Reginald Thomas Appleyard,1998 This IOM UNFPA project on Emigration Dynamics in Developing Countries was initiated during the early 1990 s **MIGRATION AND REMITTANCES IN BACKWARD REGIONS** Dr. TALWAR SABANNA,2018-07-21 Migration from one area to another in search of improved livelihood is a key feature of human history While some regions and sectors fall behind in their capacity to support populations other move ahead and people migrate to access these emerging opportunities Industrialization widens the gap between rural and urban areas including a shift of the workforce towards industrializing areas There is extensive debate on the factors that causes population to shift from those that emphasize individual rationality and household behavior to those that cite the structural logic of capitalist development

Empowering Women in Work in Developing Countries Maarten van Klaveren,K. Tijdens,2012-11-13 Presents the outcomes of a major 14 country project aimed at empowering girls and young women Provides a discussion of their choices in life comparing factors such as family background health education employment opportunities and the use of and access to the internet International Remittance Payments and the Global Economy Bharati Basu,James T. Bang,2014-08-07

International Remittance Payments are described mainly as money sent by immigrants to their families and friends in their home countries These payments provide an important source of income that is mostly used to provide for a variety of basic needs of the non migrating members of immigrant families and thus remittance payments can be considered as a tool to reduce the poverty level of the labor sending countries However remittances are also used for asset accumulation by some families and for some countries they constitute a good part of foreign funds coming into the country In spite of their increasing volume over the last few decades a lot of things about remittances are not known and studies estimate that about half of these money transfers are not even recorded Since these payments are shown to reduce poverty and help economic progress in the remittance receiving countries a better knowledge about remittances would help the debates surrounding immigration remittances and their relation to the global economy This book provides an overview of remittances in different parts of the world over the last thirty years It looks at the labor sending and labor receiving countries separately The text

examines the trends uses motivations behind sending remittances cost of sending them and how they are affected by the nature and the development level of different institutional factors The remittance flows are growing over time and they are used mostly for reducing the uncertainty of life in the less developed parts of the world However motivation for sending remittances could be improved and thus remittances could be more conducive to economic development if 1 the relation between the remittance decision and the migration decision is better understood and 2 the costs of international money transfers are reduced More studies about those issues would benefit the international community Efforts should be made in all fronts to encourage such international flow of funds not only to have a redistribution of income all over the world but also to synchronize the efforts towards global economic development and a better integration of the world economy This book is aimed researchers policy practitioners and post graduates studying International Economics or International Economic Relations or Political Science or Economic Development

Immigration and Regional Integration in a Globalizing World Christopher C. White, 2015-10-08 In *Immigration and Regional Integration in a Globalizing World* Christopher White makes an important contribution to the immigration debate by investigating the relationship between two of the most important forces shaping the current international system international migration and regional integration The ability to manage the movement of people across national borders is considered one of the primary responsibilities of the nation state but international migration always involves more than one country The world has become increasingly globalized and international migration has followed suit The vast majority of states have come to realize that successful and effective migration policies involve cooperation and coordination with other states sometimes by choice and sometimes by necessity However these efforts both regionally and globally are often highly contentious and result in conflict internally and externally Managing migration and integration are key concerns for governments in nearly every region of the world and will take on even greater importance as globalization and technological advances shrink distances and bring us closer together White uses an evidence based approach to understanding immigration and economic integration to debunk the migration myth that sees a strong connection between these two factors Contrary to prevailing assumptions the main argument is that there is no substantial relationship between the international migration and regional integration despite the political rhetoric that generates enormous fear and anxiety surrounding these issues Instead of conflating them countries can consider the benefits of integration policies without worrying about migration and can consider migration policies without concern for integration This book is for anyone concerned about the issue of immigration and its relationship to trade liberalization and regional integration

Chains of Gold Marcelo J. Borges, 2009 Why did migrants from southern Portugal choose Argentina instead of following the traditional path to Brazil Starting with this question this book explores how at the turn of the twentieth century rural Europeans developed distinctive circuits of transatlantic labor migration linked to diverse immigrant communities in the Americas It looks at transoceanic moves in the larger context of migration systems examining their connections and the

