## **Regional Dynamics Elgar Reference Collection:**

**Alternative Approaches in Macroeconomics** Philip Arestis, 2018-02-07 This book honours Professor John McCombie's retirement by exploring a variety of themes theories and debates in non orthodox macroeconomics With contributions from leading scholars the book covers diverse ground in economic thought policy empirical work and modelling It demonstrates ongoing presumptions and asks probing questions of topical questions from the increase of income equality to the international variation of productivity investment This collection will appeal to academics and students with an interest in the history of macroeconomic thinking *Index of Economic Articles in Journals and Collective Volumes* American Economic Association, 2003 **Index of Economic Articles in Journals and Collective Volumes**, 2003 **Enacting Regional Dynamics and Entrepreneurship** Bengt Johannisson, Åsa Lindholm Dahlstrand, 2013-09-13 In present digital times the focus is on globalization and the dynamics and complexities that it creates However in spite of being dominated by technology the world remains populated by human beings practising a localized everyday life This contrast should challenge every researcher who is concerned with business and societal development and how that is contingent upon the institutional and cultural national context In this book Swedish researchers reflect upon entrepreneurship as a possible mediator between local and global economic and social concerns Using as a point of departure the tensions between a functional footloose rationale and a territorial rationale tied to place the authors provide different aspects on regional development in a globalised world A shared concern is the importance of recognizing the many appearances of entrepreneurship that brings it beyond being an innovative force in the market The book thus presents different strategies and tactics for pursuing localized economic development and it also critically reviews adopted public support programmes and measures of the local business climate The conclusive message is that only by bridging the functional and territorial views will it be possible to sustain and possibly enhance economic and social life in local places as well as in our shared world This book was originally published as a special issue of European Planning Studies **Spatial Economic Science** Aura Reggiani, 2012-12-06 With the dawn of the twenty first century comes the awareness that current rapid political economic social and technological transformations will affect our of living by producing new forms of information communications common way market work style and leisure In this context human behaviour will certainly change its fixed parameters It is likely that the relationships between internal structures and external influences between individual components and collective behaviour as well as between multi scale networks and interrelated dynamics will show spatio temporal patterns which will be difficult to predict by means of our usual tools As a consequence academic research is increasingly being required to play an active role in addressing new ways of understanding and forecasting the sets of interacting structures ranging from the technical to the organizational and from the social to the economic and political levels while at the same time incorporating concerns about the new economy environment society information and technology It is now evident that social science especially spatial and economic scienc

needs innovative paths together with continuous cross fertilization among the many disciplines involved In order to investigate these intriguing perspectives we seem to have embarked on an era of methodological reflections rather than developing strong theoretical foundations This volume aims to provide an overview of these new insights and frontiers for theoretical methodological studies and research applications in the space economy

**Global and Regional Dynamics in Knowledge Flows and Innovation** Chris Van Egeraat, Dieter Kogler, Phil Cooke, 2015-10-14 Innovation which in essence is the generation of knowledge and its subsequent application in the marketplace in the form of novel products and processes has become the key concept in inquiries concerning the contemporary knowledge based economy Geography plays a decisive role in the underlying processes that enable and support knowledge formation and diffusion activities Place specific characteristics are considered especially important in this context however more recently investigation into innovative capacity of places has also turned its attention to external knowledge inputs through innovation networks and increasingly recognize the evolutionary character of the processes that lead to knowledge creation and subsequent application in the marketplace The chapters that comprise this book are embedded at the intersection of the dynamic processes of knowledge production and creative destruction The first three contributions all discuss the role of global innovation networks in the context of territorial and or sectoral dynamics while the following two chapters investigate the evolution of regional or metropolitan knowledge economies The final three contributions adopt a knowledge base approach in order to provide insight into the organisation of innovation networks and spatiality of knowledge flows This book was published in a special issue of European Planning Studies

**Asia-Pacific Transitions** D. Andersson, J. Poon, 2001-01-19 Modern focus on the Asia Pacific has centred on its rapid transformation in the span of a mere two decades Since the 1997 economic crisis however attention has now turned to transition issues as the region faces the challenge of global structural transformation that has and will affect the direction of the region's long term development Drawing from a range of contributors from several disciplines this book seeks to capture some of the multifaceted dimensions of these transitions as the region adjusts to new global realities

