Reframing Of Realism:

The Reframing of Realism Hazel Gold, 1993 In the writing of Benito Pérez Galdós Spain's most prolific and innovative nineteenth century novelist Hazel Gold finds the act of framing insistently at work By exploring Galdós's methods of structuring and evaluating literary and historical experience Gold illuminates the novelist's art and uncovers the far reaching narratological social and epistemological implications of his framing strategies A close look at Galdós's novels reveals the artist at pains to contain and interpret what he perceived to be the distinctive and often disheartening experience of bourgeois liberalism of his day Looking beyond text to context Gold examines the ways in which Galdós's work itself has been framed by readers and critics in accordance with changing allegiances to contemporary literary theory and the canon The highly ambiguous status of the frame in Galdós's fiction confirms the author's own signal position as a writer poised at the limits between realism and modernity

Sounding Authentic Joshua S. Walden, 2014 Sounding Authentic considers the intersecting influences of nationalism modernism and technological innovation on representations of ethnic and national identities in twentieth century art music Author Joshua S. Walden discusses these forces through the prism of what he terms the rural miniature short violin and piano pieces based on folk song and dance styles This genre mostly inspired by the folk music of Hungary the Jewish diaspora and Spain was featured frequently on recordings and performance programs in the early twentieth century Furthermore Sounding Authentic shows how the music of urban Romany ensembles developed into nineteenth century repertoire of virtuosic works in the style hongrois before ultimately influencing composers of rural miniatures Walden persuasively demonstrates how rural miniatures represented folk and rural cultures in a manner that was perceived as authentic even while they involved significant modification of the original sources He also links them to the impulse toward realism in developing technologies of photography film and sound recording Sounding Authentic examines the complex ways the rural miniature was used by makers of nationalist agendas who sought folkloric authenticity as a basis for the construction of ethnic and national identities The book also considers the genre's reception in European diaspora communities in America where it evoked and transformed memories of life before immigration and traces how many rural miniatures were assimilated to the styles of American popular song and swing Scholars interested in musicology ethnography the history of violin performance twentieth century European art music the culture of the Jewish Diaspora and more will find Sounding Authentic an essential addition to their library
