Moulding the Female Body in Victorian Fairy Tales and Sensation Novels Laurence Talairach-Vielmas, 2016-04-15
Laurence Talairach Vielmas explores Victorian representations of femininity in narratives that depart from mainstream realism from fairy tales by George MacDonald Lewis Carroll Christina Rossetti Juliana Horatia Ewing and Jean Ingelow to sensation novels by Wilkie Collins Mary Elizabeth Braddon Rhoda Broughton and Charles Dickens Feminine representation Talairach Vielmas argues is actually presented in a hyper realistic way in such anti realistic genres as children s literature and sensation fiction In fact it is precisely the clash between fantasy and reality that enables the narratives to interrogate the real and re create a new type of realism that exposes the normative constraints imposed to contain the female body In her exploration of the female body and its representations Talairach Vielmas examines how Victorian fantasies and sensation novels deconstruct and reconstruct femininity she focuses in particular on the links between the female characters and consumerism and shows how these serve to illuminate the tensions underlying the representation of the Victorian ideal

Alice's Adventures in Wonderland Lewis Carroll, 1914 When Toys Come Alive Lois R. Kuznets, 1994-01-01 In this work the author studies the role of toy characters in works ranging from older classics such as Pinocchio and Winnie the Pooh to modern texts such as The Mouse and his Child and the comic strip Calvin and Hobbes science fiction with robots and cyborgs

Contemporary Task-Based Language Teaching in Asia Michael Thomas, Hayo Reinders, 2015-02-26 Over the last decade task based approaches to language learning and teaching TBLT have become a global focus of increased levels of research Governments around the world have turned to TBLT as a potential solution for curricula that lack authentic and meaningful engagement with language learning and are failing to motivate students as a result This book focuses on Asia where this shift has been particularly in evidence TBLT has often been implemented in top down approaches to curriculum development which presents a huge range of challenges at the cultural as well as the pedagogic level Contemporary Task Based Language Teaching in Asia looks at the drivers stakeholders and obstacles across the region Some countries have adapted TBLT to deal with the local constraints others have found it hard to apply and many are still in the process of investigating its implementation in their specific contexts This collection is important to all involved in language development from

Wonderland Andy Liu, 2015-12-31 Arithmetical Wonderland is intended as an unorthodox mathematics textbook for students

in elementary education in a contents course offered by a mathematics department The scope is deliberately restricted to cover only arithmetic even though geometric elements are introduced whenever warranted For example what the Euclidean Algorithm for finding the greatest common divisors of two numbers has to do with Euclid is showcased Many students find mathematics somewhat daunting It is the Author s belief that much of that is caused not by the subject itself but by the language of mathematics In this book much of the discussion is in dialogues between Alice of Wonderland fame and the twins Tweedledum and Tweedledee who hailed from Through the Looking Glass The boys are learning High Arithmetic or Elementary Number Theory from Alice and the reader is carried along in this academic exploration Thus many formal proofs are converted to soothing everyday language Nevertheless the book has considerable depth It examines many arcane corners of the subject and raises rather unorthodox questions For instance Alice tells the twins that six divided by three is two only because of an implicit assumption that division is supposed to be fair whereas fairness does not come into addition subtraction or multiplication Some topics often not covered are introduced rather early such as the concepts of divisibility and congruence
