Police Station Skills Practical Reference:

Police Station Skills for Legal Advisers Consultant Forensic Psychologist Eric Shepherd, Eric Shepherd, 2004-07-01 The third edition of *Police Station Skills for Legal Advisers* is an essential reference for those engaged in the active defence of clients in the police station. It is aimed at all legal advisers both solicitors and legal representatives whether seeking accreditation already accredited or responsible for supervising those seeking accreditation and for quality control of defence provided in the police station. The Accreditation Manual examines the defender role, introduces new and established practitioner tools and comprehensively addresses all the critical issues at each stage of skilled defence from the initial request to attend the police station including key consultations with the custody officer, the investigating officer, the client, the appropriate adult and the interpreter. It provides a unique insight into police investigation, custody processes and assessment by police staff and police surgeons, pre-interview disclosure and investigative interviewing. *Investigative Interviewing* Ray Bull, 2014-02-10 This edited volume reviews the latest research on investigative interviewing in order to provide insights on the psychological processes of the person being interviewed as well as to offer guidelines for conducting credible and useful interviews. Critical and controversial areas are highlighted eg false confessions, child interviewing in order to bring clarity to how these interrogations are to be conducted. Chapters focus on these areas to provide comprehensive views of theoretical evidence based background as well as practical considerations of interrogation settings and procedures. The contributors are internationally respected scholars in the field of psychology and law with particular expertise in the interviews that are critical to legal proceedings. And attention is given to the criminal justice system in international perspective. *A Textbook of General Practice Second Edition* Patrick White, Ann Wylie, 2004-04-30 Aimed at medical students and junior doctors. The learning style of the book is based on experiential and reflective principles in keeping with modern educative theory and practice. It addresses changes in the curriculum and provides guidance on practical skills, the theory of providing good medicine and the larger considerations of encouraging life long learning and professional development. This is a relatively new approach in line with the GMC's recommendations and the MRCGP exams. The new edition builds on the successful formula of the first by thoroughly reviewing and revising all content. Self assessment sections have been added to all chapters and a glossary of terms is included at the end of the book. Thinking discussion points have been extended and additional student quotes included. *Military Police Soldier's Manual, Skill Level 1 & 2* United States.