**Drivers of Innovation, Entrepreneurship and Regional Dynamics** Karima Kourtiti, Peter Nijkamp, Roger R. Stough, 2011-06-10 The need for informed and effective insights into key concepts and models of regional development and growth from an endogenous growth perspective has risen over the past decade These recent advances address in particular local and regional assets and characteristics comprising inter alia creativity knowledge innovation forces and entrepreneurship Access to and exploitation of these modern forms of human and social capital are of paramount importance for the dynamic regional economic environment in a city or region This volume offers an overview and critical treatment of the spatial economic roots opportunities and impacts of new growth strategies mainly from an evidence based perspective In the various contributions to this volume relevant findings and strategic options are interpreted and discussed from both an analytical and a policy perspective to help cultivate creativity human capital development and innovation as

well as entrepreneurial activity with a view to exploit the drivers of economic development in order to strengthen the competitive edge of cities and regions

**Dynamic Capabilities Between Firm Organisation and Local Systems of Production** Riccardo Leoncini, Sandro Montresor, 2007-12-21 This book offers an analysis of how firms manage to reconfigure their pool of resources to deal with the turbulent environments in which they are embedded thus tackling the issue of how dynamic capabilities must be defined and conceptualized *Journal of Economic Literature*, 2007

**Regional Analysis and Policy** Harry Coccossis, Yannis Psycharis, 2008-08-02 Regional development is attracting the attention of policy makers and scientists again as regions urban centers and rural areas experience substantial pressures particularly in Europe as a consequence of globalization and geopolitical changes which lead to changes in spatial structures and dynamics This book is based on the contributions of Greek regional science research presented at the 2006 Congress of the European Regional Science Association at Volos Greece The contributions selected to be presented in this book address these changes offering a fresh look into regional development They provide an overview of regional development concerns from Greek regional scientists but the issues discussed pervade Greek particularities and stimulate thinking about regional science regional development and regional policy in the early twenty first century *The Impact of U.S.-Mexican Economic Integration on National and Subsector Competitiveness* Ellen T. Fitzpatrick, 1999

**The Dynamics of the Innovation Divide between China and Europe** Arkadiusz Michal Kowalski, 2022-03-13 This book examines the problem of the innovation divide in the world economy and convergence in innovation performance between leaders and followers analysed through the prism of Chinese experiences and explored from an European Union EU perspective The rationale for research conducted in this book is an observation of a significant change in the geography of world innovation reflected in the emergence of innovation hubs in developing countries and in the shift of manufacturing activity including high and medium high technology industries to emerging economies mainly China The book analyses the factors of Chinese innovation success in recent decades such as China's science technology and innovation policy increased R D expenditures human capital development and the development of clusters and highly specialized industries It also focuses on the challenges for developed European economies which are being at risk of losing their knowledge related sources of competitive advantage It also offers recommendations for future policy actions The book's analysis goes beyond a cross country comparison taking into account a regional perspective The reason for this regional dimension is the increasingly recognized importance of proximity in stimulating innovation processes and an observed strong geographical polarization of innovation activity at specific regions seen in the emergence of clusters particularly visible in China The monograph will provide an up to date reference for academics and students across a variety of disciplines It will be of particular interest to researchers in the area of innovation and practitioners doing business in China as well as policymakers at international national and regional levels involved in designing and implementing innovation policy

**International Bibliography of Economics 1998** Compiled by the British

## **Regional Dynamics Elgar Reference Collection Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Regional Dynamics Elgar Reference Collection has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Regional Dynamics Elgar Reference Collection has opened up a world of possibilities. Downloading Regional Dynamics Elgar Reference Collection provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Regional Dynamics Elgar Reference Collection has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Regional Dynamics Elgar Reference Collection. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Regional Dynamics Elgar Reference Collection. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Regional Dynamics Elgar Reference Collection, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Regional Dynamics Elgar Reference Collection has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
