book brings together diverse views from around the world and provides a comprehensive overview of academic integrity and how to create the ethical academy. At the same time, the Handbook does not shy away from some of the vigorous debates in the field, such as the causes of academic integrity breaches. There has been an explosion of interest in academic integrity in the last 20-30 years. New technologies that have made it easier than ever for students to cut and paste, coupled with global media scandals of high-profile researchers behaving badly, have resulted in the perception that plagiarism is on the rise. This, in combination with the massification and commercialisation of higher education, has resulted in a burgeoning interest in the importance of academic integrity: how to safeguard it and how to address breaches appropriately. What may have seemed like a relatively easy topic to address—students copying sources without attribution—has in fact turned out to be a complex interdisciplinary field of research requiring contributions from linguists, psychologists, social scientists, anthropologists, teaching and learning specialists, mathematicians, accountants, medical doctors, lawyers and philosophers, to name just a few. Because of this broad interest and input, this handbook serves as the single authoritative reference work which brings together the vast, growing interdisciplinary and at times contradictory body of literature. For both established researchers/practitioners and those new to the field, this Handbook provides a one-stop shop as well as a launching pad for new explorations and discussions.
