## **Regional Guide South 2006:**

**Regional Economic Communities and Integration in Southern Africa** Leon Mwamba Tshimpaka, Christopher Changwe Nshimbi, Inocent Moyo, 2021-05-07 This book examines regional integration in Africa with a particular focus on the Southern African Development Community SADC. It argues that the SADC's pursuit of a rationalist and state-centric form of integration for Southern Africa is limited as it overlooks the contributory role and efficacy of non-state actors who are relegated to the periphery. The book demonstrates that civil society networks in Southern Africa constitute well-governed self-organised entities that function just like formal regional arrangements driven by state actors and technocrats. The book amplifies this point by deploying New Institutionalism and the New Regionalism Approach to examine the role and efficacy of non-state actors in building regions from below. The book develops a unique typology that shows how Southern African regional civil society networks adopt strategies, norms and rules to establish an efficient form of alternative integration in the region. Based on a critical analysis of this self-organised regionalism, the book projects the reality that alternative regionalism driven by non-state actors is possible. This book expands the study of regionalism in the SADC and makes a significant and innovative contribution to the study of contemporary regionalism. Tourism and Change in Polar Regions C. Michael Hall, Jarkko Saarinen, 2010-07-15 Explores the relationship between tourism and climate change in both Arctic and Antarctic polar regions by considering the associated environmental, economic, social and political factors. This book draws on both Arctic and Antarctic Polar region case studies to help illustrate these climate change issues. **Region-Building in Southern Africa** Chris Saunders, Gwinyayi Albert Dzinesa, Dawn Nagar, 2013-07-04 How successful have Southern African states been in dealing with the major issues that have faced the region in recent years? What could be done to produce more cohesive and effective region building in Southern Africa? In this original and wide-ranging volume, which draws on an interdisciplinary team of mainly African and African-based specialists, the key political, socio-economic and security challenges facing Southern Africa today are addressed. These include the various issues confronting the Southern African Development Community SADC and its institutions such as HIV/AIDS, migration and xenophobia, land grabbing and climate change, and the role of the main external actors involved with the region including the United Nations, the European Union, the United States and China. The book also looks at the Southern African Customs Union and Southern African Development Finance Institutions including the Development Bank of Southern Africa and Industrial Development Corporation and issues of gender and peacebuilding. In doing so, the book goes to the heart of analyzing the effectiveness of SADC and other regional organisations, suggesting how region building in Southern Africa may be compared with similar attempts elsewhere in Africa and other parts of the world. **Field Guide to Wild Flowers of South Africa** John Manning, 2013-08-22 Field Guide to Wildflowers of South Africa describes more than 1 100 of the shrubs and herbs of the region, highlighting the most conspicuous species and those most likely to be encountered across the country.