crucial role of social networks in migrants geographic mobility and adaptation Combining regional and local perspectives on both sides of the Atlantic *Chains of Gold* provides a vivid account of the trajectories of migrant men and women as they moved from rural Portugal to contrasting places of settlement in the Argentine pampas and Patagonia *Regional Economic Outlook, Fall 2006, Sub-Saharan Africa, Supplement* International Monetary Fund. African Dept.,2006-05-03 Provides a broad synopsis of recent economic developments in the Middle East and Central Asia region highlighting common trends and policies among countries in the region and reviewing prospects and policies for the coming year Includes a statistical appendix **Regional Economic Outlook, April 2017, Western Hemisphere Department** International Monetary Fund. Western Hemisphere Dept.,2017-05-19 With the global economy gaining some momentum economies of Latin America and the Caribbean are recovering from a recession at the regional level in 2016 This gradual improvement can be understood as tale of two adjustments external and fiscal that are ongoing in response to earlier shocks But headwinds from commodity terms of trade shocks and country specific domestic factors are fading paving the way for real GDP to grow by about 1 percent in 2017 Regional activity is expected to pick up further momentum in 2018 but at a slower pace than previously anticipated while medium term growth is projected to remain modest at about 2.6 percent The outlook is shaped by key shifts in the global economic and policy landscape where slow growth low productivity and high income inequality are creating pressure for a shift toward inward looking policies in some advanced economies Domestic fundamentals and developments however will continue to play a significant role in determining growth for the region At the same time risks to the outlook have widened in a setting of higher global uncertainty In this challenging external context countries should aim for completing fiscal and external adjustments to preserve or rebuild policy buffers Charting a course toward higher sustainable and more equitable growth will also require strengthening structural reforms Specifically closing infrastructure gaps improving the business environment governance and education outcomes and encouraging female labor participation are necessary to boost medium term growth and foster income convergence Chapters in this report examine the ongoing external adjustment to terms of trade shifts drivers of capital flows to the region the role of the investor base and macroeconomic impact of migration and remittances *Migration, Regional Integration and Human Security* Harald Kleinschmidt,2006 This original and timely book is the first to analyze the interconnectedness of migration regional integration and the new security studies The book explores the conflict between the actions of transnational migrants and state government policy in a series of chapters *International Migration, Remittances, and the Brain Drain* Çağlar Özden,Maurice W. Schiff,2003 International migration the movement of people across international boundaries has enormous economic social and cultural implications in both origin and destination countries Using original research this title examines the determinants of migration the impact of remittances and migration on poverty welfare and investment decisions and the consequences of brain drain brain gain and brain waste **Migration and Remittances in Latin America and the Caribbean** Ms.Kimberly Beaton,Ms.Svetlana

Cerovic,Misael Galdamez,Metodij Hadzi-Vaskov,Franz Loyola,Zsoka Koczan,Mr.Bogdan Lissovlik,Mr.Jan Kees Martijn,Ms.Yulia Ustyugova,Joyce Wong,2017-06-30 Outward migration has been an important phenomenon for countries in Latin American and the Caribbean LAC particularly those in Central America and the Caribbean This paper examines recent trends in outward migration from and remittances to LAC as well as their costs and benefits For the home country the negative impact from emigration on labor resources and productivity seems to outweigh growth gains from remittances notably for the Caribbean However given emigration remittance flows play key financing and stabilizing roles in Central America and the Caribbean They facilitate private consumption smoothing support financial sector stability and fiscal revenues and help reduce poverty and inequality without strong evidence for harmful competitiveness effects through shifts in the real exchange rate Regional Integration and Poverty Dirk Willem te Velde,the Overseas Development Institute,2017-05-15 Relatively little is known about how regional integration affects poverty Many suggest that increased investment would be one of the benefits of agreeing on regional integration provisions but this has not been put to the empirical test for South South integration This volume examines the channels through which regional integration affects poverty and empirically analyzes the effects on foreign direct investment **Globalization, Competition and Growth in China** Jian Chen,Shujie Yao,2006-04-18 Presenting original work and new thinking on a wide range of important issues the book explores the current state of globalization competition and growth in China China has produced an economic miracle since the late 1970s in its transition from a planned to a market economy This remarkable economic performance was brought about by an open door policy and gradual integration with the world economy culminating in China s admission into the World Trade Organisation in 2001 Studies included in this book focus on issues such as foreign direct investment international trade reforms in the financial sector the development of rural township and village enterprises the investment strategies of multinational corporations and economic growth *Migrant Labor Remittances in South Asia* Samuel Munzele Maimbo,Richard Adams,Nikos Passas,Reena Aggarwal,2005-06-01 According to a recent World Bank study of remittances Bangladesh India Pakistan and Sri Lanka are all among the top 20 receivers of remittances with estimated receipts of US 3 2 billion US 8 4 billion and U S 1 5 billion respectively Migrant Labor Remittances in South Asia identifies and discusses the key issues affecting the remittance industry in South Asia It examines the development and implementation of policies processes and infrastructure to foster a development oriented transfer of financial resources between migrants in developed economies and their families in the region Rather than duplicate previous remittances work this title only focuses on the region s distinguishing characteristics namely A large migrant population of semi skilled and unskilled workers largely concentrated in the Arabian Gulf countries particularly Saudi Arabia and the United Arab Emirates The presence of dedicated public institutions and government financial incentives aimed at facilitating and providing incentives for temporary migration and remittance inflows The existence of large state bank branch networks with immense potential for a more

effective and efficient remittance financial market The widespread usage of trade related informal remittance channels by both legal and illegal migrants The book is intended for policymakers who legislate and regulate the financial sector as well as for researchers and providers of remittance services *Migration and Displacement in the IGAD Region* Michael Omondi Owiso, Fekadu Adugna Tufa, Abdi Mohamud Hersi, 2025-04-05 This book delves into the dynamics of human mobility and migration in the Intergovernmental Authority on Development IGAD region during the COVID 19 pandemic It uses empirical sources from extensive fieldwork in the region to assess the impact of COVID 19 on conflict induced internally displaced persons IDPs vulnerable and disadvantaged groups the response of the government and IDPs coping mechanisms It traces migration governance from regional and national perspectives and shares the opportunities and challenges in the region The book presents the lessons learned and shares a way forward for the region during future pandemics Chapters cover topics such as the protection of migrant workers rights livelihoods of cross border traders and communities and the gender dimension of COVID 19 impacts It is a valuable read for students policymakers policy advisors academics and all those interested in studies on migration and migration related diversities *Regional Development: Theory and Practice* Baleshwar Thakur, H.S.
