Reform Of The Papacy:

Reform and the papacy in the eleventh century Kathleen G. Cushing,2020-01-03 This book explores the relationship between the papacy and reform against the backdrop of social and religious change in later tenth and eleventh century Europe Placing this relationship in the context of the debate about transformation it reverses the recent trend among historians to emphasise the reform developments in the localities at the expense of those being undertaken in Rome It focuses on how the papacy took an increasingly active part in shaping the direction of both its own reform and that of society whose reform became an essential part of realising its objective of a free and independent Church It also addresses the role of the Latin Church in western Europe around the year 1000 the historiography of reform the significance of the Peace of God as a reformist movement the development of the papacy in the eleventh century the changing attitudes towards simony clerical marriage and lay investiture reformist rhetoric aimed at the clergy and how reformist writings sought to change the behaviour and expectations of the aristocracy Summarising current literature while presenting a cogent and nuanced argument about the complex nature and development of reform this book will be invaluable for an undergraduate and specialist audience alike

The Papal Reform of the Eleventh Century ,2013-01-01 The eleventh century papal reform transformed western European Church and society and permanently altered the relations of Church and State in the west The reform was inaugurated by Pope Leo IX 1048-54 and given a controversial change of direction by Pope Gregory VII 1073-85 This book contains the earliest biographies of both popes presented here for the first time in English translation with detailed commentaries The biographers of Leo IX were inspired by his universally acknowledged sanctity whereas the biographers of Gregory VII wrote to defend his reputation against the hostility generated by his reforming methods and his conflict with King Henry IV Also included is a translation of *Book to a Friend* written by Bishop Bonizo of Sutri soon after the death of Gregory VII as well as an extract from the violently anti Gregorian polemic of Bishop Benzo of Alba 1085 and the short biography of Leo IX composed in the papal curia in the 1090s by Bishop Bruno of Segni These fascinating narrative sources bear witness to the startling impact of the papal reform and of the Investiture Contest the conflict of empire and papacy that was one of its consequences An essential collection of translated texts for students of medieval history

Popes and Church Reform in the 11th Century H.E.J. Cowdrey,2024-10-28 The essays in this volume centre upon the epoch making papacy of Gregory VII

1073 85 and complement the author's major study of the pope. They look at the formation and expression of Gregory's ideas notably in relation to simony and clerical chastity and emphasise his religious motivation. Attention is also given to the impact of his pontificate on the Anglo-Norman lands and Scandinavia. The book further includes extended discussion of the contrasting figure of Lanfranc, Archbishop of Canterbury 1070-89 and of the complex question of the interaction between him and Pope Gregory.

The Papacy, Frederick II and Communal Devotion in Medieval Italy James M. Powell, edited by Edward Peters, 2024-10-28. Of the twenty-five essays in this volume most were published between 1961 and 2013 but four are printed here for the first time. They represent the work of a great and original scholar in Mediterranean history whose unflagging interest in Frederick II and his world consistently led him out into broader fields which he always viewed in original ways. In an age often called that of papal monarchy and secular-minded rulers, Powell found popes with complex agendas and extensive pastoral concerns, a rather more Christian Frederick II, the human personnel and mechanics of the Fifth Crusade, the sermons of the devout urban layman Albertanus of Brescia and Muslims under Christian rule. His studies here assert a continuity between the pontificates of Innocent III and Honorius III as well as the pragmatic necessity that only secular rulers could launch and direct crusading expeditions. His interest in the northern Italian communes relates their devotional culture to the ideals of virtuous government and communal identity. The devotional culture of the communes was to be the subject of his next book, now unfinished; several parts of it could be rescued and are now included here.

The Papacy, 1073-1198 I. S. Robinson, 1990-07-19. This book is a study of the transformation of the role of the pope in the late eleventh and twelfth centuries.

England and the Papacy in the Early Middle Ages Benjamin Savill, 2023-07-26. *England and the Papacy in the Early Middle Ages: Papal Privileges in European Perspective c. 680-1073* provides the first dedicated book-length study of interactions between England and the papacy throughout the early middle ages. It takes as its lens the extant English record of papal privileges: legal diplomas drawn up on metres-long scrolls of Egyptian papyrus acquired by pilgrim petitioners within the city of Rome and then brought back to Britain to negotiate local claims and conflicts. How, why and when did English petitioners choose to invoke the distant authority of Rome in this way and how did this compare to what was taking place elsewhere in Europe? How successful were these efforts and how were they remembered in later centuries? By using these still understudied papal documents to reassess what we know of the worlds of Bede, the Mercian Supremacy, the West Saxon Kingdom of the English and the Norman Conquest, locating them in the process within a comparative Europe-wide setting, this book offers important new contributions to Anglo-Saxon studies, legal and documentary history, papal history and the study of early medieval Europe more widely. It also includes an annotated handlist of the corpus of English papal privileges up to 1073, a critical reference work for future research in the field.

Christian Political Theory and Church Politics in the Mid-Twelfth Century Stanley Chodorow, 2023-11-15. Gratian's *Decretum*, completed around 1140, represents a monumental development in the history of canon law and Christian political theory. As

the foundational text for a new systematic approach to Church law Gratian's work combined the ancient canons with innovative scholastic methods reconciling contradictions and offering a cohesive legal framework This Concordia discordantium canonum Concordance of Discordant Canons not only became the cornerstone for the study and practice of canon law but also influenced the broader legal and governmental systems of medieval Europe The Decretum introduced methodological rigor reminiscent of Abelard's scholastic theology creating a system for resolving conflicting canons through distinctions and contextual interpretations Gratian's work was pivotal in shaping the legal culture of the Church establishing him as the father of the science of canon law This study delves into the Decretum's historical context arguing that its significance extends beyond its intellectual contributions to include its engagement with the political and ecclesiastical dynamics of the mid twelfth century Gratian's efforts coincided with critical developments in Church reform the assertion of papal authority and debates over the relationship between spiritual and secular powers Far from being an isolated academic exercise the Decretum reflects a deliberate attempt to create a Christian theory of societal structure and governance By considering its original purpose and comparing it with contemporary works this analysis positions the Decretum as a key document in understanding the interplay of law theology and politics in medieval Christendom Through this lens Gratian's work emerges not only as a legal text but as a significant contribution to the theory and practice of ecclesiastical and political order This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1972
