Red Vienna Experiment In Working Class Culture 1919 1934:

Red Vienna Helmut Gruber,1991 From 1919 to 1934 the Socialist government in Vienna sought to create a comprehensive working class culture striving to provide a foretaste of the socialist utopia in the present In Red Vienna Gruber critically examines the impact of this experiment in all areas of life from massive public housing projects and health and education programs to socialist parades festivals and sporting events designed to create a new working class The Socialist program faced enormous obstacles arising from the exaggerated expectations of the socialist leaders and their conventional cultural vision from the resistance of workers and from the competition of commercial and mass culture Gruber then evaluates the limited and partial success of the Viennese model clearly the most comprehensive in the West and a democratic alternative to the Bolsheviks experiment in Soviet Russia to pose general questions about attempts to fashion culture from above

The Red Vienna Sourcebook Rob McFarland,Robert B. McFarland,Georg Spitaler,Ingo Zechner,2020 An encyclopedic selection of original documents from the Austrian capital s pathbreaking progressive interwar period translated and with contextualizing introductions and commentaries

Engineered to Sell Jan L. Logemann,2019-11-20 The mid twentieth century marketing world influenced nearly every aspect of American culture music literature politics economics consumerism race relations gender and more In Engineered to Sell Jan L Logemann traces the transnational careers of consumer engineers in advertising market research and commercial design who transformed capitalism from the 1930s through the 1960s He argues that the history of marketing consumer goods is not a story of American exceptionalism Instead the careers of immigrants point to the limits of the Americanization paradigm Logemann explains the rise of a dynamic world of goods and examines how and why consumer engineering was shaped by transatlantic exchanges From Austrian psychologists and little known social scientists to the illustrious Bauhaus artists the emigr s at the center of this story illustrate the vibrant cultural and commercial connections between metropolitan centers Vienna and New York Paris and Chicago Berlin and San Francisco By focusing on the transnational lives of emigr consumer researchers marketers and designers Engineered to Sell details the processes of cultural translation and adaptation that mark both the midcentury transformation of American marketing and the subsequent European shift to American consumer capitalism

Creating German Communism, 1890-1990 Eric D. Weitz,2021-04-13 Eric Weitz presents a social and political history of German communism from its beginnings at the end of the nineteenth

century to the collapse of the German Democratic Republic in 1990 In the first book in English or in German to explore this entire period Weitz describes the emergence of the Communist Party of Germany KPD against the background of Imperial and Weimar Germany and clearly explains how the legacy of these periods shaped the character of the GDR to the very end of its existence In Weimar Germany social democrats and Germany's old elites tried frantically to discipline a disordered society Their strategies drove communists out of the workplace and into the streets where the party gathered supporters in confrontations with the police fascist organizations and even socialists and employed workers In the streets the party forged a politics of display and spectacle which encouraged ideological pronouncements and harsh physical engagements rather than the mediation of practical political issues Male physical prowess came to be venerated as the ultimate revolutionary quality The KPD's gendered political culture then contributed to the intransigence that characterized the German Democratic Republic throughout its history The communist leaders of the GDR remained imprisoned in policies forged in the Weimar Republic and became tragically removed from the desires and interests of their own populace *Youth in Revolutionary Russia* Anne E. Gorsuch, 2000-10-22 What were the consequences if prerevolutionary and bourgeois culture and social relations could not be transformed into new socialist forms of behavior and belief [The Handbook of Communication History](#) Peter Simonson, 2013 The Handbook of Communication History addresses central ideas social practices and media of communication as they have developed across time cultures and world geographical regions It attends to both the varieties of communication in world history and the historical investigation of those forms in communication and media studies The Handbook editors view communication as encompassing patterns processes and performances of social interaction symbolic production material exchange institutional formation social praxis and discourse As such the history of communication cuts across social cultural intellectual political technological institutional and economic history The volume examines the history of communication history the history of ideas of communication the history of communication media and the history of the field of communication Readers will explore the history of the object under consideration relevant practices media and ideas review its manifestations in different regions and cultures comparative dimensions and orient toward current thinking and historical research on the topic current state of the field As a whole the volume gathers disparate strands of communication history into one volume offering an accessible and panoramic view of the development of communication over time and geographical places and providing a catalyst to further work in communication history [Philosophers on Education](#) Amelie Rorty, 2005-10-09 Philosophers on Education offers us the most comprehensive available history of philosopher's views and impacts on the directions of education As Amelie Rorty explains in describing a history of education we are essentially describing and gaining the clearest understanding of the issues that presently concern and divide us The essays in this stellar collection are written by some of the finest contemporary philosophers Those interested in history of philosophy epistemology moral psychology and education and political theory will find Philosophers on Education to be both an engaging

and fascinating read *The Third Reich's Elite Schools* Helen Roche, 2021 *The Third Reich's Elite Schools* tells the story of the Napolas Nazi Germany's most prominent training academies for the future elite This deeply researched study gives an in depth account of everyday life at the schools while also shedding fresh light on the political social and cultural history of the Nazi dictatorship *Paths out of the Apocalypse* Ota Konrád, Rudolf Kucera, 2022-05-09 *Paths out of the Apocalypse* uses violence as a prism through which to investigate the profound social cultural and political changes experienced by post Habsburg Central Europe during and immediately after the Great War It compares attitudes toward and experiences and practices of physical violence in the mostly Czech speaking territories of Bohemia and Moravia the German speaking territories that would constitute the Republic of Austria after 1918 and the mostly German speaking region of South Tyrol Based on research in national and local archives and copious secondary literature the study argues that in the context of total war physical violence became a predominant means of conceptualizing and expressing social political demands as well as a means of demarcating various notions of community and belonging The authors apply an interdisciplinary understanding of violence informed by sociological and psychological theories as well as by rigorous empirical historiographical approach First they examine the most severe kind of physical violence murder against the backdrop of shifting scientific and media discourses during the war and its immediate aftermath Second the authors use numerous cases of collective violence ranging from less serious everyday conflicts to massive hunger demonstrations and riots to unravel its language thus deciphering the attitudes and values shared among an ever growing group of perpetrators *Paths out of the Apocalypse* thus fundamentally rethinks some key topics currently debated in the scholarship on early twentieth century Central Europe the First World War violence nationalism and modern European comparative social and cultural history
