

Ways to Reduce Heating and Cooling Costs

Seal doors and windows

using caulk, weatherstripping and/or door sweeps. These are all relatively easy DIY projects, and supplies can be purchased at your local hardware store.

Keep doors and windows locked

at all times for a tighter seal to stop drafts and leaks.

Be mindful of the sunlight

and its ability to heat your house. Keep blinds and curtains open to allow the sun to heat your home, or close curtains to keep heat out.

Adjust your thermostat

a few degrees above or below your desired temperature (depending on the season) before you leave the house since no one will be home to enjoy the valuable AC or heat.

Keep up on HVAC maintenance

by signing up for the Jennings Rewards Club, which gets you two annual 15 point maintenance inspections with easy-to-understand reports and a whole house safety inspection.

Heat and cool the old fashioned way

by opening up the windows and enjoying the breeze when it's not too hot outside, or by starting a fire in your fireplace to get toasty in the winter.

Change your filters

roughly every three months for a more efficient furnace and air conditioner. Filters should be changed more frequently if you have pets or allergies.

Consider home upgrades

when the time is right, such as new windows, a new roof or a new furnace or AC depending on the age of each of these items that play an important role in energy costs.
