Reform Conflict And Change In The Cis And Eastern Europe:

Reform, Conflict, and Change in the CIS and Eastern Europe Ram Rattan Sharma, Shashikant Jha, 1999 Reform, Conflict and Change in the CIS and Eastern Europe Shashikant Jha, Ram Rattan Sharma, 1998 **India and Central Europe** Rajendra K. Jain, 2021-09-01 This book explores the transformation of India's relations with Central and Eastern Europe from being a subset of Indo-Soviet relations during the Cold War to the rediscovery and rebuilding of relations with the region almost from scratch in the post Cold War era. It examines how the combination of Brexit, the rise of China and India's expanding geo-economic interests in Europe has led the Narendra Modi government to contemplate relations with Central Europe through a more strategic lens and treat the region as an autonomous element within India's foreign policy rather than a footnote of its relations with other great powers. Fulfilling a long-felt gap in existing literature, this volume examines India's political, economic, investment, defence and cultural relations with the Visegrad Four: the Czech Republic, Hungary, Poland and Slovakia. It analyzes Indian perceptions of Central Europe and explores prospects of New Delhi's political and economic engagement with the region. The painstakingly compiled appendices on the exchange of bilateral visits and agreements between India and the Visegrad Four would be of immense use as a handy reference to scholars, policy makers and other interested persons and institutions. **Political Science Abstracts**, 2012-12-06 Political Science Abstracts is an annual supplement to the Political Science Government and Public Policy Series of The Universal Reference System which was first published in 1967. All back issues are still available. **Reform of the Socialist System in Central and Eastern Europe** Martin J. Bull, Mike Ingham, 2016-07-27 This book analyzes the reform of the socialist system in Central and Eastern Europe and the former Soviet Union. Uniquely, it adopts a multi-disciplinary perspective which includes authors from both Western Europe and the former Communist world. The volume contains analyses of the prospects for civil society, economic reform and privatisation, theories of economic transition and the role of the state, political change and the persistence of former Communist parties, the prospects for democracy in the former Soviet Union and gender aspects of labour market reform. *Constitutional Reforms and International Law in Central and Eastern Europe* Rejn Avovič Müllerson, Malgosia Fitzmaurice, Mads Tønnesson Andenæs, 1998 The recent developments in central and eastern Europe have changed the political landscape of the world. The dissolution of the Soviet Union, Czechoslovakia and Yugoslavia, the collapse of Communism in Europe, market reforms and the processes of democratisation are all seminal events affecting not only the countries in transition but other states as well. All these changes presuppose fundamental legal reforms. In this process, most of the countries in transition have adopted new constitutions where issues of participation in the international political order and questions of international law enjoy a prominent place. This book is one outcome of many research activities concerning these transitions in central and eastern Europe at the Centre of European Law, King's College London. It contains essays about constitutional reforms and international law by leading international judges and academics. It is edited

Governance Failure and Reform Attempts After the Global Economic Crisis of 2008/09 Leonid,2014-04-15 The global economic crisis of 2008 2009 has had a broad impact far beyond economic concerns Most importantly it has been seen as a crisis of governance and debates have not just questioned specific regulations e g of global financial markets but have additionally challenged the appropriateness of underlying governance concepts not only in global markets but also at the national level For the post socialist countries which adopted market oriented governance mechanisms less than two decades ago the global crisis was the first stress test after the post socialist recovery The contributions in this book focus on the impact of the crisis and related reform attempts in two important areas The first area is financial and monetary policy which is at the core of the global crisis of 2008 2009 The second area is relations between business and state actors where corruption and weak institutional frameworks can both seriously hamper reform attempts The volume comprises essential contributions on how the post socialist countries have tried to cope with the first global economical crisis they saw themselves confronted with
